

MILLS CLOSED BECAUSE OF HEAT

BARRETT'S SPEECH
AROUSSED DISCUSSION

He Says Members of Council
May Leave Themselves Liable
to \$1000 Fine

In his argument in the Stiles case, Tuesday night, Alderman Barrett said that the city of Lowell hasn't money enough to meet its obligations unless the members of the council perform an illegal act within the week.

This particular part of Mr. Barrett's speech has aroused a lively discussion about town, and asked today to make his meaning more explicit, Mr. Barrett said: "I meant just what I said. While the municipal council has voted to borrow \$700,000 to apply to the temporary loan of last year it cannot be used for that purpose, and the member of the municipal council who votes to apply it to the temporary loan of 1911 would be doing an illegal act that would not only furnish cause for his removal from office, but would also render him liable to a fine of \$1000."

"The law in the matter is very simple and very plain. In fact, there is nothing connected with the city's business that is not perfectly plain. All that's required is just a little common honesty. No superior order of intelligence is required to conduct the city's business and conduct it on a proper, and business-like basis."

"It would not help us any to borrow \$700,000 at this time. In fact, it would but serve to complicate matters, for the law says that money borrowed in anticipation of taxes can be expended for no other purpose except that of de-

fraying the current expenses of the year in which it is borrowed. That simply means that money borrowed in anticipation of the taxes of 1912 could not be applied, and applied legally, to the temporary loan of 1911."

Up to the Voters

At the state election to be held November 5 there will appear on the ballot to be voted upon by the voters, proposed amendments to the constitution, as follows:

Shall the proposed amendment to the constitution relative to the taxation of wild and forest lands be approved and ratified?

Shall the proposed amendment to the constitution disqualifying from voting persons convicted of certain offenses be approved and ratified?

At the city election to be held December 10, the voters will have their say as to whether the firemen shall have one day off in five. The proposition for one day off in five will not interfere with the two weeks' vacation now allowed the firemen. The voter will also, at the next city election, have an opportunity to vote on the question of pensioning laborers. The statement, has gone out that hereafter none but enrolled voters would be allowed to sign the nomination papers of any candidate and it is true as far as it goes but it doesn't go far enough. The law reads as follows: None but enrolled voters of the party represented by a candidate and voters who are not enrolled in any party, shall be entitled to sign the nomination paper of such candidate.

LOWELL DELEGATES
AT STATE CONVENTION

Of Stationary Engineers
at Northampton

The annual convention of the National Association of Stationary Engineers was opened at Northampton today and will continue tomorrow and Saturday. Every branch of the association in the state has delegates at the session and considerable important business is scheduled to be transacted. Lowell branch No. 17, being represented

THEODORE N. KELSEY,
One of Legal Delegates.

ed by the following: T. N. Kelsey, W. E. Sargent, I. F. Monitor, H. W. Yennans, M. E. Powers, I. L. Corbin, T. F. Gibbons, Charles Hamel and Fred E. Harris. The Lowell men were accompanied to the convention by M. J. Donahue of the C. B. Coburn Co. of this city. One of the most welcome delegates to the Stationary Engineers' convention is Mr. Donahue for he is personally acquainted with practically every delegate and takes a leading part in entertaining the delegates and incidentally explaining the merits of the works of the C. B. Coburn Co. and singing the praises of the manager, Fred W. Coburn, who in former years always attended these conventions.

PICNIC PARTIES

Several picnics were held in this vicinity today. This morning the regular Thursday trip to Revere beach was held and at 8:15 o'clock a jumbo car filled with people left Merrimack square for the resort.

The fourth annual excursion by A. Stead and E. Racetto to Revere beach was held today. The party occupied one large car which followed the railway special to the beach. They will visit all the points of interest in that vicinity.

The members of the Union Baptist Sunday school of Malden are today enjoying an outing at Lakeview. The picnicers came here on three special cars. They arrived in Merrimack square at 11:15 o'clock and proceeded to the lake where dinner was served and a grand list of sports and amusements enjoyed. They will leave the lake at 6 o'clock for Malden.

Small accounts solicited and appreciated. Old Lowell National Bank.

50 CENTRAL STREET

HAMILTON AND LAWRENCE MANUFACTURING CO.'S SHUT DOWN

AT NOON

The Hamilton and Lawrence mills closed at noon today on account of the heat. A portion of the Massachusetts mills closed at the noon hour yesterday because of the heat, but it was said that conditions on the whole were more tolerable today. It was stated in several of the mills, however, that there had been a number of heat prostrations and that the mills would probably have to close for a time if the hot wave continues.

Rain This Afternoon

The rain that came this afternoon afforded great relief. The ground is very dry, so that the leaves of the trees, especially of the elm and maple trees, are drying and falling off as in the fall.

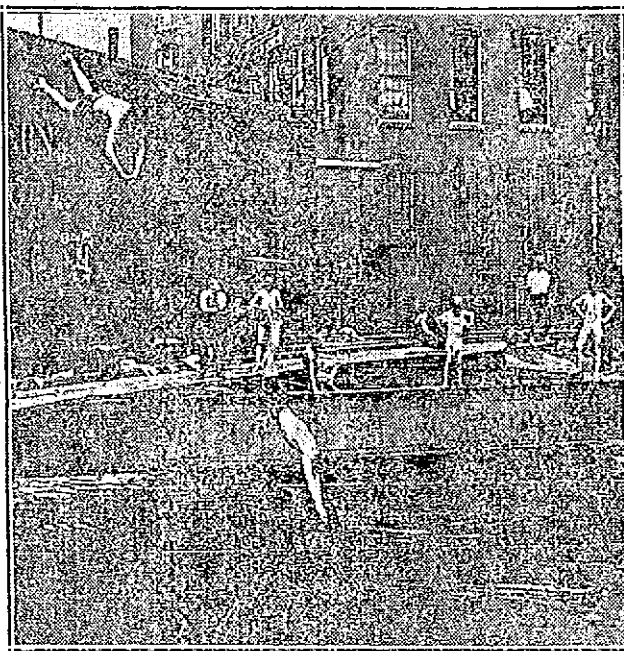

The temperature today, however, was not quite so high as the preceding days, although it was very close all forenoon. In some places the mercury dropped from above 90 to 85 in the shade. The horses are finding great relief by being given sponge baths by men of the Lowell Humane society. People are flocking out of town, taking trolley rides and seeking the summer resorts. This afternoon hundreds of clerks were given a half-holiday and many of them were seen boarding electric cars for the country.

The agent of the Humane society held a conference with Commissioner Barrett yesterday relative to a number of watering troughs about the city which seemed to be out of commission, and the result was that the commissioner sent a man out to examine each trough and report any defective ones. The agent of the Humane society has also distributed circulars to drivers instructing them how to care for their horses during the hot spell, and he has also distributed cards warning people not to lock up their cars while they are going away on their vacation, the maximum fine in such a case being \$250. Mr. Richardson reports six cases of heat prostration among horses for the past two days.

A Welcome Shower

That was a blessed shower and there is more to follow. The thunder's

winding sheets and narrow streets (the boys are diving in the Dutton street canal from a box car near the alley in the rear of 'The Sun's' temporary quarters was flooded, and the terrible heat of the last few days was relieved. The air was filled with electricity and the storm was accompanied by a fairly high wind that carried leaves and dead branches into the street. Despite the warmth and humidity the rain was accompanied by relief. One of the divers usually large. It was a grand old

BOYS DIVING FROM BOX CAR ON BANK OF DUTTON ST. CANAL.

shower and the weather man allows that there's some more on the way.

Some Fancy Diving

That the element of danger makes sport more attractive is a well known fact and boys who go swimming are among the thousands who flirt with danger because it adds to the attractiveness of the sport. If you happen in Dutton street at six o'clock in

the relief man would be first aid to the injured. This is a wise and a necessary precaution.

While the writer watched a number of boys diving from the top of a car in Dutton street a few evenings ago he was accosted by a fine old gentleman, who said to him: "That's pretty risky business, diving from the top of that car. If they should land the wrong way I'm afraid they would get badly hurt. There were no such antics as that when I was a boy. When we went to swim we didn't go looking for high places to dive. But danger doesn't seem to count for much these days."

CHAS. LAFLAMME

WELL KNOWN INSPECTOR OVERCOME BY HEAT

Inspector Charles Laflamme, of the police department was overcome by the heat yesterday afternoon while at the police station and had to be removed to his home, 38 Sarah avenue, where he received medical treatment.

Inspector Laflamme has not enjoyed the best of health recently and the hot weather took considerable effect on him. He was advised to refrain from working until the hot spell was over, but he felt that it was his duty to attend to his work and continued to report at the police station.

During the early part of the afternoon he complained of feeling rather weak and later his condition became so bad that it was deemed advisable to remove him to his home.

The automobile patrol was brought into service and Inspector Laflamme was taken to his home where he was attended by Dr. J. J. Mignault.

AMERICAN ATHLETES
MADE GREAT SHOWING

In the Olympic Games at Stockholm, Sweden, Today—Craig Won Great Race

STOCKHOLM, Sweden, July 11.—The program of the sixth day of the athletic section of the Olympic games presented some features of great interest including the preliminary and semi-final heats of the 110 metres hurdles race, the final of the 200 metres flat race, the final of the 10,000 metres walking race, the final of the pole vault, the final of the weight putting, right and left hand, the 400 metres swimming race, free style, and the 400 metres swimming race, breast stroke, as well as water polo matches.

The standing of the various nations at the opening of the day's sports stood, according to the official announcement, as follows:

United States 72; Sweden 55; Great Britain 41; Germany 34; France 12; Finland 19; South Africa 11; Denmark 11; Norway 19; Italy 5; Hungary 4; Bohemia 1; Russia 3; Austria 3; Canada 3; Greece 3; Holland 2; Australia 2.

The morning session in the Stadium was comparatively tame. The only events, apart from the preliminary rounds in the wrestling competition and a display of gymnastics by a German team, were the final heat of the 10,000 metres walk in which George Goulding, Canada, won a deserved victory, and the eleven trial heats in the 110 metres hurdle race.

The United States team had the hurdle race all its own way, taking eight firsts and one second. The majority of the heats were not races, because in most cases there were only two runners and as first and second in each heat was entitled to compete in the semi-finals there was no incentive to fast running. All the American competitors secured places in the semi-finals. They were: James Wendell, New York A. C.; John H. Case, University of Illinois; Fred W. Kelley, Seattle A. C.; John P. Nicholson, University of Missouri; Edwin M. Pritchard, I. A. A. C.; Vaughn S. Blanchard, Boston A. A.; Martin W. Hawkins, Multnomah A. A.; John J. Eller,

Jr., I. A. A. C., and George A. Chisholm, Boston A. A.

Other nations are also represented in the semi-finals.

Nine competitors started in the final of the 10,000 metres walking. The only representative of the United States was Frederick H. Kelsner, New York A. C. and the pace proved too fast for him so he dropped out after doing two miles. Goulding took the lead immediately and had a hard race with E. J. Webb, England, from the beginning. F. Altman, Italy, and A. Rasmussen, Denmark, were the only other men left in two miles before the finish, three others having fallen by the way. At the beginning of the last mile the Canadian led the Englishman by 30 yards and the Italian was 200 yards behind Webb. Goulding had increased his lead to 50 yards by the beginning of the last lap and continued to increase it till he crossed the tape, when he was 59 yards ahead.

Of the six semi-final heats in the 110 metres hurdle race this afternoon five were won by members of the United States team. These were Martin W. Hawkins, Multnomah A. C.; John P. Nicholson, University of Missouri; Fred W. Kelley, Seattle A. A.; James Wendell, New York A. C. and John R. Case, University of Illinois. The other semi-final was won by K. Fowler, England, who will be the only athlete of non-American nationality to compete in the final tomorrow as the winners only of the semi-finals are qualified to participate.

The final of the 200 metres flat race belonged to Ralph Craig, Detroit, almost from the beginning. Donald P. Lippincott, University of Pennsylvania, broke away ahead at the start but Craig soon passed him.

WINS SWIMMING CONTEST

STOCKHOLM, July 11.—400 metres swim, free style for men, second heat, T. S. Hattersley, England first; Johnsen, Norway, second; Time 6 minutes, 3 3-5 seconds.

400 metres swim, free style for men, third heat, Ritter, Germany, first; Kreyer, Hungary, second. Time 6 minutes, 44 2-5 seconds.

Four heat, Lastorres Hungary, first; Taylor, England, second. Time 6 minutes, 46 1-5 seconds.

INMATES WERE SCARED
AT OLD LADIES' HOME

Many Thought Building
Was on Fire

Considerable excitement was caused at the Old Ladies' home in Fletcher street shortly before three o'clock this afternoon when a bolt of lightning struck the hard rubber tube which contains an electric feed wire and after the rubber had been burned volumes of smoke filled the cellar and made its way through the upper portion of the building.

Fortunately it was practically all smoke and little fire and after the old ladies who are inmates of the home were informed that there was no danger quietness was restored.

It was following one of the sharp bolts of lightning that the hard rubber tube caught fire and it sizzled and blazed and the flames followed the tube into the cellar and filled it with smoke.

People in the vicinity rushed to the

building and with the assistance of the hose used to water the lawn the blaze was extinguished but when dense smoke started to pour from the cellar windows it was thought that there was a fire in progress in the cellar and an alarm was sent in from box 28.

The fire department was soon on the scene, but it was found that there was no fire, but considerable smoke.

A Needless Alarm

An alarm from box 125 shortly before 3 o'clock this afternoon gave a portion of the fire department a needless run to a house in upper Market street near the corner of Lewis street where a man had thrown a lighted cigar out of a window. When the firemen arrived it was found that there was no fire.

LIVELY BLAZE

BROKE OUT AT THE CITY FARM

A dangerous blaze broke out in the barn and outbuildings in the rear of the Chelmsford street hospital shortly before three o'clock this afternoon and at the time the edition was going to press there was a brisk blaze in progress. It is thought that the fire was caused by one of the buildings being struck by lightning.

Small accounts solicited and appreciated. Old Lowell National Bank.

WANTED
Resident Manager for New Permanent
\$10 and \$15 Clothes Shop
To Be Opened Here SEPT. 1st.

To a clean, capable, experienced man—a live wire, a permanent position is available, with good salary and percentage of profits. Store will be unique in merchandising methods, every sale being guaranteed to the purchaser, the guarantee being backed up by a \$5000 cash deposit in a leading local bank.

The Manager we shall engage will be a man of wide acquaintance and unquestioned standing in this community. If you are the man, you know it, and we would like to know you.

ADDRESS—GENERAL MANAGER, THE P. & Q. \$10 AND \$15 CLOTHES SHOPS, 594 BROADWAY, NEW YORK.

THE PANAMA CANAL SUBJECT OF CONTROVERSY

Between England and the United States—England Requests Delay in Action

WASHINGTON, July 11.—Great Britain's request that the enactment of the Panama canal bill be delayed until the British charge, on present a note in behalf of his government, confers with congress and the state department with an extraordinary situation.

The request for delay was communicated to the senate inter-oceanic committee from the summer embassy of Kineo, Me., late yesterday and was sent by Mitchell lines, the charge, acting for Ambassador Bryce, who is in New Zealand. While the reasons for the request are not stated in the charge's note there is no doubt that the British government is concerned in the clause to grant free passage through the canal to American vessels in coastwise trade, and that relating to the passage of railroad owned ships. The Canadian railways are deeply concerned in both, and it is thought that some of the representations will be made in their behalf.

The canal bill is now in the senate committee with prospect of being reported very soon, and will then go to the house.

The congressmen feel that if any agreement is to be had it must be at this session of congress. The exigencies which have arisen by the reduction of force as the canal approaches completion makes legislation necessary if a permanent organization is to be set up on the canal zone to the best advantage. It was said today that members of both houses were not agreeable to much delay now.

Senator Brandegee has replied to the state department that the legislation proposed is regarded as extremely urgent and that the senate committee had planned to report the canal bill to the full senate some time this week. That reply has been communicated by wire to Mr. Innes and will probably have the effect to hasten the delivery of the British note.

One of the provisions in the pending bill would make it impossible for Canadian railroad ships to pass through the canal if they engaged in coastwise trade. The question of free tolls to certain classes of American ships involves the old question of the Hay-Pauncefote treaty. It is believed that the British government will hold that ships of all nations must be on an equal basis. The opinion among many American statesmen is that to grant free tolls to American ships is not a violation of the terms of the Hay-Pauncefote treaty.

Great Britain's request for a postponement of Panama legislation now before congress until a formal statement can be filed against the proposed ship toll provisions is likely to have little effect in delaying the passage of the canal bill, according to leading members of the senate.

Members of the senate inter-oceanic committee who discussed the situation today declared that there would be no "backing down" by the senate from its position in favor of free passage of American ships. The committee has never been agreed upon that point, however, and there is a wide divergence of opinion in the senate as to the rights of the United States under existing treaties.

Many senators who do not believe the United States has the right to give free passage to American coastwise trade believe the treaty terms could not be met by rebating to American vessels the tolls they might pay.

Senator Lodge, ranking member of the senate committee on foreign affairs declared any further delay in the consideration of the Panama canal legislation was impossible. He declined, however, to express any definite opinion upon the right of the United States to the canal.

PERSONALLY CONDUCTED EXCURSIONS TO CALIFORNIA

Are you going to California? Do you want to be extra comfortable on the trip at no extra cost?

Would you like to have a first rate, good natured, thoroughly competent and well informed conductor go all the way through on the trip with you, a man who is specially selected, and paid by our Railroad company to look after your comfort?

Such a man goes through with each of our Through Tourist Car Excursions. We choose men specially fitted for this work, men who are courteous and kind, and who have made the trip many times and thoroughly understand their business.

Just call or write and let me tell you all about the Personally Conducted, low fare parties to California that have helped to make the "California Route" service famous. Alex. Stokes, New England Passenger Agent, C. & N. Y. R. R., 251 Washington street, Boston, Mass.

Willow Dale

Can be secured for club outings or church picnics, with orchestra for dancing. Both afternoon and evening. Boat will make regular trips to meet all cars, including the last one. Telephone 6108-2.

Everybody's Doing It

HAVING THEIR WORK DONE
It is now the peak of summer time and people who are thinking of going on a vacation should look over their wardrobe and see what should go to the dry state. It works for cleaning and pressing. Your work done in the best possible manner and by expert workmen and with the latest improved machinery. Follow the wise ones and go to the place where you will surely be pleased.

D. J. Leary, Prop. 54 Prescott st.

HEAVY THUNDER STORM IN BOSTON TODAY

Lightning Caused Death of Cambridge Child

BOSTON, July 11.—The excessive heat, which for nine consecutive days has held Boston in its grip, was broken at least temporarily today. A heavy thunder storm accompanied by a downpour of rain, raged for more than an hour. During that hour the temperature dropped 16 degrees, from 91 to 75, and a cool breeze sprang up.

Lightning caused the death in Cambridge of 12-year-old Florence Scully. A bolt struck an electric light pole and live wires fell upon the child. Considerable damage to property was done in Cambridge by the storm.

During the early forenoon John Kehoe, a plumber, was prostrated in Boston and died within a short time, making the 13th death due to heat during the last seven days. A boy named Angell was struck by lightning and killed in a barn in Everett.

SENATOR LORIMER DEFENDS HIMSELF

Says His Election Was Not Procured by Fraud

WASHINGTON, July 11.—The senate chamber filled up slowly under the call for a quorum to hear arguments in the Lorimer case today but only fifty-six senators answered to their names. The senate galleries were not half filled.

Senator Lorimer had taken a seat at the head of the center aisle. As he rose and began his speech he read from manuscript. He declared he proposed to give the senate an insight into the character of the men who he said had tried to ruin him.

"It is true that the senate has the right to deny me a seat in this body," he began, "on the flimsiest pretext or on no pretext at all. I intend to show that no vote cast for me has been influenced by fraud."

"Mr. President," he said in measured tones, "this is no joke. This is a solemn and sacred question. If the senate decides to follow the views of the minority of this investigation, it will be a travesty on civilized jurisprudence, a mockery on justice. It will be a declaration that the senate has decided to follow the red flag; that it has become the advocate of anarchy; has adopted the doctrine of the recall as advocated by its arch-enemy."

Senator Lorimer departed from his manuscript for a moment to refer to the Chicago newspaper. He declared that there would be no prison if the public prosecutor had been acting. The senate gave him close attention. He spoke slowly and with great emphasis. Finally he discarded his manuscript and took up a piece in the center aisle from which he could be heard on both sides of the chamber.

On the back walls of the chamber were two diagrams of Chicago streets. One showed the location of the Chicago Tribune building with the valuation of other property at the corner of Dearborn and Madison streets, the latter property on Madison between La Salle street and Fifth avenue, comparing the assessed valuation of the Chicago Daily News property and their actual value.

SQUIRE KILLED WHILE ACTING THE ROLE OF PEACEMAKER

PITTSBURGH, July 11.—Justice of the Peace George H. Curfman of Arcadia township was shot dead yesterday by Louis Palagi, whom Curfman interrupted when Palagi was beating his wife. For several days Palagi had been drinking. Neighbors called Justice Curfman and he tried to quiet the man. He succeeded once but was called a second time.

As he entered the house Palagi fired three times, all the bullets striking the squire, who fell. Palagi then fired two more bullets into him. Men in the neighborhood rushed in and overpowered Palagi as he was reloading his revolver.

Curfman leaves a wife and family.

DRAGGING POND FOR HEAD OF WOMAN WHOSE BODY WAS FOUND

WOONSOCKET, R. I., July 11.—Policeman Bourne and James A. Brady were today dragging Cass Pond, a small body of water in Cass Park, in a search for the head of the woman whose headless body was found in the Blackstone river near Dances Grove on Tuesday, June 25.

In connection with this case, Henry Deslouches is in jail awaiting a hearing on July 12 on a charge of murdering Angelle Deslouches. The authorities will probably ask for a continuance when the case comes up Saturday in the twelfth district court.

\$1,900,000 RAISED TO RUN ROSSEVELT CAMPAIGN IN 1914

WASHINGTON, July 11.—A total of \$1,900,000 was raised by the republican national committee in 1914 for Theodore Roosevelt, according to George H. Cortelyou, then chairman of that committee, who testified today before the senate contribution committee.

Mr. Cortelyou testified that at the beginning of the campaign he had laid down general rules as to contributions and was not concerned with detailed contributions except in rare cases as the campaign proceeded.

One of the rules was that there should be no promise or pledge attached to contributions, he said.

PLAY FOR TACONIC CUP MANCHESTER, Vermont, July 11.—The first round of match play for the Taconic cup was completed today on the links of the Ekwanok Country club. The winners were:

F. W. Kemble, Philadelphia C. C.; B. C. Longley, Wannamoisett C. C.; H. Crocker, Brookline C. C.; W. J. Travis, Garden City; J. L. Taylor, Garden City; C. H. Garner, Agawam Hunt; J. T. Hunter, South Oakes C. C.; and F. A. Martin, Ekwanok.

CLUE TO MURDERER OF NEW YORK CHILD

Young Man Lived Near the Victim and Has Disappeared From His Home

NEW YORK, July 11.—The detectives who are working day and night to capture the creature that tortured and killed twelve-year-old Julia Connors admitted last night that they had only one bit of information that might be regarded as a clue. They are hunting the city over for a young man who has been missing since Sunday from the neighborhood of 3863 Third avenue, the house where Julia was imprisoned and stabbed last Saturday night.

Cap. Price learned yesterday that the man was seen in Third avenue on Sunday morning by several people who said they noticed that his face was scratched. According to the stories which the detectives are investigating he seemed to be excited and anxious to avoid notice. Except that the young man was expected home yesterday and did not arrive there is actually nothing that could turn suspicion toward him.

The stories of a scratched face, while nothing more than neighborhood talk, interested Price because it seemed likely to him that the little girl fought desperately against her abductor before she was finally overpowered and gagged. The Bronx detective captain is confident that if the murderer is captured soon it will be found that his face is marked. One of the jobs that half a dozen of Price's sleuths had yesterday was to search a big district of The Bronx, including several little parks, looking for a man whose face showed finger nail marks. A tip that Price wouldn't discuss led him to send the police captain around the blocks from 171st street to 173d street and from Third avenue to Fulton avenue.

was continued yesterday and last night. The detectives hope that Julia's murderer will be drawn back to the scene, and so they are scrutinizing carefully every boy and man who enters the apartment houses or the shops in that district.

Examining the case from every angle that seems reasonable from the scanty material, the detectives can't get away from the idea that the murderer either lived in one of the houses near 3863 Third avenue or else close by. They build this conclusion largely on the singularly desperate chances the man took in conveying the dying child from the vacant third floor apartment in 3863 to the vacant lot, a detail of the crime that might easily have led to his being recognized and exposed by any one of the tenants whose windows overlook the vacant lot.

"If he was a stranger in the neighborhood, a ruffian who happened to be in Third avenue when Julia passed by, why didn't he leave the body in the lot?" asked Cap. Price. "Everything in this case points to a man who not only was perfectly familiar with the house and the means of reaching the vacant lot swiftly and easily, but who had some reason for not wanting the crime to be located in the house. All this of course is in addition to the fact that we believe the murderer was known to the child, else she never would have gone with him."

It developed yesterday that the murderer took pains to avoid leaving evidences of his crime. He left no stains on the floor of the bathroom or elsewhere in the apartment save in the bathtub. The theory of the detectives is now that he attempted to dissect the body, having found a small wooden box in the cellar which he meant to use for carrying away the pieces, but that he was either too unskilled or too much in a hurry to avoid the daylight to carry out his purpose, so he finally crammed the body into the box and carried it to the vacant lot.

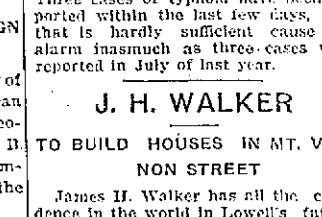

That he meant to return and remove the stains from the bathtub is considered probable, but there was no time and so the police think he hurried away just before dawn. The astonishing feature of this part of the case is that nobody on that hot and wakeful night, when dogs were barking alarms every few minutes, heard or saw anything suspicious.

Every day tramps or defective boys and men whose actions in the public parks alarm women are arrested and questioned. There were two such cases yesterday, neither of which was of any importance as concerning the extraordinary murder problem.

The district in which the murder occurred is one of the most crowded in The Bronx. There has been extraordinary pressure brought to bear on the detectives to do something quickly.

Cap. Price said last night, "The hunt for Julia Connors' murderer will never be dropped. It may be that we shall make more progress after the excitement has died out. Personally I feel that the man will be caught within a few weeks. But it is one of the most puzzling and difficult cases the police department ever had to tackle and all we ask is patience on the part of the public."

SICK.

—De Mar in Philadelphia Record.

HEALTH RECORDS SHOW CITY IS QUITE FREE FROM DISEASE

The board of health records show that Lowell is remarkably free from contagious diseases at the present time but there is some alarm felt because of the presence of typhoid fever. Three cases of typhoid have been reported within the last few days, but that is hardly sufficient cause for alarm inasmuch as three cases were reported in July of last year.

J. H. WALKER TO BUILD HOUSES IN MT. VERNON STREET

James H. Walker has all the confidence in the world in Lowell's future, and just to prove it he will build three houses in Mt. Vernon street. They will be three apartment houses, 25 by 54 feet, three stories, and the estimated cost of each house is \$5000.

WILSON AND CLARK TO MEET SATURDAY

They Will Have a Three Hours' Conference

SEA GIRT, N. J., July 11.—Governor Wilson announced today that he had set aside three hours Saturday afternoon for a conference with Speaker Champ Clark, who is coming to Sea Girt to see him. Representative Underwood, the governor said, probably would come to Sea Girt for a conference next week.

What will be discussed by Mr. Clark and the nominee is for the speaker to say. Gov. Wilson declared that it would be erroneous to state that they would discuss legislation pending or prospective in congress.

Speaker Clark and Underwood both have written the governor that they would be glad to consult with him concerning the program of the democrats in congress during the remainder of the session.

Checks still continue to pour into the governor's office. He said today that they formed the most interesting feature of his mail and that he was kept tolerably busy acknowledging them. The contributions range from \$5 to \$1000.

ALLSTON GOLF CLUB SOLD

Lowell golfers will be sorry to hear of the sale of the Allston golf club. It has lately been sold to a large real estate company which is to erect apartment houses on the property. This is one of the largest real estate deals of the year and involves more than \$1,500,000. The Allston club has a frontage of about 2000 feet on Commonwealth avenue and 2000 feet on the Boston & Albany tracks. The site for the Mass. Institute of Technology buildings is directly opposite the property. The Allston Golf club is one of the finest clubs in the state. The course itself is famous and is highly spoken of by all golfers. There has always been a friendly rivalry between the Vesper and Allston teams. There have been several golf matches between the two clubs. The Allston players have always stood at the head of the list in the state tournaments and some of the state's best golfers belong to the club. Several members of the Allston club are also members of the Vesper Country club.

LOWELL POLICE WILL TAKE A TRIP TO REVERE TOMORROW

The Lowell police baseball team will go to Revere tomorrow morning to play the Revere police team.

For Hot Weather

WILSON AND CLARK TO MEET SATURDAY

They Will Have a Three Hours' Conference

SEA GIRT, N. J., July 11.—Governor Wilson announced today that he had set aside three hours Saturday afternoon for a conference with Speaker Champ Clark, who is coming to Sea Girt to see him. Representative Underwood, the governor said, probably would come to Sea Girt for a conference next week.

What will be discussed by Mr. Clark and the nominee is for the speaker to say. Gov. Wilson declared that it would be erroneous to state that they would discuss legislation pending or prospective in congress.

Speaker Clark and Underwood both have written the governor that they would be glad to consult with him concerning the program of the democrats in congress during the remainder of the session.

Checks still continue to pour into the governor's office. He said today that they formed the most interesting feature of his mail and that he was kept tolerably busy acknowledging them. The contributions range from \$5 to \$1000.

ALLSTON GOLF CLUB SOLD

Lowell golfers will be sorry to hear of the sale of the Allston golf club. It has lately been sold to a large real estate company which is to erect apartment houses on the property. This is one of the largest real estate deals of the year and involves more than \$1,500,000. The Allston club has a frontage of about 2000 feet on Commonwealth avenue and 2000 feet on the Boston & Albany tracks. The site for the Mass. Institute of Technology buildings is directly opposite the property. The Allston Golf club is one of the finest clubs in the state. The course itself is famous and is highly spoken of by all golfers. There has always been a friendly rivalry between the Vesper and Allston teams. There have been several golf matches between the two clubs. The Allston players have always stood at the head of the list in the state tournaments and some of the state's best golfers belong to the club. Several members of the Allston club are also members of the Vesper Country club.

LOWELL POLICE WILL TAKE A TRIP TO REVERE TOMORROW

The Lowell police baseball team will go to Revere tomorrow morning to play the Revere police team.

For Hot Weather

Nothing like old clothes and old shoes for comfort. We can fix them up just like new and they'll be more comfortable than ever. Phone 3560 for our free auto delivery.

RE-ARRANGEMENT SALE

COME
GET
YOUR
SHARE

We start a re-arrangement sale Friday morning in order 2 clean out all clothing now on hand. We intend 2 thoroughly overhaul this business. We will discard all tables and hang all clothing on racks which is now the modern way, tables being passe. In re-arranging our establishment we intend 2 change our system of selling clothing by making this a \$5, \$10 and \$15 Men's and Young Men's Suit Store. In addition we will carry our present lines of Furnishings and Shoes. We will carry suits at 3 prices, \$5, \$10 and \$15, and we intend 2 so strongly specialize on these 3 values that our \$5 suits will sell for \$8 and \$10 elsewhere. Our \$10 suits, \$12 and \$15 elsewhere, and our \$15 suits, \$18 and \$20 elsewhere. Every piece of goods now in the store we will endeavor 2 get rid of if price mark down will do it. We intend starting with an entirely new stock of clothing, any stock left will be shipped 2 our other stores. R U in need of Clothing, Furnishings or Shoes? If U R, we bid U come and get your share of the many good things in our line. We assure U a big saving as we must get rid of the merchandise. We do not wish 2 take up your time in this extremely warm weather by mentioning a page full of articles with prices, but we predict and vouch 4 it that if U come here 4 any of your needs in Clothing, Furnishings or Shoes, U will go away pleased and satisfied U received more than your money's worth.

EIGHT MINERS KILLED IN W. VIRGINIA MINE

Loud Explosion Occurred After Men Entered the Shaft Early This Morning

MOUNDSVILLE, W. Va., July 11.—Eight miners are believed to have been killed by a gas explosion in the Panama mine of the Ben Franklin Coal company here this morning at 9:30 o'clock. The Panama shaft had been closed for several weeks until today, when ten men entered the workings for the purpose of loading coal. They had been in the mine only a short time when the village was alarmed by the sound of a loud explosion and great volumes of smoke poured from the shaft. The seventy other employees of the company quickly assembled, and General Foreman McCabe quickly organized a rescue party. They penetrated the mine three-quarters of a mile before they came upon the burned and mangled bodies of William Hump and Joe Minahan. It is feared they cannot live. The gas drove the rescuers back.

Foreman McCabe secured medical assistance from Moundsville and hastily organized another party in the hope of saving the eight men who were further in the mine. So much time had elapsed, however, that McCabe expressed the belief that all were dead. The Pittsburgh station of the bureau of mines was notified and Chief J. W. Paul of the mine rescue division ordered the rescue car at Pilegrim, Pa., to proceed with all possible speed to Moundsville.

SHUT UP SHOP

POLITICS CAUSES A BREAK BETWEEN PARTNERS

TACOMA, Wash., July 11.—Sharp differences over politics between proprietors of one of the department stores in Walla Walla resulted yesterday in their closing it, announcing that it may never be opened again. The proprietors have had frequent quarrels as a result of their advocating different presidential candidates and decided it was best to close the store and come to some agreement. O. P. Jaycox and his two sons-in-

law, Guy Bridges and Edward Payne, run the store. Jaycox is a radical Roosevelt supporter and Bridges is for Taft. Jaycox would not take over the interests of the junior partners and they decided to "split the bank."

GOODALE'S DANDELION IS MUCH IMITATED BECAUSE VERY POPULAR---HOW TO TELL THE GENUINE DANDELION.

Goodale's Dandelion has grown so strongly in public favor that at many fountains where the original is not served, you will be offered imitation "Dandelion Beer" with the assurance that it is "just as good as Dandelion." BUT IT ISN'T. One drink will convince you of that fact. We want to warn the public against these imitators.

Genuine DANDELION is served always in ice mugs bearing Goodale's name, or from bottles plainly labelled "Goodale's Dandelion." It is bottled in Lowell only by Boyle Brothers, who sell it in case lots at \$1.00 for 12 bottles.

Dandelion is Delicious—Everybody's Drinking It Now.

THE LOCAL HIBERNIANS

To Attend National Convention in Chicago

The arrangements for the biennial convention of the Ancient Order of Hibernians to be held in Chicago from July 16 to 20 inclusive, are completed and the itinerary for the Massachusetts delegates was received by the Lowell men who will attend the convention, this morning. The Lowell men are James O'Sullivan, D. J. Murphy, P. W. Moran and D. E. Hogan, but owing to pressing business the latter may not make the trip.

The Massachusetts delegates have chartered a special Pullman car which will leave Boston on Saturday evening at 1:15 o'clock. The train will proceed to Lowell, where the local men will be taken on. The train will move to Montreal, where the delegates will remain for the day. They will have breakfast at Queen's hotel and will attend mass at St. James cathedral. They will leave Montreal at 10:30 a. m. Sunday and will arrive in Chicago at 8:30 p. m.

The Massachusetts men will make their headquarters at the La Salle hotel, corner of Madison and La Salle streets. The convention will be in session from the 16th to the 20th in the new Hibernian hall. The latter was recently completed and is a magnificent structure.

The Massachusetts men will leave for home Saturday, July 20 at 10 p. m. and go to Detroit, arriving there at 1:30 p. m. Sunday, July 21. They will spend the day in the Michigan city, leaving for the evening on a steamer for a sail to Buffalo, where they will view Niagara falls and other points of interest in that vicinity. On Tuesday they will reach Toronto and later will go to Kingston from where they will sail down the St. Lawrence, viewing the rapids and arriving in Montreal on Thursday at 6:30 p. m. They will leave Montreal at 8:30 p. m. for home, the train stopping at Lowell where the Lowell men will get off, and then continuing to Boston, where it will arrive on Wednesday at 8:05 a. m. Wednesday, July 24.

Mr. O'Sullivan in speaking of the convention said that he expects the session to be the most important in the history of the Hibernians. The last session, two years ago was held in Portland, Oregon.

TO KEEP COOL

SOME ADVICE GIVEN BY DR. R. E. DOOLITTLE

WASHINGTON, July 11.—A hot weather schedule was laid down yesterday by Dr. R. E. Doolittle, acting chief of the bureau of chemistry and successor to Dr. Wiley. Here is how Dr. Doolittle says to keep cool and well:

Above all things don't worry. Don't think how hot it is. Don't look at the thermometer every two minutes. Just try to forget the weather and you will be surprised to find how much less you feel it.

Alcoholic drinks, beer, gin or anything like it, should be avoided. A little ice water I find is not harmful; also lemonade and soda fountain beverages. The acids and soda in the latter are really beneficial to ward off heat.

Possibly one tiny drink the kind that tickles in the glass, taken in the evening is all right.

Once a day is often enough to eat meat in hot weather—never two or three times. Be sure, too, that any fish or sea foods are absolutely fresh. They and stale milk cause typhoid. Ice cream, too, is not harmful.

Moderation in all things, eating and working, is imperative. Take a vacation sure. If you can't be sure your wife does; she probably needs it more than you do. Every man, though, ought to take a vacation. Vacations are good investments for any business firm to give their employees. Also, don't sleep and take it as easy as you can all the time. Don't over-exert. I wear as light underwear as possible.

THE PLAN OF CAMPAIGN MAILED OUT FOR TAFT

Country Divided Into Four Parts—Crane and Hadley Will be on Board of Strategy

WASHINGTON, July 11.—When the sub-committee of the Republican National committee meets in New York, July 13 to complete the organization for the campaign, it will take up a plan to divide the United States into four sections, with an experienced political leader in charge of each.

In other campaigns republican headquarters have been located in Chicago and New York, but the plan proposed now is to have the leaders especially charged with looking after the east, middle west, far west and the south.

For the east, William Barnes, Jr. of New York, is under consideration, and for the middle west with Chicago as headquarters, John T. Adams of Iowa, Charles B. Warren of Michigan, or Thomas K. Nieldinghaus of Missouri, are being talked of.

Ralph E. Williams of Oregon doubtless will look after the Pacific coast. Chairman Hillier said the chances are excellent for carrying four southern states—Missouri, Kentucky, Tennessee and Maryland—and a hard fight will be made there, with Senator Sanders of Tennessee, in charge.

All these captains will be under the direction of National Chairman Hillier. While Mr. Hillier will have headquarters in New York, he expects to confer with the division leaders as often as possible and generally supervise the organization of the campaign.

Considerable attention is being given to the selection of the advisory committee which is to be a sort of a board of strategy. It is conceded that Senator Crane of Massachusetts will be asked to take a place and Gov. Hadley of Missouri also may be selected as a member. Nothing definite will be done, however, until the sub-committee meets in New York.

COAL TALK

The talk of housekeepers is the quality of Quinn's Coal. The price is practically the same all over the city; but does the fuel you buy have the same effect in every instance? I know that it does not. Freedom from slate and dust, small percentage of ash, and lots of heat-producing qualities put the hallmark of merit on coal from these yards.

THE GILBRIDE COMPANY

RAIN STOPS LOWELL
AND HAVERHILL GAMEWith the Score 3 to 2 in
Haverhill's Favor

The game between Lowell and Haverhill at the latter city yesterday was stopped in the fourth inning by a severe rain storm. The Haverhill boys were in the lead by the score of 3 to 2 when play was stopped. But, the new shortstop from the New York state league, played in place of Lannigan, who is ill, and the youngster put up a good game in the short time that he was on the diamond. Miller, too, complained of a lame back and his place at second was taken by Wolfgang.

Lowell scored its two runs in the first and fourth innings. In the opening De Groff got a home run, while in the fourth the score was increased one run, when Halstein took first on a boot by Donahue, Magee's out, and Boules' single which sent Halstein home.

Haverhill's three runs were scored in the first inning. White was hit by a pitched ball. Robinson went out on a fly to Lavigne. Perkins singled by Boules. Long hit to Miller, who booted the ball, and there were three men on. Donahue fanned. Carney singled to left and White and Perkins scored. On the throw Long counted. Matthews ended the game, Zeller to first.

The rain then came and the game was interrupted, but was again resumed, but after going a short distance it was again stopped, this time for the day.

AMATEUR BASEBALL

The Lincolns are without a game for Saturday, any team that would like a game, apply to John Caddell, manager, 9 Caddell avenue.

The Independents of North Billerica would like a game with some fast team in this city. C. M. A. C. or Y. M. C. A. Independents. Address box 255, North Billerica.

The Dodgers would like to hear from the West Chelmsford Reds or the White Sox of Granitville.

The Unions will play the Westford A. A. Saturday at Westford.

LAKEVIEW TEAM DEFEATED

Glee Club Quintet Won
All Points

The Glee club team had easy picking in its bowling-match on the Lakeview alleys with the Lakeview quintet Tuesday evening, the former winning all the points. The game was a scheduled contest in the Campers' league series, and the victory by the Glee club team places it well up in the standing. Buckley of the winners took the high single with 192, and Johnson captured the high triple with 281. The score:

Trio of Yankee Athletes, Heroes of
the Olympic Games Held in Sweden

STOCKHOLM, Sweden, July 11.—Next to Johnny Hayes' sensational victory in the Marathon at London in 1908, probably the most wonderful scene was evidenced in the stadium here July 8 during the final heat of the 800 metre run, which brought for the second time in this Olympiad three American flags fluttering to the masts at the end of the stadium, denoting first, second and third places for the United States. The great 800 metre run was won by James E. ("Ted") Meredith, the 19-year-old schoolboy of Mercersburg, Pa., with Melvin Shepard and Ira Davenport respectively as close as possible to a dead heat for 2nd position. All three broke the world's record for the distance. Meredith also broke the record of Enrico Lunghi, the Italian, for the half mile. Jim Thorpe, the Indian, winner of the pentathlon, is one of the heroes of the team. Ralph Craig is the winner of the 100 metre event.

PROHIBS ALSO FIGHT

DOG GAVE WARNING
AND SAVED HOUSE AND POLICE-MAN FROM FIRE

NEW YORK, July 11.—"Teddy," a collie dog owned by Patrolman John R. Marshall, Bloomfield, N. J.'s 300-pound policeman, saved his owner's home from destruction by fire yesterday, and incidentally the policeman's life. The family were away from their home, No. 274 Broad street, with the exception of the policeman, who was sleeping after being on duty all night.

The hot run caused an oil stove to explode, and the blaze settled to the building. The dog began to bark, but Marshall supposed the animal was barking at some passerby, and he turned over for another sleep. Finally "Teddy" ran upstairs and jumped on the sleeping man, who at first thought of giving the animal a beating.

"Teddy" was so persistent, however, that Marshall got up and followed the dog to the stairway, which was filled with smoke. Hurriedly dressing, Marshall had just time to get down stairs, as the bottom steps were ablaze.

Marshall says he will purchase a handsome silver collar for Teddy in recognition of the collie's intelligence.

None of the passenger cars left the rails and the passengers escaped severe injury.

HOT IN COURT
PRISONERS FEW

Judge and Lawyers Were Glad to be Released

This morning's session of the police court was a comparatively short one, there being but few offenders in the dock. The court officers, lawyers, newspapermen and Judge Pickman, who presided, were pleased that the session was rather brief for it is hard to find a hotter place than the police court room on a hot day.

James P. Gilbride, charged with being drunk, denied the allegation, claiming that he was suffering from the effects of the heat. He said that the only thing he had to drink during the day was two glasses of Moxie. Patrolman Pettie testified to finding the defendant in an alleyway in the rear of John street shortly before noon yesterday and that the man was very drunk at the time. Inasmuch as the court found the man guilty and that he is on parole from the state farm he will be returned to that institution.

Albert Henry will spend the next four months in jail. Lillian Bernard was sentenced to three months and Charles Hayes will spend the next 20 days at the same institution.

Five first offenders were fined \$2 each.

The case of John Meehan, charged with failing to provide for his wife, was called, butasmuch as he failed to put in an appearance his default was recorded and a capias issued for his arrest.

MAN USED VERSE, IN MAKING AN APPEAL FOR CLEMENCY
NEW YORK, July 11.—The use of verse in voicing a plea for clemency in a criminal case made its first appearance in New York this week in the trial of W. J. Fette for robbery. Fette's poem, which is addressed to the district attorney, declares mournfully that he has "Never had a chance," and is eager to do right if the opportunity offers.

BOY NEARLY ELECTROCUTED
BOSTON, July 11.—Kenneth McClellan, 12, of 11 Forest street, Malden, barely escaped electrocution through touching a pole holding up the feed wire of the trolley line at Main and Winter streets, Malden, which was heavily charged with the electric car current.

The insulation of the feed wire had burned out, so that the current was carried from the trolley wire down the iron pipe.

Several children playing near the pole received slight shocks from the ground, but not suspecting the deadly force of the current, dared one another to touch the pole. Little Kenneth McClellan took two jumps and placed his hand upon the pole. The force of the shock he received threw him backward into the street about five feet.

Luckily he had on tennis shoes with thick rubber soles, which partially broke the circuit. As it was he escaped without serious injury. The force of the current in the pole was several hundred volts.

MARANVILLE SOON TO GRADUATE

From N. E. League—He is a Fast Player and Good Sticker

One reason that the New Bedford team defeated Lowell in the double-header in this city on Tuesday afternoon is the excellent work of Maranville, the speedy shortstop of the Whalers. This young man broke into the New England league only a short time ago, but his work this season has been so sensational that while the season was in its infancy all the scouts were going to whale town to look him over. Last season his work was very ordinary, and those who saw him work last year never dreamed that he would ever go any higher.

At the sound of the gang for the 1912 campaign he started like a fire horse, and his playing was considered by many of the dopers to be but a flash. When he started getting two and three hits a game and fielding his position like a Wagner, then the dopers got twisted and Billy Hamilton of the Bostonians had a look and a talk with the powers that be in New Bedford.

A deal between the Boston Nationals and New Bedford was consummated, and New Bedford received C. Bradley Hogg, a pitcher, who is a very classy performer, and also a "little on the side," in exchange for the speedy infielder. Maranville it is expected will report to the cellar champions of the National league some time next week.

While his batting average up to Saturday was but .275, it has been greatly increased this week, through the courtesy of the Lowell pitchers. On Monday in five trips to the plate he got four hits, one a three bagger, and in the first game Tuesday he got four out of four, one of these being a home run.

He has scored 41 runs and stolen 13 bases. He is especially strong in the pinches, and since Manager Conaughton shifted him from the head of the batting order to the clean up position, New Bedford has taken a great brace. Maranville is still very young, and aside from being a clean ball player on

MARANVILLE, New Bedford's Shortstop Who Goes to Boston Nationals.

the diamond he is a perfect gentleman, and although he has been responsible for several times defeating our team we all wish him the best of success in the big show, and his admirers are confident that he will make good with a rush.

PAYMENT REFUSED

INSURANCE PEOPLE ARE INVESTIGATING DEATH OF WOMAN

PHILADELPHIA July 11.—Officials of the Penn Mutual Life Insurance company of this city yesterday acknowledged they are investigating the death of Miss Candace Wheeler, daughter of James Cooper Wheeler, of New York, which occurred near Denver on June 23. Until the investigation is complete the company will refuse to pay the \$7000 policy it carries on the life of Miss Wheeler. The Connecticut Mutual Life Insurance company, which carried a \$5000 policy, is working in conjunction with the local corporation.

While the officials do not say a murder was committed, they declare all theories point to foul play instead of an accidental death.

Miss Wheeler, who was engaged to Mr. Otto Meyer of Indianapolis, was drowned in Bowles lake, Denver, on June 23. According to the story received by the officials of the Penn Mutual, she was on an automobile trip with a party. She insisted she wanted to go fishing and got into a boat alone. She lost one of the oars and in endeavoring to regain it fell overboard. Her body was not recovered until July 2nd.

Miss Wheeler's will was found to leave her insurance money to Dr. J. H. Meyer of Denver, a brother of her fiancé. Her other property, valued at \$10,000, was left to her fiancé.

That the death was not accidental, it is alleged, is indicated by the fact that valuable jewelry constantly worn by Miss Wheeler was not found on the body. Detectives for the insurance company are working on the theory

If you want help at home or in your business, try The Sun "Want" column.

that there was a struggle before Miss Wheeler fell or was thrown into the water.

TWO GIRLS WERE KILLED WHEN CAR STRUCK CARRIAGE

Frightened Horse Broke Through
the Gates at the Railroad
Crossing

BOSTON, July 11.—Pauline P. Schmitt, 15 years old, was instantly killed and Cecelia Schmitt, her 12-year-old sister, received injuries from which they died within a few minutes when the inward-bound Belknap Falls express struck the carriage in which they were seated at the Dane avenue crossing of the Fitchburg division in Somerville at 9:12 last evening. The horse was killed and the carriage smashed to pieces.

The two girls were returning from a drive which they had taken to Jamaica Plain, where they had paid a visit to an aunt. The gates at Dane avenue had been lowered. The horse, which had only recently been bought by the father, John Schmitt, evidently was frightened.

Gateman Halloway and Patrolman Davies saw the horse, when within 30 feet of the crossing, pull strongly at the bit. The animals head was held straight forward and his ears were laid back.

The elder sister evidently realized that the horse was unmanageable, and she stood up in the light carriage and pulled with all her strength upon the reins. The younger sister, white with fright, leaned back in the seat. Pauline was unable to check the horse and as he crashed through the gates she screamed.

Struck by Locomotive
The train was due at Somerville station at Park street, next west of the Dane avenue crossing, at 7:33. It was an hour and a half late and approached Dane street crossing at great speed.

The horse was on the inward-bound track when the cowcatcher of the locomotive struck the outfit. The hind-quarters of the horse and the forward end of the carriage containing the seat received the full force of the blow.

The elder girl was hurled 200 feet and she was decapitated. Cecelia was thrown 100 feet. The horse was hurled about the same distance and struck against a fence on the northerly side of the tracks. The carriage was reduced to splinters and parts of it fell in a shower on both sides of the track. Patrolman Davies and the gateman were absolutely powerless to prevent the accident, which had occurred in the space of a few seconds. They immediately telephoned to the police station and Lieut. Woodman sent the ambulance and a police auto containing Lieut. Carter and Sergts. Harmon and Ray.

The remains of Pauline were gathered and Cecelia was rushed to the hospital. She was unconscious when picked up and only a close examination showed that she was still alive. When the ambulance arrived at the hospital she was found to be dead.

Whistles Warn of Accident
A crowd was attracted to the crossing by the series of rapid blasts from the locomotive whistle which had been sounded by Engineer Henry Cass when he saw the horse dash on the cross-

ing. The train was under charge of Conductor A. E. Jarno.
As an outward-bound train was due about the same time a signal was set some distance easterly of the crossing to stop it, and when the engineer of that train saw the accident he answered with a series of blasts from the whistle.

As soon as the body of Pauline had been cared for and an undertaker was called, the police automobile was driven to the home of the girls' father, at 27 Berkeley street, Somerville. He was conversing with Harry Cavanaugh, a friend, awaiting the return of his daughters. The police took him to the hospital, where he learned full facts of the case.

The death of the girls leaves him alone at home, as only three weeks ago his wife and his only other child, Stanislaus, 10 years old, had sailed on a trip abroad to be gone for the summer. They are now in Warsaw, Poland, the country from which both Mr. and Mrs. Schmitt had emigrated to the United States.

When he was informed that both his daughters were dead he collapsed, and it was found necessary to assist him to the police automobile. He was driven back to his home and his sister, Mrs. A. L. Feldback of Jamaica Plain, upon whom the two girls had called earlier in the evening, arrived later to care for him.

Mr. Schmitt, whose name in Polish is Schmitelacki, is a manufacturing chemist, with a place of business on Wyatt street, Somerville. His business has been highly successful and he has amassed a comfortable fortune within recent years.

TAFT SUPPORTERS HAVE FORMED A STATE COMMITTEE IN IOWA

DES MOINES, Ia., July 11.—Seventy-five supporters of President Taft in Iowa held a conference last night and formed a state central committee, which will work despite the refusal of the republican state convention yesterday to endorse the president. James H. Trevin of Cedar Rapids was made chairman. Governor Carroll, who tried to stem the anti-Taft tide, at the convention yesterday afternoon, is a member.

It is proposed to carry on the Taft campaign in Iowa in co-operation with the state and national committee.

VETERAN OF SIXTH MASS.

BOSTON, July 11.—Benjamin F. Bernard, Wakefield's oldest veteran of the Civil war, the first man from that town to answer the call for volunteers, celebrated the 58th anniversary of his birth yesterday with a banquet at his home in Lake street, Wakefield.

Mr. Bernard was a lieutenant in the Richardson Life Guards of Wakefield. He had resigned just before the call of volunteers. He immediately re-enlisted as a private and served through the war with the Sixth Massachusetts Volunteers.

King George and Queen Mary Visit Coal Mine Few Hours Before Eighty Miners Are Killed

COINSBORO, Yorkshire, England, July 11.—Eighty bodies have been brought from the Cadzby mine, thirty of them being members of the rescuing party that entered the colliery after the first explosion had killed fifty. King George was a visitor to the mine the day before the explosion. It was believed to be one of the safest in the country, and King George, who is touring the mining regions with Queen Mary in an automobile, expressed a desire to inspect personally its latest appliances for ventilation and other safety devices. The disaster did not deter him from descending 1000 feet into the Elsecar mine the next day and remaining there forty minutes. In the upper picture King George is shown at the left, while Queen Mary is at the right. In the lower picture the king is shown inspecting a pit pony. The king and queen have gathered all possible information during their visits to mines and have talked with managers, miners and pit boys.

THE WOODWORKERS WHO ARE ON STRIKE MET AGAIN YESTERDAY

The members of the Millmen's local, No. 145, who have been on strike since July 3, held their regular morning meeting in Carpenters' hall yesterday, with President Sabourin in the chair. The roll was called and the addresses of the absentees noted and then reports from the various committees were received. The report that two strikers from Boston returned to the Hub yesterday was enthusiastically received. It was reported by the picket committee that the strike brokers who are being sent here from Boston are getting off the trains at the Fleeters station and being driven to the factories in automobiles. It was also stated that the "private detectives" of the employment agencies of Boston are not so numerous now as in the early part of the week. The report of the special meeting of the district council of the carpenters and joiners, which was held Sunday, was read and

it was stated that the council endorsed the action of the woodworkers in withdrawing their men and assured the strikers of assistance in bringing the present dispute to a close.

Michael P. Lee then made a few remarks on the conditions prevailing in the building and carpenter work at the present time. He spoke of the present difficulty and commended the men on the admirable spirit of unity being shown by those out of work.

A message was received at the hall during the time that Mr. Lee was speaking, and he opened the letter which brought the information that four men were wanted immediately at the new Sun building, and the necessary number was sent.

Another communication was read, requesting that fifteen men and a foreman be sent to a nearby city, but it was decided to lay the letter on the table for a few days. The meeting then adjourned until tomorrow.

If you want help at home or in your business, try The Sun "Want" column.

THE ELENA DISQUALIFIED

Committee Decides in Favor of Irolita

BAR HARBOR, Me., July 11.—The cool, clear weather that has been a feature of the Eastern Yacht club cruise along the Maine coast this year held through the finishing for it was under such conditions that the fleet reached here today, after a short run from Northeast harbor. The cruising section came round Schooner Head and Otter Cliff before a light westerly air while the racers stopped in Frenchman's Bay for the wind-up struggle. Just before the fleet started out of Northeast harbor the regatta committee held a final meeting on the Elena-Irolita episode at yesterday's start off Swan's Island. The committee decid-

ed in favor of the Irolita and as the question involved was one of the most important that a regatta committee of an American yacht club has decided for some time a formal statement was issued. The statement was as follows:

"In the matter of protest of Irolita against Elena.

"There was no dispute as to the material facts. Both boats were approaching the starting line on the starboard tack after the prep. signal and prior to starting signal, Irolita ahead and to leeward. Both boats could fetch the windward end of the line, which was marked by a towboat, Elena was the overtaking boat. Irolita attempted to drive Elena to windward of the towboat but Elena held her course and forced a passage between the towboat and Irolita. The result was as follows: The question involved is as to the construction of rule 13, section D, Elena claimed that this towboat was a mark and she being inside boat with an overlap had the right of way. Irolita claims that the towboat was not a mark until the starting signal had been given and that she had the right to force Elena to windward of the mark.

"The committee rules that the towboat was not a mark until after the starting signal, that the Irolita has the right of way and therefore sustains the protest of the Irolita and disqualifies Elena.

(Signed).

"Regatta Committee, Eastern Yacht Club, Stephen Sleeper Chairman."

The rule of the Eastern Yacht club on starting is slightly different from that of the New York club, principally in reference to the question when a mark is not a mark. The Eastern Yacht club holds that the marks, on either end of a starting line are not marks until the starting signal is sounded. This section was eliminated from the starting rules of the New York Yacht club several years ago.

In the race today the yachts were given a "long start" course through Schoonje Head, Baker Island and Egg Rock. The wind-up dinner in the Reading Room will be held this evening. The race today was made a social event by Mount Desert and numerous power boats watched the fleet while the high cliffs were dotted with spectators.

ALIMONY FEE HAS BEEN REDUCED TO \$1 A YEAR

BOSTON, July 11.—Ida Florence Heath's alimony of \$25 a week has been reduced to \$1 a year. This action was taken yesterday by Judge Pierce in the equity motion session of the Suffolk superior court. Mrs. Heath was granted a decree nisi against her husband, Arnold C. Heath, on the grounds of desertion, in April, 1911.

The decree became absolute in October, 1911, and in November of that year Mrs. Heath married a man named Ramsay. This fact did not become known to Mr. Heath until last March, and during the interim he continued to pay his wife \$25 each week. The decree that alimony shall consist of \$1 a year dates from March last.

SUES FOR DAMAGES

BECAUSE OF ERROR MADE IN SENDING MESSAGE

NEW YORK, July 11.—An unusual and yet easily explained error in the transmission of a telegraph message has resulted in a claim for damages against one of the telegraph companies for breaking an engagement that was soon to end in marriage. The company is charged with alienating the young woman's affections. The message was sent by the young man and read as follows:

"I love you forever."

When it was delivered to the address it read:

"I leave you forever."

Under the circumstances there was nothing for her to do but send back the young man's gifts, his engagement ring and all his letters, and before the sender of the message could communicate with her, she had accepted another offer of marriage. Hence the claim for damages.

The company's defense is that the mistake was not due to negligence, but that the Morse spelling for "love" and "leave" is so much alike that trouble on the wires caused the error. The word "love" has two dots for the letter "o" and "leave" has a dot for "e" and a dash for "v."

(Third Episcopal District)

A. M. E. Zion Church

ALEXANDER WALTERS, D.D., BISHOP

New York City,
April 9, 1912.

MR. PHILIP J. ALLSTON,
135 Columbus Avenue,
Boston, Mass.

Dear Sir:

My personal experience in the use of Cuticura Soap and Cuticura Ointment in the treatment of a severe affection of the skin warrants me in pronouncing them the most valuable remedies within my knowledge.

I say this after consulting eminent physicians and the use of many preparations. I have seen so many suffering from skin troubles that I feel it my duty to publicly recommend these gentle, effective, and economical remedial agents.

Sincerely yours,

A. Walters

FREIGHT DERAILLED CAR ON THE STONY BROOK BRANCH OFF TRACK

One of the box cars which went to make up the freight train from Ayer to Lowell on the Stony Brook branch of the Boston & Maine railroad, was derailed early this morning and for several hours traffic on that portion of the branch was tied up. It was necessary for some of the early morning trains from Lowell to first go to Nashua and then to Ayer.

Fortunately the freight was traveling at a slow rate of speed or else many of the cars would have been wrecked.

REVERE SELECTMEN VOTED TO REINSTATE THE BOARD OF FIRE ENGINEERS

BOSTON, July 11.—After deliberation in executive session until nearly midnight last night, the Revere selectmen voted 3 to 2 to reinstate the board of fire engineers who the selectmen suspended last week after a hearing in which the engineers were charged with unlawfully exceeding the appropriation for the fire department.

Some two weeks since, the fire engineers voted to discharge Chief Arthur L. Kimball, which action was declared void by the selectmen, who claimed that such proceeding could not be done without first preferring charges and giving the chief seven days' notice and a hearing.

LORIMER CASE

FINAL ACTION WILL COME TOMORROW

WASHINGTON, July 11.—Final action not later than tomorrow was in prospect when the senate resumed consideration of the Lorimer case today. This is the fifth session of the "Legislative Day" of July 6, the date set for the vote.

Senator Lorimer himself is not expected to make an extended speech, and it is thought he will conclude in time for a vote tomorrow even though he does not get the floor before adjournment tonight.

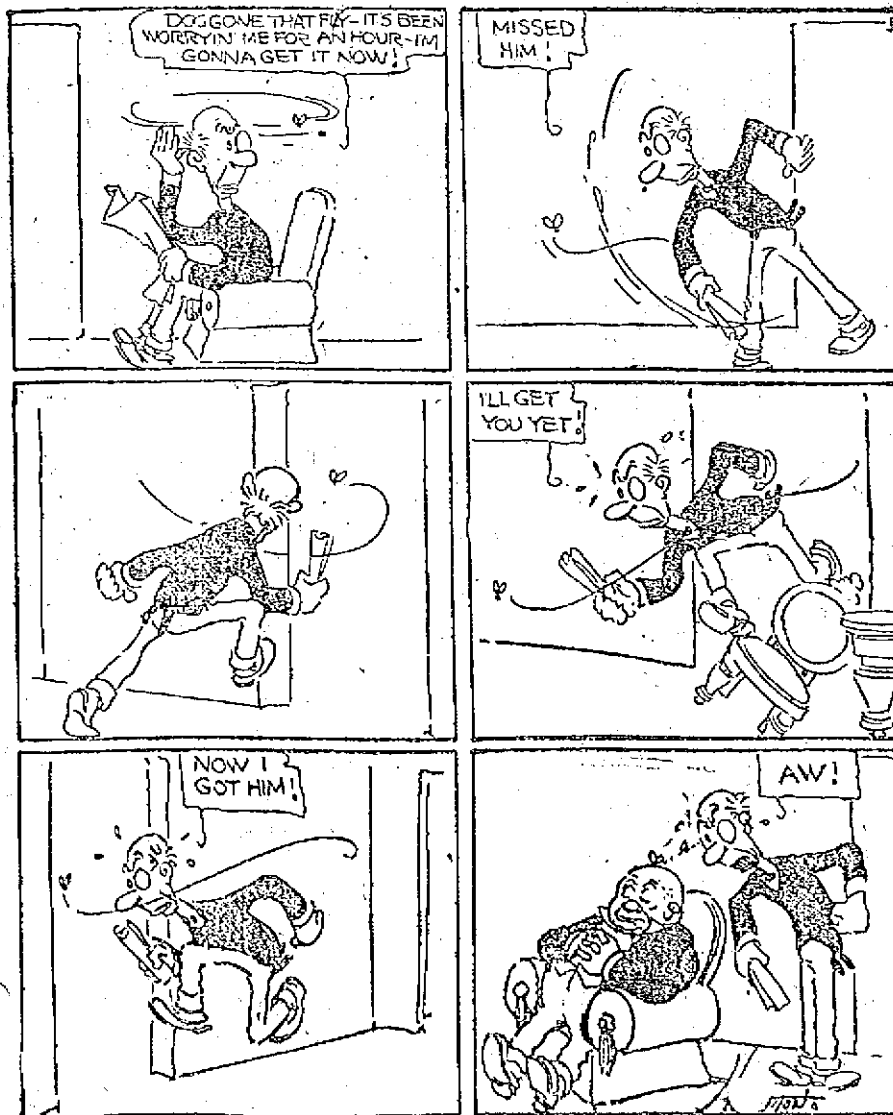

Miss Anna Agnes Maley, Socialist Nominee for Gov. of Washington

EVERETT, Wash., July 11.—Miss Anna Agnes Maley, socialist candidate for governor of Washington, is making an active campaign and is believed to have a chance of election. She was born on a farm in Sibley county, Minnesota, the eighth of a family of eleven. When 13 years old she went to Minneapolis, where she worked for her board while going through the high school. She taught school in the country until she was 22, when she studied stenography. She later studied at the

University of Minnesota and at a school of social science in New York. When the Daily Call, a socialist paper, was established in New York she became its business manager. She later traveled all over the United States as organizer of women for the socialist party. She has recently been editor of the Commonwealth, a weekly paper published here, but has given up editorial work to devote her entire time to the campaign. She is delivering speeches daily and nightly.

GENERAL PASCUAL OROZCO HAS REACHED JUAREZ

He Says That Guerilla Warfare Will Harass the Mexican Government

JUAREZ, Mexico, July 11.—In the same custom house where President Diaz and where also, a year ago, Francisco I. Madero established his triumphant rebel government, today sat General Pascual Orozco, Jr., wearing the torn threads of his unsuccessful military campaign against the federal government. The rebel chief, while admitting his defeat in an organized movement, made it plain that the guerilla warfare now being planned was calculated severely to harass the Mexican government, but contemplated neither friction nor alliance with any foreign government.

Toward the United States he said he entertained no ill will. From Mexico said to be friendly to his cause, he added that he wished no assistance.

"This is a revolution by Mexicans and for Mexicans," he explained with emphasis.

General Orozco gave his attention also to the situation in the Mexican colonies in northern Mexico. He reiterated his promise of earlier days in the revolution that foreigners and their property would not be molested.

The Mexican Central railroad is slowly being destroyed in front of rebel forces of federal troops. The rail system of railroad destruction will prevent the federal forces from reaching the vicinity of Juarez and the American border for at least two months. In the meantime, General Orozco considers that his men will have invaded Sonora and obtained control of the state, as well as a large part of the Pacific coast.

Inconsistently General Orozco had come to Juarez, the new rebel capital, from Burellville, 154 miles south, where the outposts of the rebel army on the Mexican Central railroad are now stationed.

Only a handful of officers and an Associated Press correspondent attended General Orozco. He came at the request of his father, Col. Pascual Orozco, who is in charge of the Juarez garrison.

General Orozco conferred today with his subordinates over a more effective prosecution of the rebellion. He believed that by guerilla warfare the government of Madero ultimately can be overthrown. The guerilla campaign has been mapped out secretly.

FOUR WERE INJURED BY A COLLISION

Car Hit Ice Wagon at Roslindale

BOSTON, July 11.—One man was seriously injured, three passengers received injuries necessitating the services of a physician and a wagon was damaged by collision of an ice wagon and an inward-bound Milton-Forest Hills car at Ashland street, near Shelton street, Roslindale, shortly before 1 o'clock last night.

The wagon, which is owned by the Hub Ice company of Roslindale, was being driven by Richenburg down Ashland street while the car was approaching in the same direction. In the collision Richenburg was thrown violently from his seat. He was picked up in an unconscious condition and attended by a physician who ordered his immediate removal to the hospital and he was taken in the police automobile ambulance.

Charles Clinton of 497 Hyde Park avenue, Mr. Hope, a helper on the wagon, jumped and escaped with minor injuries. Alexander Vandert, another helper, who was in the rear of the wagon, was thrown out, but sustained no injuries other than a shaking up.

The two horses attached to the wagon were thrown from their feet by the collision but soon recovered their footing and were stopped by a by-stander. The wagon was badly damaged.

Passengers on the car were hurled from their seats.

The motorist of the car was Geo. Lebus and the conductor, John Rochester.

BADLY INJURED CHILDREN WERE SCALDED BY BOILING WATER

BOSTON, July 11.—The two daughters of Thomas Burlando of 26 Valley street, Malden, Lena and Mary, aged 6 and 4 years respectively, were seriously scalded yesterday afternoon by pulling a pot of boiling water down on themselves from a gas stove.

The children had been left alone in the kitchen while their mother went through the house closing the windows in anticipation of the rain storm.

They were attended by Drs. Herbert G. Johnson and D. F. Randall. Their condition is serious.

WINE AN ISSUE IN SUIT BROUGHT BY WIFE AGAINST HUSBAND

NEW YORK, July 11.—Whether Charles D. Harbeson bought 20 quarts of wine at one time to treat himself and friends, as his wife says, or whether he bought only six quarts, as he says, will be the question presented at the trial of a separation suit filed yesterday in the supreme court.

Mrs. Katherine Harbeson charges she had to flee home with a few clothes and her jewels to escape her husband's cruelty. She says that as owner of a chain of five modiste establishments in New York, he fronts \$10,000 a year.

Mrs. Harbeson then said a much alimony would be about right, but Justice Gavegan decided \$10 a month more appropriate. In her complaint she stated that on May 23 last, at No. 261 West Ninety-sixth street, her husband struck her in the face and then rushed from the house, announcing he would return to take her. She made a quick exit and did not go back.

Harbeson replied that on this occasion he asked his wife to explain a report he had heard concerning her and she laughed at him. He said his income is greatly exaggerated.

Mrs. Harbeson told the court her husband has spent as much as \$300 a day on the races and that he is very fond of wine.

THEATRE VOYONS

One of the features of the program at the Theatre Voyons today will be motion pictures of the Massachusetts delegation at Baltimore, headed by Mr. Humphrey O'Sullivan, and a very reasonable picture it is of several Lowell men. Then the Yale-Harvard boat race on the Thames, which was won by Harvard, is shown, and in a complete manner. "Under Suspicion," the story of a poor boy, is a most touching one and well acted, and other portions of the bill are the best ever.

ESPERANTO LEAGUE

BOSTON, July 11.—The election of general officers and a meeting of the Students Esperanto league to which all young people were invited to attend, were features of today's session of the fifth North American congress of Esperanto.

Following a hasty trip and shore dinner the members of the league, dressed in Esperanto at their annual dinner.

OLIER J. DAVID HAS RETURNED FROM REUNION AT TROIS RIVIERES

Mr. Olier J. David of Ludlum street has returned from Trois Rivières, Que., where he attended the first convention of this class, which was held last week. He was a member of the class, numbering 15, mostly all professional men and clergymen, assembled at the

FOR BABY'S SAKE USE

Then his skin will be free from itching, chafing, scalding, rashes, and all soreness. The original and best baby powder. For twenty years Comfort Powder has been considered the standard of perfection by thousands of New England physicians, nurses and mothers who use no other.

STRUCK BY AUTO BOY THOUGHT TO HAVE BEEN FATALY INJURED

BOSTON, July 11.—Walter Murray, a 10-year-old boy of 1 Campbell place, Roxbury, was probably fatally injured by the driver of a Columbia automobile, which was driven by a man named yesterday afternoon by an auto owned and driven by Mr. J. Palmer of 5 Monument street, Charlestown.

The boy had been playing on the sidewalk and stepped off the front of the machine. Palmer pulled the car up and carried him to the City Hospital, where he was taken to a private hospital and where he is now lying in a critical condition, from which recovery is doubtful.

LAKEVIEW DANCE HALL

The best way to spend an evening when the temperature in the city is hovering around the century mark is to take a car ride to Lakeview park, which in the vernacular of the street is "coming back strong" and there enjoy the advantages of the beautiful park. One of the principal features of this well equipped resort is the dance hall, which is located right over the water, where the breezes are so strong that you are obliged to hold your hat, and the floor is one of the best in New England. The music by Kitzinger's orchestra is exquisite, the xylophone and bell solos by Tom Paul, Lowell's magnificent drummer, are sublime and the vocal solos by John V. Myers contribute to afford all who visit the place a most enjoyable time. At the fountain all the latest drinks are served, while in the bowling alleys, the sport is enjoyed as in the city in the winter time, owing to the installation of four large oscillating electric fans.

LAKEVIEW THEATRE

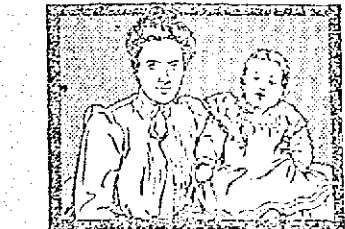

The attendance at this popular playhouse has increased every performance since the opening on Monday last of "The Minister's Sweetheart," as produced by the Majestic Players. It is a story of heart interest with here and there touches of comedy and pleases the most exacting audiences. Miss Elsie Gladys in the role of the minister's sweetheart is equal to its many requirements, has a pleasing personality and her performance shows the make of a finished actress. Pete Gray in the comedy character of Dr. Hodge in suit suited to the part. His many humorous lines and situations please the audience immensely. Mr. Willis Steadman as the Rev. Mr. Dunchester is a part that many would over play, but Mr. Steadman cannot be accused of so doing and to his credit must be held that his portrayal of the minister is an artistic one. Mr. Arthur Chaire as Norman Weir, the detective, who so acutely loves the minister's sweetheart, but when he discovers that she loves another, the man within him comes to the surface, he sacrifices his own happiness that Irene may wed the man of her choice and live happy ever after. Mr. Chaire's portrayal of this role

MRS. WILKES' BLESSING

Her Dearest Hopes Realized — Health, Happiness and Baby.

Plattsburg, Miss. — "Lydia E. Pinkham's Vegetable Compound has proved very beneficial to me, for now I am well and have a sweet, healthy baby, and our home is happy."

"I was an invalid from nervous prostration, indigestion and female troubles."

"I think I suffered every pain a woman could before I began taking Lydia E. Pinkham's Vegetable Compound, and I think it saved this baby's life, as I lost my first one."

"My health has been very poor ever since, and I praise your medicine to all my friends." — Mrs. FRANK WILKES, R. F. D. No. 1, Plattsburg, Miss.

The darkest days of loss and wife are when they come to look forward to a childless and lonely old age.

Many a wife has found herself incapable of motherhood owing to some derangement of the feminine system, often curable by the proper remedies.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy.

We challenge anyone to name even one other medicine that has been so successful in relieving women's suffering as has Lydia E. Pinkham's Vegetable Compound.

GOV. FOSS TO RUN AGAIN IF THERE IS NO CONTEST

David I. Walsh Will be His Running Mate on the Ticket

BOSTON, July 11.—Governor Foss is more than likely after all to lead the democratic state ticket this fall, and his running mate, as last year, will be David I. Walsh of Fitchburg.

This was learned yesterday after talks with several of the democratic leaders who are known to have been in conference with the governor over this matter.

It was learned also that these lead-

ers now feel certain that the governor should run again for the sake of the success of the party here in the coming presidential contest, and they have all told Governor Foss so.

It became known yesterday that the governor takes the attitude that if for the sake of the success of the party, both in the nation and state, it appears to the party leaders that he should run again, that he will forego his intention of retiring to business life this year, and will once more be a candidate for governor.

The governor, however, has made it known that he will only run in the interest of party harmony and success, and that if there is a contest for the democratic gubernatorial nomination he will not think of entering such a fight. In fact those close to his excellency state that to induce the governor to run there must be no contests for the nomination, and the leaders feel sure that neither Mr. Walsh nor District Attorney Pelletier will oppose him.

These same party leaders want Mr. Walsh to again run for Lieutenant Governor and it is announced that Mr. Walsh is ready if the governor is willing.

During his conference with leaders of the democratic party, Governor Foss has expressed the desire to see the party make a strong fight to obtain control of the governor's council.

Sherman L. Whipple favors re-election Governor Foss. Governor Plaisted of Maine and Governor Baldwin of Connecticut as a way of giving assistance to the election of Wilson and Marshall.

Mr. Whipple, who for two years has been prominent as a democratic leader and candidate for United States senator, gives a decisive turn to the rumor that has been current for several days that Mr. Wilson wished the three New England governors to run for office again.

Mr. Whipple with David I. Walsh and others has been in conference with Governor Foss upon the democratic situation which began to look alarming by the promise of a contest between Mr. Walsh and District Attorney Joseph C. Pelletier for the democratic nomination.

FACTORY BURNED

FIRE IN ROXBURY CAUSED LOSS OF \$6000

BOSTON, July 11.—Three alarms were rung for a fire which broke out early yesterday morning in the carriage and wagon painting factory of Green Bros. at 37 Southampton street, Roxbury, causing a total damage of about \$6000.

Forty horses were hurriedly taken out of the stables at 42 and 40 Reading street, close to the burning building, but within 20 minutes the firemen had the flames, which at first seemed in danger of spreading, well under control.

The origin of the blaze is unknown, but owing to the highly inflammable nature of the material stored in the paint shop it had gained a good start before the first apparatus arrived.

"KID GRIFFO" ARRESTED FOR SOLICITING ALMS

He Was Once the Lightweight
Champion Pugilist of
Australia

NEW YORK, July 11.—Albert Griffio, known in the pugilistic world as "Kid Griffio," and for several years the lightweight champion of Australia, was arrested here early today, charged with soliciting alms. The former champion, shabbily dressed and hungry, was lined up at the station house before Sergeant Sheridan, who knew him well in his palmy days and recognized him despite the 200 pounds of flesh which concealed his once athletic frame.

"Fifteen years ago," said Sheridan, "Griffio used to bet a thousand dollars that no one could knock a cigar from his mouth, while

he stood on a handkerchief. He didn't step on the cloth and he didn't strike a blow. He merely dodged, and always won his bet."

"His first fight in this country was for a purse of \$4000 at the Broadway Athletic club. He won and the cashier brought him a big roll of greenbacks—three one thousand dollar bills, eight one hundred dollar bills and two hundred dollar bills in one dollar bills. He couldn't read or write, and he had never seen any of those bills of larger denominations. He was glad to get the one dollar bills, but couldn't take them. The crowd tried to persuade him to take them, but couldn't, so 'Griffio' walked off with the two hundred one dollar bills and left the rest, \$3500."

FOREST FIRES

HELD UP TRAINS IN THE WHITE MOUNTAINS

INTERVALE, N. H., July 11.—Fire caused considerable damage at several points in the White Mountain region yesterday. Traffic on the Boston & Maine railroad was delayed by the burning of a wooden bridge over a small stream in the town of Madison.

The White Mountain express train from Boston was held up just below the stream and a special train was sent down from North Conway to take the passengers after they had been ferried over the river. The bridge will have to be rebuilt before any trains can pass over it.

A forest fire which has been raging since Sunday in the Pinkham Notch, just east of Mt. Washington, and on the slope of Wildcat mountain, has burned over several hundred acres of heavily wooded land and yesterday appeared to be still beyond control. More than 200 men are fighting the flames and a dense cloud of smoke overhangs the whole eastern White Mountain region.

Another forest fire burned over a large territory at Twin Mountain.

COUPLE ELOPED

GROOM IS 16 AND THE BRIDE IS 19

HARTFORD, Conn., July 11.—"Harold hasn't any right to go and get married until he is at least 25 years of age, and Ruby, who is older, is as much to blame as he is," burst out Ticket Agent Charles A. Warner of Warehouse Point last night when a reporter informed him that he had a new daughter-in-law, by reason of the elopement of his 16-year-old son, Harold Raymond Warner, with his playmate, Ruby Lee Palmer, the 19-year-old daughter of Mr. and Mrs. Henry Palmer, wealthy residents of Melrose, Conn.

The youthful couple came to Hartford Tuesday afternoon and easily obtained a marriage license by swearing to 21 years of age. Then they repaired to the home of the Rev. J. F. Johnson, of the First Presbyterian church, who performed the ceremony.

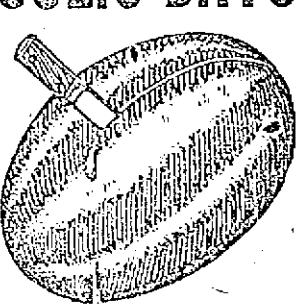

After first threatening to disown his son, Mr. Warner seemed to think better of it and conceded that Ruby was "really a very nice girl and comes of a fine family." Yesterday morning the couple started on a honeymoon to Saratoga, Niagara and the Great Lakes.

KAPPA SIGMA FRATERNITIES
LOUISVILLE, Ky., July 11.—Each of the 25 chapters of the Kappa Sigma fraternity is well represented at the grand convocation, which entered upon its second day's session this morning. Last night the fraternity men were guests of honor at a dance at which there were 200 Kentucky girls, each tagged with her name for convenience of the visitors.

GRAND CIRCUIT RACES
GRAND RAPIDS, Mich., July 11.—The Constock \$5000 purse for 2:15 class pacers was the chief attraction on today's grand circuit program. Nine fast performers made up the list of contenders for this prize.

Other events, with purses of \$1000 each, were the 2:09 pace, the 2:14 trot and the 2:09 trot.

MELON COLIC DAYS

Suggest
SANFORDS GINGER

A delicious combination of ginger, aromatic and health giving. Look for the Old Trade Mark on the wrapper, let you get a cheap, worthless or damaged substitute. Forty years the standard of purity, flavor and strength. Sold by all druggists and grocers.

After being quartered at Arlington Heights, they are assigned to the Army of Virginia under Gen. Sigel. Later the band was assigned to the Army of the Potomac under Gen. Hooker. On the occasion of President Lincoln's visit eight bands played in competition and the 33d band led the 1st. Lincoln's son, who was with him, called the band "our band" thereafter.

The band was the last to leave Atlanta at the beginning of the march.

A Girl's Wild Midnight Ride

To warn people of a fearful forest fire in the Catskills a young girl rode horseback at midnight and saved many lives. Her deed was glorious but lives are often saved by Dr. King's New Discovery in curing lung trouble, coughs and colds, which might have ended in consumption or pneumonia. "It cured me of a dreadful cough and lung disease," writes W. R. Patterson, Wellington, Tex., "after four or five years had died with consumption, and I gained 87 pounds." Nothing so sure and safe for all throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by A. W. Dows & Co.

to the sea, and Mr. Smith was wont to say he felt as Nero did at the burning of Rome, playing as the flames lighted the city. After returning to this city he led a band and later taught dappering.

Mr. Smith presented to R. A. Pierce post 109, G. A. R., several years ago an English snare drum that was used at the battle of Bunker Hill. It came to him by inheritance from Levi Smith, to whom it was given by a Rhode Island soldier, who picked it up in the entrenchments after the battle.

CHELMSFORD

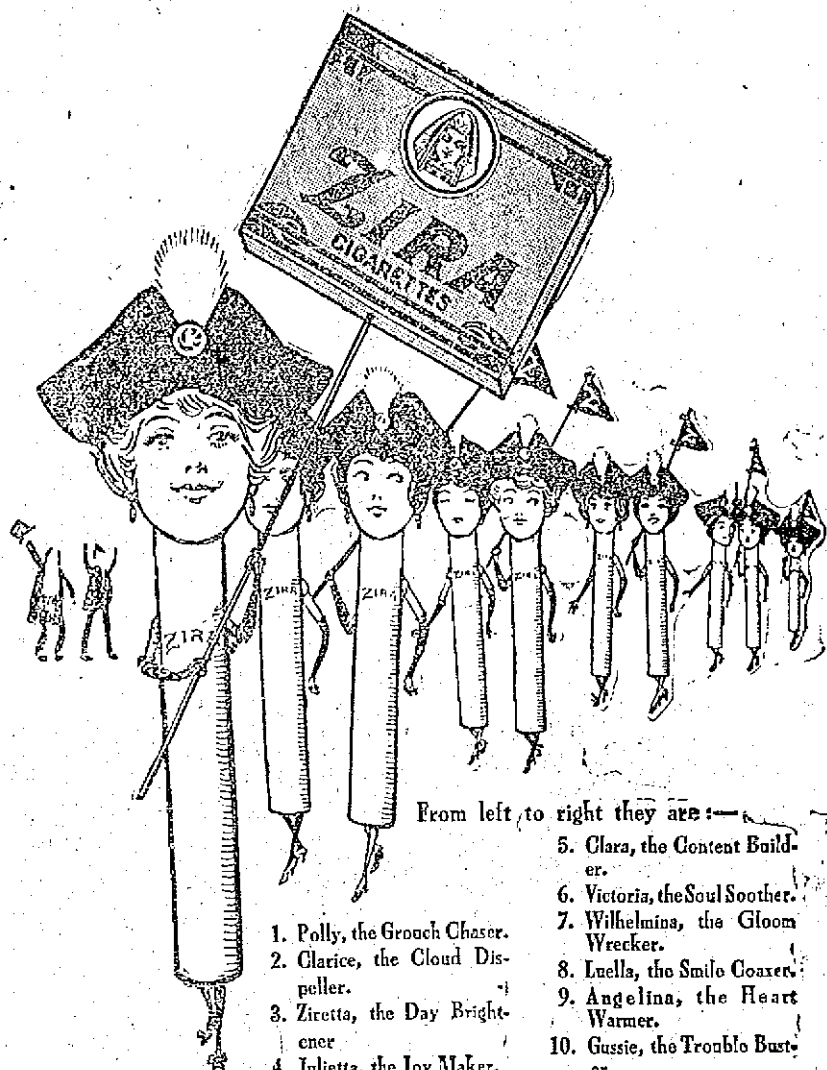

The members of the school board of the town of Chelmsford met in the town hall in Chelmsford Centre last evening and transacted considerable business. The teachers for the ensuing term were elected and other assignments were made. All of last year's teachers were re-elected. For est. Warden Arnold C. Pecham announces that no more permits for starting fires in the open will be issued

until the present severe drought is broken by heavy rain, and has so instructed his deputies. Two fires in the woods at East Chelmsford, one back of the Sullivan place, and one near the Thompson farm, have been burning since Thursday and Friday of last week.

CADUM for any skin irritation

This new remedy is very soothing and healing to an irritated or inflamed skin. It can be used with confidence in many skin troubles. It is antiseptic and destroys disease germs. Trial box 10c.

OH YOU ZIRAS!

From left to right they are:

1. Polly, the Grouch Chaser.
2. Clarice, the Cloud Dispeller.
3. Ziretta, the Day Brightener.
4. Julietta, the Joy Maker.

10—Count 'em—10.

Are they the Coaxingest bunch that ever came out of a cigarette Box?

They Are!

Have they taken the country by Storm?

They Have!

Have you tried 'em?

Better Hurry!

106 YEARS OLD WOMAN WAS INVETERATE SMOKER FOR YEARS

OXFORD, July 11.—Mrs. Catherine Allard Snay, widow of Louis Snay, died yesterday morning at the home of her daughter, Miss Rose Snay, in North Oxford, at the age of 106.

She was born in St. Mary's, Can. Most of her early life was passed in Chamblay, Can. In 1823 she married Mr. Snay, who died in 1850, leaving her the sole support of a large family. In 1856 she moved with her family to Webster, coming to North Oxford two years later.

Mrs. Snay was for years an inveterate smoker and for the past eight years, while she had been confined to her bed as the result of a shock, her pipe was her greatest comfort. She was blind and entirely helpless, but her mind remained unclouded.

She was the mother of 12 children, five of whom survive her, Misses Rose and Mary Snay, Joseph, John and Peter Snay of Oxford; 16 grandchildren and several great-grandchildren. The funeral will take place Thursday morning in St. Ann's church, North Oxford.

Mrs. Snay was the oldest resident in this section of the state.

CLARENCE DARROW

WILL NOT TAKE STAND UNTIL OTHERS HAVE TESTIFIED

LOS ANGELES, Cal., July 11.—Clarence S. Darrow will not take the stand in his trial for jury bribery until all other witnesses for the defense have testified. According to a statement by Darrow, he expects to be on the witness stand about a week.

The chief objects of assault by the defense will be Bert H. Franklin and John R. Harrington, the principal witnesses for the state and each a former employee of Darrow, testifying under immunity. About fifty witnesses will be called to impeach each of the two.

ISRAEL SMITH

BANDMASTER OF 33D REGIMENT WELL KNOWN HERE

Israel Smith, who died at the home of his daughter, Mrs. Eva Smalley in Winchester Sunday, was favorably known in this city, especially among the veterans of the Civil war, as he took an active part in the battles with the south, he at that time being bandmaster of the 33d regiment of this state.

Mr. Smith was born in Cumberland, R. I. in September, 1826, and at the age of 16 he became a drummer boy in the American band under Joseph Green, a noted bugler. This was toward known as "Bever's" band, and played at the dedication of Bunker Hill monument. He moved here in 1847 and led the orchestra at the old Liberty theatre. In the early days of the Kendall band of Boston, Mr. Smith was often summoned to Boston to drum for music that no Boston drummer had memorized. Only New York could boast of an equally proficient player.

At the outbreak of the Civil war the band was organized under the direction of Col. Alberto C. Maggi of this city, who had served under Garibaldi in the Italian wars. The musicians started for the front Aug. 11, 1862, with 15 men, under the leadership of Mr. Smith, who played the E flat cornet.

THREE DOLLARS PER YEAR TWENTY-FIVE CENTS PER MONTH

HOT WEATHER RULES

It is remarkable what a number of fatalities result from a spell of intense heat. Many who endeavor to cool off by bathing in rivers or canals lose their lives by drowning because they take too many risks; while others are overcome at their daily avocations or perhaps while going about the streets. It should be remembered that the temperature usually runs highest along some of the streets exposed to the sun for the greater part of the day. The sidewalks, the pavements, the walls of buildings all get heated by the sun and thus the reflected added to the direct heat of the sun raises the temperature very considerably. This is one of the reasons why it is well to get out of the city if possible and into the shade of trees where there is at least a good circulation of air and protection from the sun.

The hot weather is particularly severe on infants and children not old enough to take care of themselves. The hot spell usually brings on stomach troubles for babies and in a great many cases results in cholera infantum that may prove fatal later on. When any symptoms of this disease appear, a doctor should be called at once because it is not to be trifled with. Even a day's delay may allow the disease to get such headway that it will be incurable.

Dr. Mahoney of the Boston board of health lays down the following very excellent hot weather rules which it would be well to follow during this hot spell:

"The day should be inaugurated with a cold sponge bath, for babies and children, as well as for grown-ups. A dip daily or frequently in the briny, of course, is excellent, but not indispensable.

"Keep away from alcoholic drinks of all kinds. Reports show that in a great majority of cases those who are overcome by the heat are usually alcoholics; in fact, in many cases heat prostration is almost indicative of alcoholism.

"It is best to eat out meat, especially for children, during the heated term, for it is very heating. Adherence to a vegetable and milk diet is most advisable in the hot weather for all who would keep as cool as possible while the mercury is competing with the thermometer tube for altitude honors.

"Cold water is the best hot weather beverage, and it should not be poured in too frequently, and naturally cold water is better than ice-water. The latter should be carefully handled and drunk not too frequently.

"As to children. Don't let them roam about in the hot sun. They should be lightly and comfortably clothed, their diet should be carefully studied, and they should be given a frequent sponge bath to keep them cool. They should not be given much if any meat.

"Disease conditions in general in the city this summer are much better than they have been for some time. Unlike last summer, there is an abundant supply of milk this year, while last year, at about this time, there was a considerable shortage."

DISORDER AT PUBLIC PLAYGROUNDS

Considerable complaint is made because of the unruly conduct of boys at the public playgrounds in Boston. Matters have become so serious that the mayor has appealed to the churches to plead with the boys for better conduct on the public playgrounds.

We are rather surprised at this roundabout way of stopping the disorder. In all probability the boys who make the trouble do not attend church. The boys are simply showing the result of improper training at school. If they had been subject to strict discipline at school they would not be unruly on the public playgrounds. The unruly boy is allowed altogether too much latitude. If he were curbed in when he begins to show a disrespect for authority, he would not make any trouble on the public playground. Some boys are permitted to act as rowdies in and around school yards. They are never satisfied, unless when they are damaging property or abusing boys younger than themselves. It is quite noticeable that street signs, lamps and other public property in the vicinity of schools are usually hammered with stones, damaged and defaced. If these boys were held responsible for their conduct on the way to school and returning, their deportment might be very much better. If Mayor Fitzgerald wants to have order preserved on the public playgrounds let him appoint a good strong janitor to be ready at call when one of these offenders requires attention. Once they learn that there is somebody ready to attend to the mischief-maker they will take care to observe the rules. These boys act the rowdy only when they know they can do so with impunity.

Those in charge of the public playgrounds in this city last year, reported that the conduct of the boys was entirely satisfactory. Indeed there was reason to compliment the instructors in charge upon their perfect control of all the children who came to join in the different games and sports organized for their benefit. We believe that proper discipline is all that is needed in Boston and that it will have as good an effect there as in this city. It is all a matter of the capacity to govern possessed by the officers in charge. If they do not know how to govern a lot of boys they will have nothing but a headache, but if they can control such an assemblage then can have things just as orderly as the average school room.

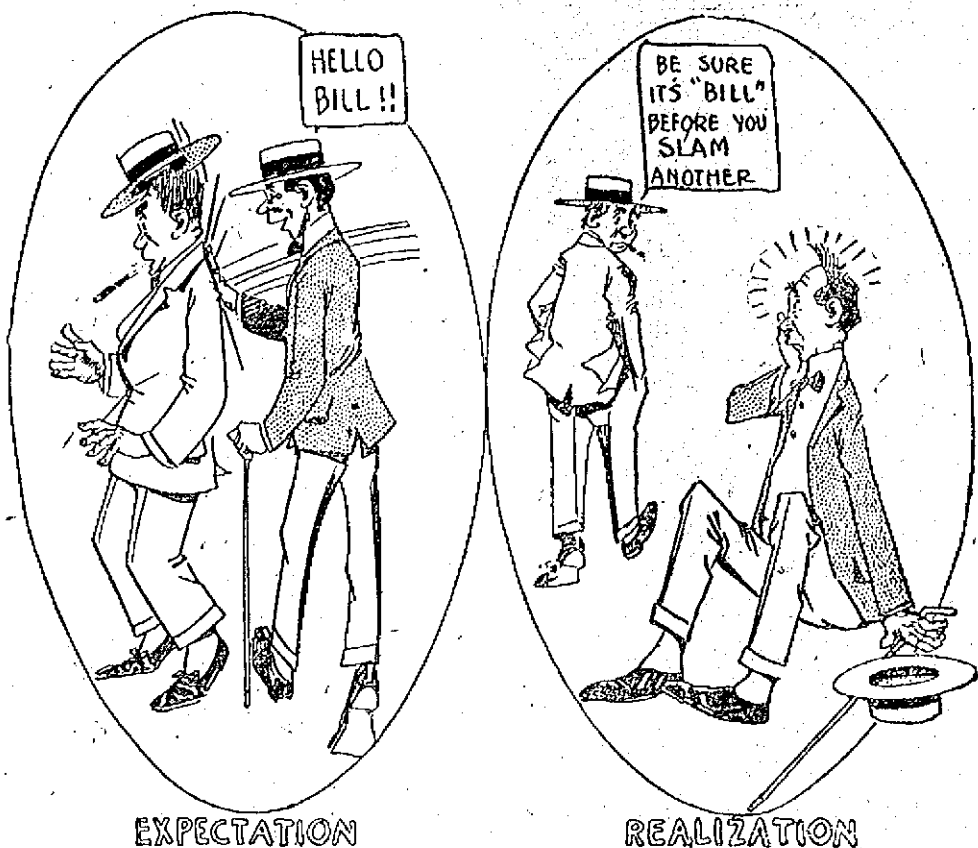

THE MYSTERY STILL UNSOLVED

After all the hearings held in regard to the city finances, it seems that as yet no one can tell just when the Huntington hall fund was expended or by whose authority. If the city council ordered the money turned into the general treasury there should be some record of such action and the city treasurer should know something about it.

If City Treasurer Stiles be simply displaced by another man, we do not believe he would have any reason to complain. We do believe, however, that if he did his full duty, he should be able to assist the municipal council to a greater extent in straightening out the financial muddle. He should be able to tell what happened to the Huntington hall fund and the Nesmith fund. Is it not a part of his duty to clear up the apparent mystery surrounding the disappearance of these two funds? Nobody suspects the treasurer of dishonesty, but everybody wonders why he cannot explain just when and how these funds disappeared.

As an accomplished and tactful presiding officer Mayor O'Donnell has won many compliments during the recent hearings at which he presided. His prompt decision of knotty questions in a manner that was readily conceded to be strictly fair to all concerned won the admiration of those present. A wrong decision either from ignorance or a desire to be unfair would condemn a presiding officer irretrievably, but Mayor O'Donnell did not at any point leave himself liable to such censure.

The candidates will probably cut more figure than the platforms this year. The democratic party is sitting on both and cares not on which the campaign may be lost.

EXPECTATION

REALIZATION

LIFE'S DISAPPOINTMENTS

SEEN AND HEARD

The Toronto Globe (Toronto, Canada) takes a Torontonian to task for using a little small cuss word. The fellow was talking about a cyclone he had seen and he said it was "just like hell let loose." The Toronto Globe had this to say about it: "It is a pity the Canadians are copying the absurd American habit of extravagant profanity."

Another Canadian paper, and a good one, the Hamilton Herald, criticizes the Toronto Globe's criticism thusly:

"What the Globe mistakenly assumes to be a bit of American slang is an expression in the stateliest of English poetical classics, and is more than 230 years old. In the fourth book of Paradise Lost, where Satan is discovered in Eden, the angel Gabriel, addressing the archfiend, asks:

"Wherefore with thee
Came not all hell broke loose?"
Now, take that, Mr. Globe man.

One western paper says that the owner of a chain of yellow journals killed Champ Clark. "Kuff sed."

Is that a joke about a bull moose being seen in the woods near Beverly?

"There's one mean policeman at the police station," said a fellow who had been given his freedom on Monday morning after spending the Sabbath in the bastille. "He was passing my cell Sunday forenoon," he continued, "and I asked him what time it was. 'What do you care about the time,' he said, 'you are not going anywhere.'"

"I can truthfully say I am a success," said a literary man who had hitherto kept silent.

The others looked at his modest attire and tried to think of something he had written.

"Yes," he went on, "it is easy enough for a business man to stay married when he is home only one day in the week, but I have been doing all my work at home for nearly 30 years and I still have the same wife I started with."

Save your kashmir shawl. It may soon become as valuable as a fine old Turkish rug.

The use of imported European wool in India threatens the extinction of what remains of the shawl industry in that country and it is impossible for it to regain its lost position. In fact, it is only a matter of time when a fine kashmir shawl will be a curiosity.

Also the Indians, with the advance

of European civilization, seem to be losing the art of shawl making, just as American Indians are forgetting how to weave baskets. Kashmiri shawls once had a shawl trade of \$1,000,000 a year.

"The brilliant wit of the bar looked at the moon-faced farm laborer and winked at his friends and whispered, 'Now, we'll have some fun.'"

"Have you been married?" he began.

"Ye-es," stammered the laborer, "once."

"Whom did you marry?"

"A w-woman, sir."

"Come, my good man, of course it was a woman. Did you ever hear of anyone marrying a man?"

"Ye-es, sir, my sister did."

UNITY.

Heart of my heart, the world is young;

Love lies hidden in every rose!

Every song that the skylark sung

Once, we thought, must come to a close.

Now we know the spirit of song,

Song that is emerged in the chant of the whole.

Hand in hand as we wander along,

What should we doubt of the years that roll?

Heart of my heart, we cannot die!

Love triumphs in flower and tree,

Every life that laughs at the day.

Tell us nothing can cease to be;

One, we are one with a song today,

One with the clover that scents the world.

One with the Unknown, far away,

One with the stars, when earth grows old.

Heart of my heart, we are one with the wind,

One with the clouds that are whirled o'er the sea,

One in many, O broken and blind,

One as the waves are at one with the sea!

Aye! when life seems scattered apart,

Darkness, ends as a tale that is told.

One, we are one, O heart of my heart,

One, still one, while the world grows old.

—Alfred Noyes.

KILLED BY HEAT

BELFAST, Me., July 11.—Harry C. Elwell, aged 23, suffered a sunstroke which caused death while working in a hay-field early today. He was the son of Frank Elwell. Several prostrations were reported as the result of the intense heat that has prevailed for several days. Cloudy skies today relieved the situation somewhat, but the thermometer dropping from 100 to 90 degrees.

Health and Beauty Hints

BY MRS. MAE MARTIN

Mrs. J. L.: Frequent shampoos with cantrox during the summer months insure a fine growth of brilliant, fluffy hair, rich in its natural color and so responsive to the fingers' touch that doing it up is genuine pleasure. A teaspoonful of cantrox dissolved in a cup of hot water is enough mixture, and when this is rubbed up it creates an abundance of white, thick lather that quickly dissolves all dirt, dandruff and excess oil.

Rinsing leaves hair and scalp immaculately clean, and the hair will dry quickly and evenly. The regular use of cantrox gives to the hair that exquisite fluff and massy softness and will insure a lovely growth.

Dr. J. F.: A delicate paste will remove the hairy growth. Mix enough powdered cantrox with water to cover the hairy surface, apply and after 2 minutes remove, wash the skin and the hairs are gone. This treatment is harmless and does not discolor the skin.

Anonymous: Cutting the lashes is dangerous. Apply a little proloxin each night at last roots with the thumb and forefinger and they will come in strong and thick. Thin eyebrows will grow thick and heavy if proloxin is rubbed on with finger end. Use caution not to get any where hair is not wanted.

Mrs. O. H.: Turkish baths are a severe tax on the system. Try the paroxis treatment for fat-reduction and I am sure your weight will soon be just where you want it. To prepare, dissolve 4 ounces paroxis in 2 pints hot water, then take a tablespoonful and rub it over the body. It gradually and surely dissolves the fat and restores the figure's symmetrical lines without possible injury or inconvenience and when your weight is where you want it, you can stop without fear of its returning.

Lidia P.: Large pores and skin roughness can be overcome with the aid of an almondin cream-jelly. This is made by stirring 2 teaspoonfuls glycerine into 1/2 pint cold water, to which is then added 1 ounce almondin. Apply generously to the skin each day and it will clear it of all dirt impurities.

This cream-jelly is fine for beautifying the arms, neck and face, as well as for banishing sallowness and thickening condition, and it can also be used with good effect for removing

out hollows and dispelling fine lines or crow's feet as well as for discouraging hairy growths.

Mrs. Harry: Impure blood is the cause of much sickness, and in would advise you to begin at once a karden treatment. This is an old-fashioned blood-cleanser and body-builder, and is made by putting 1 ounce karden in 1/2 pint alcohol, then adding 1/2 cupful sugar and hot water to make 4 quarts. Take 1 tablespoonful before each meal and it will gently expel poisons from the blood and tone up the entire system. This will give you renewed strength and energy and make you feel good. It is especially good as a summer tonic, and its use frequently prevents serious sickness.

Mrs. Tim: Unhealthy scalp causes profuse dandruff, excess oiliness and other unctions, and these in turn cause the hair to grow lifeless, brittle and fall out. Try the quinzoin tonic I frequently mention and you can correct all this. Just add 1 ounce quinzoin to 1/2 pint alcohol, then pour in 1/2 pint water and your tonic is ready. Frequent applications of this hair-softening tonic will banish all scalp afflictions, keep it healthy and induce an abundance of soft, brilliant hair, rich in its natural color.

Alma M.: You need have no fear of tan or freckles if you apply daily a quinzoin cream lotion, made by stirring 1 ounce quinzoin into 1/2 pint water (hot or cold) to which has been added 2 teaspoonfuls glycerine. This lotion is superior to powder, because it does not clog the pores, and it imparts an exquisite tint and velvety smoothness to rough, oily, blotchy or "muddy" skin. The regular use of the quinzoin lotion insures a youthful complexion not possible by any other method. The quinzoin lotion also is invisible when on and is not affected by wind or perspiration.

Mona: Your dull, expressionless eyes, when treated with a simple quinzoin tonic, will soon regain their former brilliancy and expressiveness. To make the tonic, dissolve 1 ounce quinzoin in a pint cold water, then put 2 or 3 drops in each eye daily. Nothing equals the quinzoin eye-tonic for removing foreign particles, reducing inflammation and for granulated lids. Its use often does away with glasses.

DENNIS J. HEALEY CHOSEN PRESIDENT

Of Amalgamated Leather Workers Union

Dennis J. Healey of this city was elected general president of the Amalgamated Leather Workers' union of America at the 12th annual convention of that body which opened July 4th at Beethoven hall, New York city, and continued for four days. Several other Lowell men were also elected to high offices and the local delegates took a very active part in the convention.

DENNIS J. HEALEY.

Several matters of importance were discussed and resolutions adopted which affect the labor movement in this country.

One of the resolutions adopted was that disapproving the action taken by the supreme court justice of the District of Columbia in the case of President Samuel Gompers, Secretary Frank Morrison and Vice President John Mitchell of the A. F. of L.

The delegates from the different states reported legislative measures of interest to unionism and labor bodies.

The following officers were elected: General President, Dennis J. Healey of Lowell; general vice president, Chas. Shanley, Lowell; general second vice president, Thomas E. Fiers, Newark, N. J.; general organizer, Fred Latane, Lowell; general secretary, James Brennan, Lowell.

A sight-seeing invitation was extended to the officers and delegates by the New York local, but the majority of them found it impossible to participate in it owing to the long distance of home travel.

The delegates from Lowell were: James Coleman, Charles Shanley, Fred Buckley, William Liston.

SAVED A CHILD

EXPRESSMAN BLOCKED RUNAWAY WITH TWO-HORSE TEAM

HOLYOKE, July 11.—James T. Reed of South Hadley Falls, an expressman, saved 2-year-old John Kay of Hampshire street from death or serious injury at 11 o'clock yesterday forenoon by turning his two-horse team in front of a runaway horse attached to a hearse.

Mr. Reed saw the horse running toward an alley, and also saw the little child standing in its path. He quickly wheeled his pair of horses across the alley and in the path of the runaway, which struck them with a crash. Mr. Reed was thrown to the ground, but he landed on his feet.

His horse ran over by his own wagon and rendered unconscious. Shortly afterward the pair brought up against a telephone pole and one of them was so badly injured that he had to be shot. The runaway horse also continued, but finally stopped after wrecking the wagon. Mr. Reed was taken home and examined by a doctor. His speedy recovery is expected. The child was unharmed.

THE NEW NICKEL

WILL HAVE BUFFALO INSTEAD OF GODDESS

WASHINGTON, July 11.—The executive order which will completely change the design of the United States 5-cent piece probably will be issued by Pres. Taft within a few weeks.

J. W. Frazer, the New York artist who is working out the design, conferred with Secretary MacVeagh and George E. Roberts, director of the mint, yesterday, regarding the details of the new coin.

The figure of a buffalo has been selected for the nickel's face to displace the Goddess of Liberty because, it is explained, the buffalo is peculiarly an American animal. The Goddess of Liberty is on several other United States coins.

The thought of the buffalo suggests the Indian and for that reason an artistic head of a red man will adorn the reverse of the new piece of money.

BLACK HAND NOTE

PROSECUTOR ATTWILL RECEIVES DEMAND FOR RELEASE OF ETOR

LYNN, July 11.—Henry C. Attwill, district attorney of Essex county, who lives at No. 59 Ocean avenue, it became known yesterday, has received a number of black hand letters in which he has been threatened with death unless he lets up in the prosecution of Jos. Etor and Arthur Glavanniti, the two I. W. W. leaders arrested as accessories to the murder of a woman in the Lawrence strike.

The district attorney was unperturbed when seen at his office in Lynn. "I have no fear of any man," said Attwill. "I have not asked for any police protection and do not want any."

STORM BROUGHT SOME RELIEF

BARRETT'S SPEECH AROUSSED DISCUSSION

He Says Members of Council
May Leave Themselves Liable
to \$1000 Fine

In his argument in the Stiles case, Tuesday night, Alderman Barrett said that the city of Lowell hasn't money enough to meet its obligations unless the members of the council perform an illegal act within the week.

This particular part of Mr. Barrett's speech has aroused a lively discussion about town, and asked today to make his meaning more explicit. Mr. Barrett said: "I meant just what I said. While the municipal council has voted to borrow \$100,000 to apply to the temporary loan of last year it cannot be used for that purpose, and the members of the municipal council who vote to apply it to the temporary loan of 1911 would be doing an illegal act that would not only furnish cause for his removal from office, but would also render him liable to a fine of \$1000."

"The law in the matter is very simple and very plain. In fact, there is nothing connected with the city's business that is not perfectly plain. All that's required is just a little common honesty. No superior order of intelligence is required to conduct the city's business and conduct it on a proper and business-like basis."

"It would not help us any to borrow \$100,000 at this time. In fact, it would but serve to complicate matters, for the law says that money borrowed in anticipation of taxes can be expended for no other purpose except that of defraying the current expenses of the year in which it is borrowed. That simply means that money borrowed in anticipation of the taxes of 1912 could not be applied, and applied legally, to the temporary loan of 1911."

Up to the Voters

At the state election to be held November 5 there will appear on the ballot to be voted upon by the voters, proposed amendments to the constitution, as follows:

Shall the proposed amendment to the constitution relative to the taxation of wild and forest lands be approved and ratified?

Shall the proposed amendment to the constitution disqualifying from voting persons convicted of certain offenses be approved and ratified?

At the city election to be held December 10, the voters will have their say as to whether the firemen shall have one day off in five. The proposition for one day off in five will not interfere with the two weeks' vacation now allowed the firemen. The voter will also, at the next city election, have an opportunity to vote on the question of pensioning laborers. The statement has gone out that hereafter none but enrolled voters would be allowed to sign the nomination papers of any candidate and it is true as far as it goes but it doesn't go far enough. The law reads as follows: None but enrolled voters of the party represented by a candidate and voters who are not enrolled in any party shall be entitled to sign the nomination paper of such candidate.

HAMILTON AND LAWRENCE MANU-DANGEROUS FIRE

FACTURING COS. SHUT DOWN

AT NOON

The Hamilton and Lawrence mills closed at noon today on account of the heat. A portion of the Massachusetts mills closed at the noon hour yesterday because of the heat, but it was said that conditions on the whole were more tolerable today. It was stated in several of the mills, however, that there had been a number of heat prostrations and that the mills would probably have to close for a time if the hot wave continues.

Rain This Afternoon

The rain that came this afternoon afforded great relief. The ground is very dry, so that the leaves of the trees, especially of the elm and maple trees, are drying and falling off as in the fall.

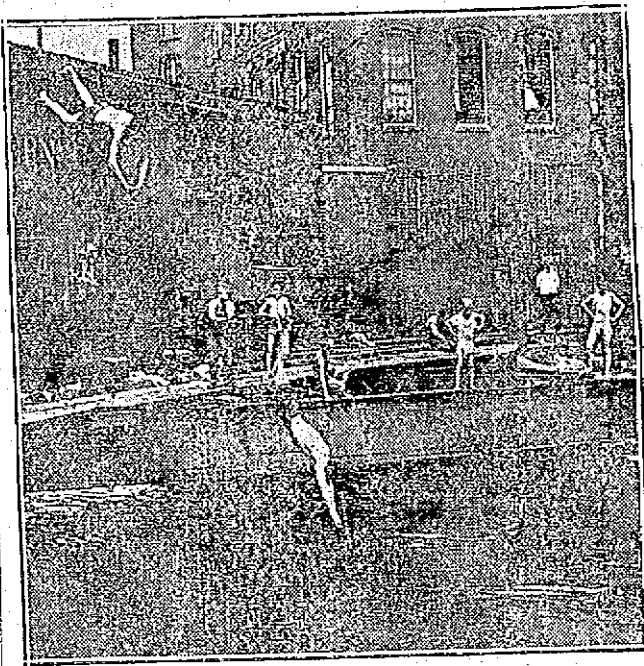

The temperature today, however, was not quite so high as the preceding days, although it was very close all forenoon. In some places the mercury dropped from above 90 to 85 in the shade. The horses are finding great relief by being given sponge baths by men of the Lowell Humane society. People are flocking out of town, taking trolley rides and seeking the summer resorts. This afternoon hundreds of clerks were given a half-holiday and many of them were seen boarding electric cars for the country.

The agent of the Humane society held a conference with Commissioner Barrett yesterday relative to a number of watering troughs about the city which seemed to be out of commission, and the result was that the commissioner sent a man out to examine each trough and report any defective ones. The agent of the Humane society has also distributed circulars to drivers instructing them how to care for their horses during the hot spell, and he has also distributed cards warning people not to lock up their cars while they are going away on their vacation, the maximum fine in such a case being \$250. Mr. Richardson reports six cases of heat prostration among horses for the past two days.

A Welcome Shower

That was a blessed shower and there is more to follow. The thunder's

winding sheets and narrow streets, the boys are diving in the Dutton street canal from a box car near the Nelson Morris' packing house. The alley in the rear of The Sun's temporary quarters was flooded, and the terrible heat of the last few days was relieved. The air was filled with electricity and the storm was accompanied by a fairly high wind that carried leaves and dead branches into the street. Despite the warmth and humidity the rain was accompanied by hail and some of the stones were unusually large. It was a grand old

BOYS DIVING FROM BOX-CAR ON BANK OF DUTTON ST. CANAL.

shower and the weather man allows that there's some more on the way.

Some Fancy Diving

That the element of danger makes sport more attractive is a well known fact and boys who go swimming are among the thousands who flirt with danger because it adds to the attractiveness of the sport. If you happen in Dutton street at six o'clock in

the relief man would be first aid to the injured. This is a wise and necessary precaution.

While the writer watched a number of boys diving from the top of a car in Dutton street a few evenings ago, he was accosted by a fine old gentleman, who said to him: "That's pretty risky business, diving from the top of that car. If they should land the wrong way I'm afraid they would get badly hurt. There were no such antics as that when I was a boy. When we went to swim we didn't go looking for high places to dive. But danger doesn't seem to count for much these days."

CHAS. LAFLAMME

WELL KNOWN INSPECTOR OVER-COME BY HEAT

Inspector Charles Laflamme of the police department was overcome by the heat yesterday afternoon while at the police station and had to be removed to his home, 35 Saran avenue, where he received medical treatment.

Inspector Laflamme has not enjoyed the best of health recently and the hot weather took considerable effect on him. He was advised to refrain from working until the hot spell was over, but he felt that it was his duty to attend to his work and continued to report at the police station.

During the early part of the afternoon he complained of feeling rather weak and later his condition became so bad that it was deemed advisable to remove him to his home.

The automobile patrol was brought into service and Inspector Laflamme was taken to his home where he was attended by Dr. R. J. Mignault.

AT THE CITY FARM

Stable Was Destroyed and the
Flames Spread to the
Outbuildings

A dangerous blaze broke out in the barn and outbuildings in the rear of the Chelmsford street hospital shortly before three o'clock this afternoon just when the thunder storm was fiercest. Lightning struck one of the wooden buildings and the flames spread rapidly. The fire department had a long run to the scene and when the men and apparatus arrived the flames had gained great headway. Mayor O'Donnell and Ald. Barrett were early arrivals and watched the firemen battle with the flames. The fire spread from the outbuildings to the storehouse but the

inmates of the institution were kept well in hand by the officials and showed no fear. The storehouse was well stocked with supplies for the inmates and these will most likely be a total loss.

Despite the efforts of the firemen the flames spread rapidly and the heavy downpour of rain seemed to have little effect on the blaze.

After 4 o'clock the barn was a mass of ruins, the large cupola having fallen in with a crash after the flames had eaten away the lower portion and roof of the building. The next to go were the outbuildings and the fire quickly communicated with the storehouse.

INMATES WERE SCARED AT OLD LADIES' HOME

Many Thought Building
Was on Fire

Considerable excitement was caused at the Old Ladies' home in Fletcher street shortly before three o'clock this afternoon when a bolt of lightning struck the hard rubber tube which contains an electric feed wire and after the rubber had been burned volumes of smoke filled the cellar and made its way through the upper portion of the building.

Fortunately it was practically all smoke and little fire and after the old ladies who are inmates of the home were informed that there was no danger quietness was restored.

It was following one of the sharp bolts of lightning that the hard rubber tube caught fire and it started and blazed and the flames followed the tube into the cellar and filled it with smoke.

People in the vicinity rushed to the building and with the assistance of the hose used to water the lawn the blaze was extinguished but when dense smoke started to pour from the cellar windows it was thought that there was a fire in progress in the cellar and an alarm was sent in from box 25.

The fire department was soon on the scene, but it was found that there was no fire, but considerable smoke.

A Needless Alarm

An alarm from box 125 shortly before 2 o'clock this afternoon gave a portion of the fire department a needless run to a house in upper Market street where a man had thrown a lighted cigar out of a window. When the firemen arrived it was found that there was no fire.

Small accounts solicited and appreciated. Old Lowell National Bank.

CLAYTON CONTEMPT BILL

WASHINGTON, July 11.—The house today passed the Clayton contempt bill, 232 to 13. The measure provides for trial by jury for those accused of indirect contempt of a federal court.

It passed by the senate and enacted into law it would have a direct bearing on such cases of contempt of court as those in which Samuel Gompers, Frank Morrison and John Mitchell of the American Federation are now involved.

A SUICIDE

MAN JUMPED OVERBOARD FROM
A STEAMER

PROVIDENCE, R. I., July 11.—Leaving his last will and a farewell letter to his wife, Hattie, in which he asked pardon for bringing "another unfortunate" upon her, Jacob A. Levy, 33 Orleans street, Newark, N. J., a passenger on the steamer Puritan of the Providence line jumped overboard from the vessel this night or early today. Levy's disappearance from the boat was reported by the captain when the steamer arrived here today. Although cards and documents found in his clothing gave Newark as his home the letter to his wife was addressed to Harrison Avenue, Passaic, N. J.

DR. C. K. MILLS

WAS RECALLED IN THE THAW
CASE TODAY

WHITE PLAINS, N. Y., July 11.—Dr. Charles K. Mills, one of the Thaw witnesses who was on the witness stand when court adjourned yesterday, was recalled when the case was continued today. Dr. Mills corroborated the testimony of Dr. White in that he said that Thaw is sane at the present time. He said he could find no trace of paranoia. Thaw's mind might be called brilliant, he added, in view of his memory of historic facts, his interest in good reading and some of his writings.

LOWELL GAME

CALLED OFF ON ACCOUNT OF
THE RAIN

The ball game between Lowell and Haverhill, scheduled for this afternoon in this city, was called off on account of rain. Both teams were at the grounds, ready to play but when the rain came down there was nothing doing. The teams waited the necessary half-hour and then the umpire announced that the weather was not fit for a game, and later in the season a double header will be played here to make up for the postponement.

YALE TO GET \$250,000

NEW YORK, July 11.—By the will of Matthew C. D. Borden, the Fall River cotton manufacturer, died here today Yale university will receive an addition of \$250,000 to its endowment fund provided the estate is found to be worth more than \$2,500,000. It is estimated at much more than this. The remainder of the estate is to be held in trust for Mr. Borden's widow and four sons.

BIG BABY SHOW

HELD AT THE FRENCH AMERICAN ORPHANAGE GROUNDS

There were over 500 people on the grounds of the French American orphanage in Pawtucket street this afternoon, not counting the children who were nearly as numerous, the occasion being a baby show conducted to raise funds for the new buildings which are being constructed next to the present orphanage. The affair was conducted by Mr. Frank Hildard and Mrs. Elizabeth Dupont, while Mrs. Charles Hildard, president of St. Joseph's sewing circle, under whose auspices the event was carried off, aided materially in the arrangements of the fête.

The closing of the Lawrence Mills, and other mills greatly helped in the success of the show as many took advantage of the holiday for a car ride to the orphanage. At 2 o'clock the grounds which had been decorated for the occasion were crowded with women and children and they listened to a concert furnished by a highly gaudy. The large throng of people promenade around the lawn for some time, while those in charge of the various booths and tables did a rushing business in the sales of goodies and various useful articles.

Just as the show was about to start a shower, accompanied by thunder and lightning, broke out and all were forced to take shelter in the spacious buildings. Fortunately, there was room enough for everybody, and while in the building the guests were entertained by the sisters in charge and the little orphans. At the time of going to press the crowd was still on the grounds and the organizers were not certain if the event would take place today or be postponed till next Thursday afternoon.

95 FUNERALS

MONTREAL, July 11.—Ninety-five funerals were held here today and the majority of those buried were victims of the recent hot spell. Eighty of the dead were little children. The demand for horses was so pressing that many of the bodies had to be taken to the graveyards in cabs and masses were said over five or six bodies at one time.

BASEBALL GAMES POSTPONED

BOSTON, July 11.—(American) Boston-St. Louis game postponed, rain. American League—New York-Detroit, no game, rain.

THE PANAMA CANAL SUBJECT OF CONTROVERSY

Between England and the United States—England Requests Delay in Action

WASHINGTON, July 11.—Great Britain's request that the enactment of the Panama canal administration bill be held in abeyance until Mr. James, the British charge, can present a note in behalf of his government, confronts congress and the state department with an extraordinary situation.

The request for delay was communicated to the senate, inter-oceanic committee from the summer embassy of Kline, Me., late yesterday and was sent by Mitchell Lines, the charge, acting for Ambassador Bryce, who is in New Zealand. While the reasons for the request are not stated in the charge's note there is no doubt that the British government is concerned in the canal to grant free passage through the canal to American vessels in coastwise trade, and that relating to the passage of railroad owned ships. The Canadian railways are deeply concerned in both, and it is thought that some of the representations will be made in their behalf.

The canal bill is now in the senate committee with prospect of being reported very soon, and will then go to the house.

The congressional feeling that if any agreement is to be had it must be at this session of congress. The exigencies which have arisen by the reduction of force as the canal approaches completion makes legislation necessary. If a permanent organization is to be set up on the canal zone to the best advantage, it was said today that numbers of both houses were not agreeable to much delay now.

Senator Brandegee has replied to the state department that the legislation proposed is regarded as extremely urgent and that the senate committee had planned to report the canal bill to the full senate some time this week. That reply has been communicated by cable to Mr. James and will probably have the effect to hasten the delivery of the British note.

One of the provisions in the pending bill would make it impossible for Canadian railroad ships to pass through the canal if they engaged in coastwise trade. The question of free tolls to certain classes of American ships involves the old question of the Hay-Pauncefote treaty. It is believed that the British government will hold that ships of all nations should be on an equal basis. The opinion among many American statesmen is that to grant free tolls to American ships is not a violation of the terms of the Hay-Pauncefote treaty.

Great Britain's request for a postponement of Panama legislation now before congress until a formal statement can be filed against the proposed ship toll provisions is likely to have little effect in delaying the passage of the canal bill, according to leading members of the senate.

Members of the senate inter-oceanic committee who discussed the situation today declared that there would be no "backing down" by the senate from its position in favor of free passage of American ships. The committee has never been agreed upon that point, however, and there is a wide divergence of opinion in the senate as to the rights of the United States under existing treaties. Many senators who do not believe the United States has the right to give free passage to American coastwise trade believe the treaty terms could be met by rebating to American vessels the tolls they might pay.

Senator Lodge, ranking member of the senate committee on foreign affairs, declared any further delay in the consideration of the Panama canal legislation was impossible. He declined, however, to express any final opinion upon the right of the United States.

PERSONALLY CONDUCTED EXCURSIONS TO CALIFORNIA

Are you going to California? Do you want to be extra comfortable on the trip at no extra cost? Would you like to have a first rate, good natured, thoroughly competent and well informed conductor go all the way through on the trip with you, a man who is specially selected, and paid by our Railroad company to look after your comfort?

Such a man goes through with each of our Through Tourists. Our Excursions are chosen most carefully fitted for this work; men who are courteous and kind, who have made the trip many times and thoroughly understand their business.

Just call or write and let me tell you all about the Personally Conducted, low fare parties to California that have helped to make the "Through Route" service famous. Alex. Brooks, New England Passenger Agent, C. & N. Y. R. R., 24 Washington Street, Boston, Mass.

HEAVY THUNDER STORM IN BOSTON TODAY

Lightning Caused Death of Cambridge Child

BOSTON, July 11.—The excessive heat, which for two consecutive days has held Boston in its grip, was broken at least temporarily today. A heavy thunder storm accompanied by a downpour of rain, raged for more than an hour. During that hour the temperature dropped 15 degrees, from 81 to 66, and a cool breeze sprang up.

Lightning caused the death in Cambridge of 12-year-old Florence Scully. A bolt struck an electric light pole and live wires fell upon the child. Considerable damage to property was done in Cambridge by the storm.

During the early forenoon John Kehoe, a plumber, was prostrated in Boston and died within a short time, making the 13th death due to heat during the last seven days. A boy named Angell was struck by lightning and killed in a barn in Everett.

SENATOR LORIMER DEFENDS HIMSELF

Says His Election Was Not Procured by Fraud

WASHINGTON, July 11.—The senate chamber filled up slowly under the call for a quorum to hear arguments in the Lorimer case today but only fifty-six senators answered to their names. The senate galleries were not half filled.

Senator Lorimer had taken a seat at the head of the center aisle. As he rose and began his speech he read from a manuscript. He declared he proposed to give the senate an insight into the character of the men who he said had tried to ruin him.

"It is true that the senate has the right to deny me a seat in this body," he began, "on the flimsiest pretext or on no pretext at all. I intend to show that no vote cast for me was influenced by fraud."

"Mr. President," he said in measured tones, "this is no joke. This is a solemn and sacred question. If the senate decides to follow the views of the minority in this investigation, it will be a travesty on civilized jurisprudence, a mockery on justice. It will be a declaration that the senate has decided to follow the red flag that has become the advocate of anarchy; it has adopted the doctrine of the recall as advocated by its arch-enemy."

Senator Lorimer departed from his manuscript for a moment to refer to the Chicago newspaper. He declared certain of the newspaper publishers there would be in prison if the public prosecutors had been active. He spoke slowly and with great emphasis. Finally he discarded his manuscript and took up a place in the center aisle from which he could be heard on both sides of the chamber.

On the back walls of the chamber were two diagrams of Chicago streets. One showed the location of the Chicago Tribune building with the valuation of other property at the corner of Dearborn and Madison streets, the other property on Madison between La Salle street and Fifth avenue, comparing the assessed valuation of the Chicago Daily News property and their actual value.

HEALTH RECORDS SHOW CITY IS QUITE FREE FROM DISEASE

The board of health records show that Lowell is remarkably free from contagious diseases at the present time but there is some alarm felt because of the presence of typhoid fever. Three cases of typhoid have been reported within the last few days, but that is hardly sufficient cause for alarm inasmuch as three cases were reported in July of last year.

J. H. WALKER TO BUILD HOUSES IN MT. VERNON STREET

James H. Walker has all the confidence in the world in Lowell's future, and he proposes to prove it by building five houses in Mt. Vernon street. They will be three apartment houses, 25 by 54 feet, three stories, and the estimated cost of each house is \$3500.

CLUE TO MURDERER OF NEW YORK CHILD

Young Man Lived Near the Victim and Has Disappeared From His Home

NEW YORK, July 11.—The detectives who are working day and night to capture the creature that tortured and killed twelve-year-old Julia Connors admitted last night that they had only one bit of information that might be regarded as a clue. They are hunting the city over for a young man who has been missing since Sunday from the neighborhood of 3888 Third avenue, the house where Julia was imprisoned and stabbed last Saturday night.

Cap. Price learned yesterday that the man was seen in Third avenue on Sunday morning by several people who said they noticed that his face was scratched. According to the stories which the detectives are investigating, he seemed to be excited and anxious to avoid notice. Except that the young man was expected home yesterday and did not arrive there is actually nothing that could turn suspicion toward him.

The stories of a scratched face, while nothing more than neighborhood talk, interested Price because it seemed likely to him that the little girl fought desperately against her abductor before she was finally overpowered and gagged. The Bronx detective captain is confident that if the murderer is captured soon it will be found that his face is marked. One of the jobs that half a dozen of Price's clerks had yesterday was to search a big district of the Bronx, including several little parks, looking for a man whose face showed finger nail marks. A tip that Price wouldn't discuss led him to send two of his men to Brooklyn last night.

The police cordon around the blocks from 171st street to 173d street and from Third avenue to Fulton avenue was continued yesterday and last night. The detectives hope that Julia's murderer will be drawn back to the scene, and so they are scrutinizing carefully every boy and man who enters the apartment houses or the shops in that district.

Examining the case from every angle that seems reasonable from the scanty material, the detectives can't get away from the idea that the murderer either lived in one of the houses near 3888 Third avenue or else came by. They built this conclusion largely on the singularly desperate chances the man took in conveying the dying child from the vacant third floor apartment in 3888 to the vacant lot, a detail of the crime that might easily have led to his capture.

Being recognized and exposed by any one of the tenants whose windows overlook the vacant lot.

"If he was a stranger in the neighborhood, a ruffian who happened to be in Third avenue when Julia passed by, why didn't he leave the body in the street?" asked Cap. Price. "Everything in this case points to a man who not only was perfectly familiar with the house and the means of reaching the vacant lot swiftly and easily, but who had some reason for not wanting the crime to be located in the house. All this of course is in addition to the fact that we believe the murderer was known to the child, else she never would have gone with him."

It developed yesterday that the murderer took pains to avoid leaving evidence of his crime. He left no stains on the floor of the bathroom or elsewhere in the apartment save in the bathtub. The theory of the detectives is now that he attempted to discard the body, having found a small wooden box in the cellar which he meant to use for carrying away the pieces, but that he was either too unskilled or too much in a hurry to avoid the daylight to carry out his purpose, so he finally crammed the body into the box and carried it to the vacant lot.

That he meant to return and remove the strips from the bathtub is considered probable, but there was no time, and so the police think he hurried away just before dawn. The astonishing feature of this part of the case is that nobody on that hot and wretched night, when dogs were barking alarms every few minutes, heard or saw anything suspicious.

Even day tramps or defective boys and men whose actions in the public parks alarm women are arrested and questioned. There were two such cases yesterday, neither of which was of any importance as concerning the extraordinary murder problem.

The district in which the murder occurred is one of the most crowded in the Bronx. There has been extraordinary pressure brought to bear on the detectives to do something quickly.

Cap. Price said last night: "The hunt for Julia Connors' murderer will never be dropped. It may be that we shall make more progress after the excitement has died out. Personally I feel that the man will be caught within a few weeks. But it is one of the most puzzling and difficult cases the police department ever had to tackle and all we ask is patience on the part of the public."

WILSON AND CLARK TO MEET SATURDAY

They Will Have a Three Hours' Conference

SEA GIRT, N. J., July 11.—Governor Wilson announced today that he had set aside three hours Saturday afternoon for a conference with Speaker Champ Clark, who is coming to Sea Girt to see him. Representative Underwood, the governor said, probably would come to Sea Girt for a conference next week.

What will be discussed by Mr. Clark and the nominee is for the speaker to say. Gov. Wilson declared that it would be erroneous to state that they would discuss legislation pending or prospective in congress.

Speaker Clark and Underwood both have written the governor that they would be glad to consult with him concerning the program of the democrats in congress during the remainder of the session.

Checks still continue to pour into the governor's office. He said today that they formed the most interesting feature of his mail and that he was kept tolerably busy acknowledging them. The contributions range from \$5 to \$1000.

ALLSTON GOLF CLUB SOLD
Lowell golfers will be sorry to hear of the sale of the Allston golf club. It has lately been sold to a large real estate concern which is to erect apartment houses on the property. This is one of the largest real estate deals of the year and involves more than \$1,500,000. The Allston club has a frontage of about 2000 feet on Commonwealth avenue and 2000 feet on the Boston & Albany tracks. The site for the Mass. Institute of Technology buildings is directly opposite the property. The Allston Golf club is one of the finest clubs in the state. The course itself is famous and is highly spoken of by all golfers. There has always been a friendly rivalry between the Vesper and Allston teams. There have been several golf matches between the two clubs. The Allston players have always stood at the head of the list in the state tournaments and some of the state's best golfers belong to the club. Several members of the Allston club are also members of the Vesper Country club.

Now the family solicitors, according to the Star's dispatch, have notified the relatives that the will has been found. The details have not been divulged, but it is stated that everything was left to Sir Henry Delves Broughton. Hence the relatives who get part of the estate will have to make restitution to the present baronet, Sir Delves Louis Broughton.

If you want help at home or in your business, try The Sun "Want" column.

For Hot Weather

Nothing like old clothes and old shoes for comfort. We can fix them up just like new and they'll be more comfortable than ever. Phone 2560 for our free auto delivery.

RE-ARRANGEMENT SALE

COME
GET
YOUR
SHARE

We start a re-arrangement sale Friday morning in order 2 clean out all clothing now on hand. We intend 2 thoroughly overhaul this business. We will discard all tables and hang all clothing on racks which is now the modern way, tables being passe. In re-arranging our establishment we intend 2 change our system of selling clothing by making this a \$5, \$10 and \$15 Men's and Young Men's Suit Store. In addition we will carry our present lines of Furnishings and Shoes. We will carry suits at 3 prices, \$5, \$10 and \$15, and we intend 2 so strongly specialize on these 3 values that our \$5 suits will sell for \$8 and \$10 elsewhere. Our \$10 suits, \$12 and \$15 elsewhere, and our \$15 suits, \$18 and \$20 elsewhere. Every piece of goods now in the store we will endeavor 2 get rid of if price mark down will do it. We intend starting with an entirely new stock of clothing, any stock left will be shipped 2 our other stores. R U in need of Clothing, Furnishings or Shoes? If U R, we bid U come and get your share of the many good things in our line. We assure U a big saving as we must get rid of the merchandise. We do not wish 2 take up your time in this extremely warm weather by mentioning a page full of articles with prices, but we predict and vouch 4 it that if U come here 4 any of your needs in Clothing, Furnishings or Shoes, U will go away pleased and satisfied U received more than your money's worth.

EIGHT MINERS KILLED IN W. VIRGINIA MINE

Loud Explosion Occurred After
Men Entered the Shaft Early
This Morning

MOUNDSVILLE, W. Va., July 11.—Eight miners are believed to have been killed by a gas explosion in the Panama mine of the Ben Franklin Coal company here this morning at 9.50 o'clock. The Panama shaft had been closed for several weeks until today, when ten men entered the workings for the purpose of loading coal. They had been in the mine only a short time when the village was alarmed by the sound of a loud explosion and great volumes of smoke poured from the shaft. The twenty other employees of the company quickly assembled, and General Foreman McCabe quickly organized a rescue party. They penetrated the mine three-quarters of a mile before they came upon the burned and mangled bodies of William Hupp and Joe Minalin. It is feared they cannot live. The gas drove the rescuers back.

Foreman McCabe secured medical assistance from Moundsville and hastily organized another party in the hope of saving the eight men who were farther in the mine. So much time had elapsed, however, that McCabe expressed the belief that all were dead. The Pittsburgh station of the bureau of mines was notified and Chief J. W. Baill of the mine rescue division ordered the rescue car at Pilegrim, Pa., to proceed with all possible speed to Moundsville.

SHUT UP SHOP

POLITICS CAUSES A BREAK BETWEEN PARTNERS

TACOMA, Wash., July 11.—Sharp differences over politics between proprietors of one of the department stores in Walla Walla resulted yesterday in their closing it, announcing that it may never be opened again. The proprietors have had frequent quarrels as a result of their advocating different presidential candidates and decided it was best to close the store and come to some agreement. O. P. Jaycox and his two sons-in-law, Guy Bridges and Edward Payne, run the store. Jaycox is a radical Roosevelt supporter and Bridges is for Taft. Jaycox would not take over the interests of the junior partners and they decided to "split the monkey."

GOODALE'S DANDELION IS MUCH IMITATED BECAUSE VERY POPULAR--HOW TO TELL THE GENUINE DANDELION.

Goodale's Dandelion has grown so strongly in public favor that at many fountains where the original is not served, you will be offered imitation "Dandelion Beer" with the assurance that it is "just as good as Dandelion." BUT IT ISN'T. One drink will convince you of that fact. We want to warn the public against these imitations.

Genuine DANDELION is served always in food mugs bearing Goodale's name, or from bottles plainly labelled "Goodale's Dandelion." It is bottled in Lowell only by Boyle Brothers, who sell it in case lots at \$1.00 for 12 bottles.

Dandelion is Delicious—Everybody's Drinking It Now.

THE LOCAL HIBERNIANS

To Attend National Convention in Chicago

The arrangements for the biennial convention of the Ancient Order of Hibernians to be held in Chicago from July 15 to 20 inclusive, are completed and the itinerary for the Massachusetts delegates was received by the Lowell men who will attend the convention, this morning. The Lowell men are James O'Sullivan, D. J. Murphy, P. W. Moran and D. E. Hogan, but owing to pressing business the latter may not make the trip.

The Massachusetts delegates have chartered a special Pullman car which will leave Boston on Saturday evening at 7.45 o'clock. The train will proceed to Lowell, where the local men will be taken on. The train will move to Montreal, where the delegates will remain for the day. They will have breakfast at Queen's hotel and will attend mass at St. James cathedral. They will leave Montreal at 10.30 a. m. Sunday and will arrive in Chicago at 8.30 p. m.

The Massachusetts men will make their headquarters at the La Salle hotel, corner of Madison and La Salle streets. The convention will be in session from the 16th to the 20th in the new Hibernian hall. The latter was recently completed and is a magnificent structure. The Massachusetts men will leave for home, Saturday, July 20 at 10 p. m. and go to Detroit, arriving there at 7.30 a. m. Sunday, July 21. They will spend the day in the Michigan city, leaving in the evening on a steamer for a sail to Buffalo, where they will view Niagara falls and other points of interest in that vicinity. On Tuesday they will reach Toronto and later will go to Kingston from where they will sail down the St. Lawrence, shooting the rapids and arriving in Montreal on Tuesday at 6.30 p. m. They will leave Montreal at 8.30 p. m. for home, the train stopping at Lowell where the Lowell men will get off, and then continuing to Boston, where it will arrive on Wednesday at 8.05 a. m. Wednesday, July 21.

Mr. O'Sullivan in speaking of the convention said that he expects the session to be the most important in the history of the Hibernians. The last session, two years ago was held in Portland, Oregon.

TO KEEP COOL

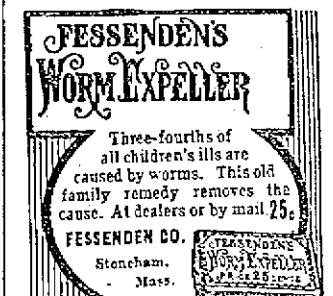

SOME ADVICE GIVEN BY DR. R. E. DOOLITTLE

WASHINGTON, July 11.—A hot weather schedule was laid down yesterday by Dr. R. E. Doolittle, acting chief of the bureau of chemistry and successor to Dr. Wiley. Here is how Dr. Doolittle says to keep cool and well:

Above all things don't worry don't think how hot it is. Don't look at the thermometer every two minutes. Just try to forget the weather and you will be surprised to find how much less you feel it.

Alcoholic drinks, beer, gin or anything like it, should be avoided. A little ice water is not harmful; also lemonade and soda fountain beverages. The acids and soda in the latter are really beneficial to ward off heat.

Possibly one may drink the kind that tickles in the glass, taken in the evening is all right. Once a day is often enough to eat meat in hot weather—never two or three times. Be sure, too, that any fish or sea foods are absolutely fresh. They and stale milk cause typhoid. Ice cream, too, is not harmful. Moderation in all things, eating and working, is imperative. Take a vacation sure. If you can't be sure your wife does, she probably needs it more than you do. Every man, though, ought to take a vacation. Vacations are good investments for any business firm to give their employees. Also loaf, sleep and take it as easy as you can all the time. Don't over-exert. I wear as light underwear as possible.

YOURS HERE?
We are now showing a large assortment of talcum powders, among which are Colgate's Violet, Monad Violet, Eclat, Cashmere Bouquet, unscented and Dactylis. Others are Mennen's, Hudnut's, Williams', Woodworth's Blue Lily and Trailing Arbutus, Corylopsis, Wright's, Erwin's and Riveris, all standard goods at lowest cut prices. Howard, the druggist, 157 Central St.

THE PLAN OF CAMPAIGN MAPPED OUT FOR TAFT

Country Divided Into Four Parts
—Crane and Hadley Will be
on Board of Strategy

WASHINGTON, July 11.—When the sub-committee of the Republican National committee meets in New York, heard of strategy. It is conceded July 15 to complete the organization for the campaign, it will take up a plan to divide the United States into four sections, with an experienced political leader in charge of each.

In other campaigns republican headquarters have been located in Chicago and New York, but the plan proposed now is to have the leaders especially charged with looking after the fast, middle west, far west and the south.

For the east, William Barnes, Jr. of New York, is under consideration, and for the middle west, with Chicago as headquarters, John T. Adams of Iowa, Charles B. Warren of Michigan, or Thomas K. Northinghaus of Missouri, are being talked of.

Ralph E. Williams of Oregon doubtless will look after the Pacific coast. Chairman Hilges that the chances are excellent for carrying four southern states—Missouri, Kentucky, Tennessee and Maryland—and a hard fight will be made there, with Senator Sanders of Tennessee, in charge. All these captions will be under the direction of National Chairman Hilges. While Mr. Hilges will have headquarters in New York, he expects to confer with the division leaders as often as possible and generally supervise the organization of the campaign. Considerable attention is being given to the selection of the advisory committee which is to be a sort of a board of strategy. It is conceded that Senator Crane of Massachusetts will be asked to take a place and Gov. Hadley of Missouri also may be selected as a member. Nothing definite will be done, however, until the sub-committee meets in New York.

COAL TALK

The talk of housekeepers is the quality of Quinn's Coal. The price is practically the same all over the city; but does the fuel you buy have the same effect in every instance? I know that it does not. Freedom from slate and dust, small percentage of ash, and lots of heat-producing qualities put the hallmark of merit on coal from these yards.

BOXING, GOLF
AND ATHLETICSRAIN STOPS LOWELL
AND HAVERHILL GAMEWith the Score 3 to 2 in
Haverhill's Favor

The game between Lowell and Haverhill at the latter city yesterday was stopped in the fourth inning by a severe rain storm. The Haverhill boys were in the lead by the score of 3 to 2 when play was stopped. Dee, the new shortstop from the New York state league, played in place of Loneragan, who is ill, and the youngster put up a good game in the short time that he was on the diamond. Miller, too, complained of a lame back and his place at second was taken by Wolfgang.

Lowell scored its two runs in the first and fourth innings. In the opening De Groot got a home run, while in the fourth the score was increased one run, when Halstein took first on a boot by Donahue, Magee's out, and Boutles' single which sent Halstein home.

Haverhill's three runs were scored in the first inning. White was hit by a pitched ball. Robinson went out on a fly to Lavigne. Perkins singled by Boutles. Long hit to Miller, who booted the ball, and there were three men on. Donahue fanned. Carney singled to left and White and Perkins scored. On the throw Long counted. Matthews ended the game, Zeiser to first.

The rain then came and the game was interrupted, but was again resumed, but after going a short distance it was again stopped, this time for the day.

AMATEUR BASEBALL

The Lincolns are without a game for Saturday, any team that would like a game, apply to John Caddell, manager, 9 Caddell avenue.

The Independents of North Billerica would like a game with some fast team in this city. C. M. A. C. or Y. M. C. A. Independents. Address box 265, North Billerica.

The Ledgers would like to hear from the West Chelmsford Reds or the White Sox of Grandville.

The Uniteds will play the Westford A. A. Saturday at Westford.

LAKEVIEW TEAM DEFEATED

Glee Club Quintet Won
All Points

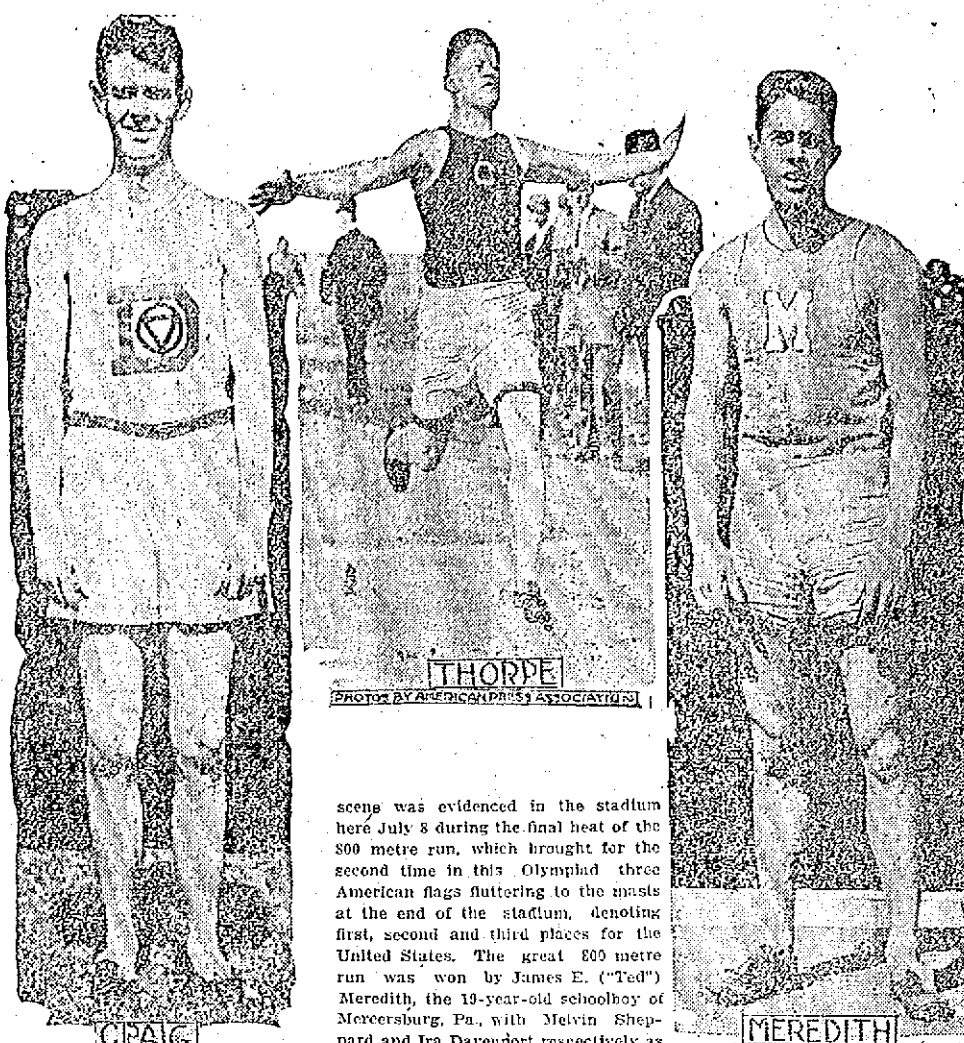

The Glee club team had easy picking in its bowling match on the Lakeview alleys with the Lakeview quintet Tuesday evening, the former winning all the points. The game was a scheduled contest in the Campers' league series, and the victory by the Glee club team places it well up in the standing. Buckley of the winners took the high single with 192, and Johnson captured the high triple with 281. The score:

T. H. Duffy and family have engaged a house at Salisbury beach for the summer. The house is one of two built by ex-Senator Shaw, and the Shaw houses are among the very best at the beach.

Trio of Yankee Athletes, Heroes of
the Olympic Games Held in Sweden

STOCKHOLM, Sweden, July 11.—Next to Johnny Hayes' sensational victory in the Marathon at London in 1908, probably the most wonderful scene was evidenced in the stadium here July 8 during the final heat of the 800 metre run, which brought for the second time in this Olympiad three American flags fluttering to the mast at the end of the stadium, denoting first, second and third places for the United States. The great 800 metre run was won by James E. ("Ted") Meredith, the 19-year-old schoolboy of Mercersburg, Pa., with Melvin Sheppard and Ira Davenport respectively as close as possible to a dead heat for 2nd position. All three broke the world's record for the distance. Meredith also broke the record of Enrico Lunghi, the Italian, for the half mile. Jim Thorpe, the Indian, winner of the pentathlon, is one of the heroes of the team. Ralph Craig is the winner of the 100 metre event.

PROHIBS ALSO FIGHT
IN NAT'L CONVENTION

Contest Carried to Floor of Convention and New Committee Ignored Candidates

ATLANTIC CITY, N. J., July 11.—Factions of the Prohibition party in convention here determined upon a finish fight over the chairmanship of the national committee today, and planned to settle their differences on the floor of the convention instead of trusting it to the new national committee.

DOG GAVE WARNING
AND SAVED HOUSE AND POLICE-MAN FROM FIRE

NEW YORK, July 11.—"Teddy," a collie dog owned by Patrolman John R. Marshall, Bloomfield, N. J.'s 300-pound policeman, saved its owner's home from destruction by fire yesterday, and incidentally the policeman's life. The family were away from their home, No. 274 Broad street, with the exception of the policeman, who was sleeping after being on duty all night.

The hot sun caused an oil stove to explode, and the blaze settled to the building. The dog began to bark, but Marshall supposed the animal was barking at some passerby, and he turned over for another sleep. Finally "Teddy" ran upstairs and jumped on the sleeping man, who at first thought of giving the animal a beating.

THREE KILLED

IN A TRAIN WRECK AT GRAND LAKE

HALIFAX, N. S., July 11.—Three men were killed and two score persons injured in a wreck on the Intercolonial railway at Grand Lake yesterday afternoon.

The engine of the Maritime express left the track and plunged down an embankment into the lake dragging with it the mail and express car and piling the baggage cars up at right angles on the track. Engineer James Clark and Fireman Peter McGill were carried to their death in the locomotive and an unknown tramp who was riding the blind baggage was crushed to death. The wreck is believed to have been caused by a defect in the engine.

None of the passenger cars left the rails and the passengers escaped severe injury.

HOT IN COURT
PRISONERS FEWJudge and Lawyers Were
Glad to be Released

This morning's session of the police court was a comparatively short one, there being but few offenders in the dock. The court officers, lawyers, newspapermen and Judge Picman, who presided, were pleased that the session was rather brief for it is hard to find a hotter place than the police court room on a hot day.

James P. Gilbride, charged with being drunk, denied the allegation, claiming that he was suffering from the effects of the heat. He said that the only thing he had to drink during the day was two glasses of Moxie. Patrolman Petrie testified to finding the defendant in an alleyway in the rear of John Street shortly before noon yesterday and that the man was very drunk at the time. Inasmuch as the court found the man guilty and that he is on parole from the state farm he will be returned to that institution.

Albert Perry will spend the next four months in jail. Lillian Derard was sentenced to three months and Charles Hayes will spend the next 20 days at the same institution.

Five first offenders were fined \$3 each.

The case of John Meehan, charged with failing to provide for his wife, was called, but inasmuch as he failed to put in an appearance his default was recorded and a capias issued for his arrest.

MAN USED VERSE

IN MAKING AN APPEAL FOR CLEMENCY

NEW YORK, July 11.—The use of verse in voicing a plea for clemency in a criminal case made its first appearance in New York this week in the trial of W. J. Fette for robbery. Fette's poem, which is addressed to the district attorney, declares mournfully that he has "Never had a chance," and is eager to do right if the opportunity offers.

BOY NEARLY ELECTROCUTED

BOSTON, July 11.—Kenneth McCallan, 12, of 11 Forest street, Malden, barely escaped electrocution through touching a pole holding up the feed wire of the trolley line at Main and Winter streets, Malden, which was heavily charged with the electric car current.

The insulation of the feed wire had burned out, so that the current was carried from the trolley wire down the iron pipe.

Several children playing near the pole received slight shocks from the ground, but not suspecting the deadly force of the current, dared one another to touch the pole. Little Kenneth McCallan took two jumps and placed his hand upon the pole. The force of the shock he received threw him backward into the street about five feet.

Luckily he had on tennis shoes with thick rubber soles, which partially broke the circuit. As it was he escaped without serious injury. The force of the current in the pole was several hundred volts.

MARANVILLE SOON TO GRADUATE

From N. E. League...He
is a Fast Player and
Good Sticker

One reason that the New Bedford team defeated Lowell in the double-header in this city on Tuesday afternoon is the excellent work of Maranville, the speedy shortstop of the Whalers. This young man broke into the New England league only a short time ago, but his work this season has been so sensational that while the season was in its infancy all the scouts were going to whale town to look him over. Last season his work was very ordinary, and those who saw him work last year never dreamed that he would ever go any higher.

At the sound of the gong for the 1912 campaign he started like a fire horse, and his playing was considered by many of the dopers to be but a flash. When he started getting two and three hits a game and finding his position like a Wagner, then the dope got twisted and Billy Hamilton of the Boston Red Sox had a talk with the powers that be in New Bedford.

A deal between the Boston Nationals and New Bedford was consummated, and New Bedford received C. Bradley Hoge, a pitcher, who is a very classy performer, and also a "little on the side," in exchange for the speedy infielder. Maranville is expected to report to the cellar champions of the National league some time next week.

While his batting average up to Saturday was but .275, it has been greatly increased this week, through the courtesy of the Lowell pitchers. On Monday in five trips to the plate he got four hits, one a three banger, and in the first game Tuesday he got four out of four, one of these being a home run.

He has scored 41 runs and stolen 12 bases. He is especially strong in the pinches, and since Manager Connaughton shifted him from the head of the batting order to the clean up position, New Bedford has taken a great brace. Maranville is still very young, and aside from being a clean ball player on a rush.

MARANVILLE, New Bedford's shortstop who goes to Boston Nationals.

the diamond he is a perfect gentleman, and although he has been responsible for several times defeating our team we all wish him the best of success in the big show, and his admirers are confident that he will make good with a rush.

PAYMENT REFUSED

INSURANCE PEOPLE ARE INVESTIGATING DEATH OF WOMAN

PHILADELPHIA July 11.—Officials of the Penn Mutual Life Insurance company of this city yesterday acknowledged they are investigating the death of Miss Candice Wheeler, daughter of James Cooper Wheeler, of New York, which occurred near Denver on June 23. Until the investigation is complete the company will refuse to pay the \$7000 policy it carries on the life of Miss Wheeler. The Connecticut Mutual Life Insurance company, which carried a \$5000 policy, is working in conjunction with the local corporation.

While the officials do not say a murder was committed, they declare all theories point to foul play instead of an accidental death.

Miss Wheeler, who was engaged to Mr. Otto Meyer of Indianapolis, was drowned in Bowles lake, Denver, on June 23. According to the story received by the officials of the Penn Mutual, she was on an automobile trip with a party. She insisted she wanted to go fishing and got into a boat alone. She lost one of the oars and in endeavoring to regain it fell overboard. Her body was not recovered until July 2nd.

Miss Wheeler's will was found to leave her insurance money to Dr. J. H. Meyer of Denver, a brother of her fiancé. Her other property, valued at \$10,000, was left to her fiancé.

That the death was not accidental, it is alleged, is indicated by the fact that valuable jewelry constantly worn by Miss Wheeler was not found on the body. Detectives for the insurance company are working on the theory

If you want help at home or in your business, try The Sun "Want" column.

that there was a struggle before Miss Wheeler fell or was thrown into the water.

TWO GIRLS WERE KILLED WHEN CAR STRUCK CARRIAGE

Frightened Horse Broke Through the Gates at the Railroad Crossing

BOSTON, July 11.—Pauline P. Schmitt, 15 years old, was instantly killed and Cecilia Schmitt, her 12-year-old sister, received injuries from which they died within a few minutes when the inward-bound Fall River express struck the carriage in which they were seated at the Dane Avenue crossing of the Fitchburg division in Somerville at 9:12 last evening. The horse was killed and the carriage smashed to pieces.

The two girls were returning from a drive which they had taken to Jamaica Plain, where they had paid a visit to an aunt. The gates at Dane Avenue had been lowered. The horse, which had only recently been bought by the father, John Schmitt, evidently was frightened.

Guinness and Patrolman Davies saw the horse, when within 30 feet of the crossing, pull strongly at the bit. The animals head was held straight forward and his ears were laid back.

The elder sister evidently realized that the horse was unmanageable, and she stood up in the light carriage and pulled with all her strength upon the reins. The younger sister, white with fright, leaned back in the seat. Pauline was unable to check the horse and as he crashed through the gates she screamed.

Struck by Locomotive

The train was due at Somerville station at Park street, next west of the Dane Avenue crossing, at 7:33. It was an hour and a half late and approached Dane street crossing at great speed.

The horse was on the inward-bound track when the cowcatcher of the locomotive struck the outfit. The hindquarters of the horse and the forward end of the carriage containing the girl received the full force of the blow. The elder girl was hurled 200 feet and she was decapitated. Cecilia was thrown 100 feet. The horse was hurled about the same distance and struck against a fence on the northern side of the tracks. The carriage was reduced to splinters and parts of it fell in a shower on both sides of the track.

Patrolman Davies and the gateman were absolutely powerless to prevent the accident, which had occurred in the space of a few seconds. They immediately telephoned to the police station and Lieut. Woodman sent the ambulance and a police auto containing Lieut. Carter and Sergts. Harmon and Ray.

The remains of Pauline were gathered and Cecilia was rushed to the hospital. She was unconscious when picked up and only a close examination showed that she was still alive. When the ambulance arrived at the hospital she was found to be dead.

Whistles Wane of Accident

A crowd was attracted to the crossing by the series of rapid blasts from the locomotive whistle which had been sounded by Engineer Henry Cass when he saw the horse dash on the cross-

The train was under charge of Conductor A. E. Jarno.

As an outward-bound train was set about the same time a signal was set to stop it, and when the engineer of that train saw the accident he answered with a series of blasts from the whistle.

As soon as the body of Pauline had been cared for and an undertaker was called, the police automobile was driven to the home of the girls' father, at 22 Berkeley street, Somerville. He was conversing with Harry Cavanagh, a friend, awaiting the return of his daughter. The police took him to the hospital, where he learned full facts of the case.

The death of the girls leaves him alone at home, as only three weeks ago his wife and his only other child, Stanislaus, 10 years old, had sailed on a trip abroad to be gone for the summer. They are now in Warsaw, Poland, the country from which both Mr. and Mrs. Schmitt had emigrated to the United States.

When he was informed that both his daughters were dead he collapsed, and it was found necessary to assist him to the police automobile. He was driven back to his home and his sister, Mrs. A. L. Feldback of Jamaica Plain, upon whom the two girls had called earlier in the evening, arrived later to care for him.

Mr. Schmitt, whose name in Polish is Schmiedel, is a manufacturing chemist, with a place of business on Wyatt street, Somerville. His business has been highly successful and he has amassed a comfortable fortune within recent years.

TAFT SUPPORTERS HAVE FORMED A STATE COMMITTEE IN IOWA

DES MOINES, Ia., July 11.—Seventy-five supporters of President Taft in Iowa held a conference last night and formed a state central committee, which will work despite the refusal of the republican state convention yesterday to endorse the president. James H. Trevel of Cedar Rapids was made chairman. Governor Carroll, who tried to form the anti-Taft life, at the convention yesterday afternoon, is a member.

It is proposed to carry on the Taft campaign in Iowa in co-operation with the state and national committee.

VETERAN OF SIXTH MASS.

BOSTON, July 11.—Benjamin F. Bernard, Wakefield's oldest veteran of the Civil war, the first man from that town to answer the call for volunteers, celebrated the 55th anniversary of his birth yesterday with a banquet at his home in Lake street, Wakefield.

Mr. Bernard was a lieutenant in the Richardson Life Guards of Wakefield. He had resigned just before the call of volunteers. He immediately re-called as a private and served through the war with the Sixth Massachusetts Volunteers.

AMERICAN ATHLETES MADE GREAT SHOWING

In the Olympic Games at Stockholm, Sweden, Today—Craig Won Great Race

STOCKHOLM, Sweden, July 11.—The program of the sixth day of the athletic section of the Olympic games presented some features of great interest, including the preliminary and semi-final heats of the 110 metres hurdles race, the final of the 200 metres flat race, the final of the 10,000 metres walking race, the final of the pole vault, the final of the weight putting, right and left hand, the 400 metres swimming race, free style, and the 100 metres swimming race, breast stroke, as well as water polo matches.

The standing of the various nations at the opening of the day's sports stood according to the official announcement, as follows:

United States 72; Sweden 55; Great Britain 47; Germany 23; France 19; Finland 12; South Africa 11; Denmark 11; Norway 10; Italy 5; Hungary 4; Bohemia 4; Russia 3; Austria 3; Canada 3; Greece 3; Holland 2; Australia 2.

The morning session in the stadium was comparatively tame. The only events, apart from the preliminary rounds in the wrestling competition and a display of gymnastics by a German team, were the final heat of the 10,000 metres walk in which George Goulding, Canada, won a deserved victory, and the eleven trial heats in the 110 metres hurdle race.

The United States team had the hurdle race all its own way, taking eight firsts and one second. The majority of the heats were not races, because in most cases there were only two runners and as first and second in each heat were entitled to compete in the semi-finals there was no incentive to fast running. All the American competitors secured places in the semi-finals. They were: James Wendell, New York A. C.; John R. Kelly, Seattle A. C.; John P. Nicholson, University of Missouri; Edwin M. Pritchard, L. A. C.; Vaughn S. Blane, Pritchard, L. A. C.; Martin W. Hawkins, Multnomah A. C.; John J. Eller, Jr., L. A. C.; and George A. Christensen, Boston A. C.

Other nations also were represented in the semi-finals. Nine competitors started in the final of the 110 metres hurdles. The only representative of the United States was Frederick H. Kelsay, New York A. C., and the race proved fast for him. He dropped out after fast for two miles. Goulding took the lead immediately and had a hard race with E. J. Webb, England, from the beginning.

F. Altmann, Italy, and A. Rasmussen, Denmark, were the only other men left in two miles before the finish, three others having fallen by the way. At the beginning of the last mile the Canadian led the Englishman by 30 yards and the Italian was 200 yards behind Webb. Goulding had increased his lead to 50 yards by the beginning of the last lap and continued to increase it till he crossed the tape, when he was 80 yards ahead.

Of the six semi-final heats in the 100 metres hurdle race this afternoon five were won by members of the United States team. These were: Martin W. Hawkins, Multnomah A. C.; John P. Nicholson, University of Missouri; Fred W. Kelley, Seattle A. C.; James Wendell, New York A. C.; and John R. Kelly, Seattle A. C. The other semi-final was won by K. Fowell, England, who will be the only athlete of non-American nationality to compete in the final tomorrow as the winners only of the semi-finals are qualified to participate.

The final of the 200 metres flat race belonged to Ralph Craig, Detroit, all most from the beginning. Donald F. Lippincott, University of Pennsylvania, broke away ahead at the start but Craig soon passed him. Harry S. Babcock, Columbia university first 3 metres 95 centimetres, Frank T. Nelson, Yale university, and Mark S. Wright, Dartmouth, all failed at that jump.

The afternoon program opened with the finals of the weight putting. The aggregate throw of the sixteen pound shot with both hands being reckoned, shot with the right hand being reckoned, the big American competitors attracted much attention. The result of the competition was reached by adding the best throws. Ralph Bosc's aggregate was 27 metres 37 centimetres (90 feet 5 1/2 inches); Patrick McDonald, 27 metres 35 centimetres (90 feet 3 1/2 inches); and E. Neiklander, 27 metres, 15 centimetres (89 feet and a small fraction).

WINS SWIMMING CONTEST

STOCKHOLM, July 11.—400 metres swim, free style for men, second heat. Kenney, Hungary, second. Time 6 minutes, 43 3/4 seconds.

Four heat, Lastorres Hungary, first; Taylor, England, second. Time 5 minutes, 16 1/4 seconds.

ALEXANDER WALTERS, D.D., BISHOP

New York City,
April 9, 1912.

MR. PHILIP J. ALLSTON,
135 Columbus Avenue,
Boston, Mass.

Dear Sir:

My personal experience in the use of Cuticura Soap and Cuticura Ointment in the treatment of a severe affection of the skin warrants me in pronouncing them the most valuable remedies within my knowledge.

I say this after consulting eminent physicians and the use of many preparations. I have seen so many suffering from skin troubles that I feel it my duty to publicly recommend these gentle, effective, and economical remedial agents.

Sincerely yours,
A. Walters

FREIGHT DERAILED

CAR ON THE STONY BROOK BRANCH OFF TRACK

One of the box cars which went to make up the freight train from Ayer to Lowell on the Stony Brook branch of the Boston & Maine railroad, was derailed early this morning and for several hours traffic on that portion of the branch was tied up. It was necessary for some of the early morning trains from Lowell to first go to Nashua and then to Ayer.

Fortunately the freight was traveling at a slow rate of speed or else many of the cars would have been wrecked.

REVERE SELECTMEN

VOTED TO REINSTATE THE BOARD OF FIRE ENGINEERS

BOSTON, July 11.—After deliberation in executive session until nearly midnight last night, the Revere selectmen voted 3 to 2 to reinstate the board of fire engineers who the selectmen suspended last week after a hearing in which the engineers were charged with unlawfully exceeding the appropriation for the fire department.

Soma two weeks since, the fire engineers voted to discharge Chief Arthur L. Kimball, which action was declared void by the selectmen, who claimed that such proceeding could not be done without first preferring charges and giving the chief seven days' notice and a hearing.

LORIMER CASE

FINAL ACTION WILL COME TO-MORROW

WASHINGTON, July 11.—Final action not later than tomorrow was in prospect when the senate resumed consideration of the Lorimer case today. This is the fifth session of the "Legislative Day" of July 6, the date set for the vote.

Senator Lorimer himself is not expected to make an extended speech, and it is thought he will conclude in time for a vote tomorrow though he does not get the floor before adjournment tonight.

ALIMONY FEE

HAS BEEN REDUCED TO \$1 A YEAR

BOSTON, July 11.—Ida Florence Heath's alimony of \$25 a week has been reduced to \$1 a year. This action was taken yesterday by Judge Pierce in the equity motion session of the Suffolk superior court. Mrs. Heath was granted a decree nisi against her husband, Arnold C. Heath, on the grounds of desertion, in April, 1911.

The decree became absolute in October, 1911, and in November of that year Mrs. Heath married a man named Ramsay. This fact did not become known to Mr. Heath until last March, and during the interim he continued to pay his wife \$25 each week. The decree that alimony shall consist of \$1 a year dates from March last.

SUES FOR DAMAGES

BECAUSE OF ERROR MADE IN SENDING MESSAGE

NEW YORK, July 11.—An unusual and yet easily explained error in the transmission of a telegraph message has resulted in a claim for damages against one of the telegraph companies for breaking an engagement that was soon to end in marriage. The company is charged with alienating the young woman's affections. The message was sent by the young man and read as follows:

"I love you forever."

When it was delivered to the address it read:

"I leave you forever."

Under the circumstances there was nothing for her to do but send back the young man's gifts, his engagement ring and all his letters, and before the sender of the message could communicate with her, she had accepted another offer of marriage. Hence the claim for damages.

Miss Anna Agnes Maley, Socialist
Nominee for Gov. of Washington

EVERETT, Wash., July 11.—Miss Anna Agnes Maley, socialist candidate for governor of Washington, is making an active campaign, and is believed to have a chance of election. She was born on a farm in Riley county, Minnesota, the eldest of a family of eleven. When 13 years old she went to Minneapolis, where she worked for her board while going through the high school. She taught school in the country until she was 22, when she studied stenography. She later studied at the University of Minnesota and at a school of social science in New York. When the Daily Call, a socialist paper, was established in New York she became its business manager. She later traveled all over the United States as organizer of women for the socialist party. She has recently been editor of the Commonwealth, a weekly paper published here, but has given up editorial work to devote her entire time to the campaign. She is delivering speeches daily and nightly.

GENERAL PASCUAL OROZCO HAS REACHED JUAREZ

He Says That Guerilla Warfare Will Harass the Mexican Government

JUAREZ, Mexico, July 11.—In the same custom house where President Diaz and where, also, a year ago, Francisco I. Madero established his triumphant rebel government, today sat General Pascual Orozco, Jr., wearing the torn threads of his unsuccessful military campaign against the federal government. The rebel chief, while admitting his defeat in an organized movement made it plain that the guerilla warfare now being planned was calculated severely to harass the Mexican government, but contemplated neither further nor alliance with any foreign government.

Toward the United States he said he entertained no ill will. From nations said to be friendly to his cause, he asked that he be given no assistance. This is a declaration by Mexicans and for Mexicans," he explained with emphasis.

General Orozco gave his attention also to the situation in the Mexican colonies in northern Mexico. He reiterated his promise of earlier days in the revolution that foreigners and their property would not be molested.

The Mexican Central railroad is slowly being destroyed in front of the rebels' system of railroad destruction will prevent the federal forces from reaching the vicinity of Juarez and the American border for at least two months. In the meantime, General Orozco considers that his men will have invaded Sonora and obtained control of the state, as well as a large part of the Pacific coast.

Incidentally General Orozco had come to Juarez, the new rebel capital, from Tlaxcala, 184 miles south, where the outposts of the rebel army on the Mexican Central railroad are now stationed.

Only a handful of officers and an Associated Press correspondent attended General Orozco's arrival. He was his father, Col. Pascual Orozco, who is in charge of the Juarez garrison.

General Orozco conferred today with his subordinates over a more effective prosecution of the rebellion. He believes that by guerilla warfare the government of Madero ultimately can be overthrown. The guerilla campaign has been mapped out secretly.

FOUR WERE INJURED BY A COLLISION

Car Hit Ice Wagon at Roslindale

BOSTON, July 11.—One man was seriously injured, three passengers received injuries necessitating the services of a physician and a wagon was damaged by collision of an ice wagon and an inward-bound Milton-Forest Hills car at Ashland street, near Sheldon street, Roslindale, shortly before 7 o'clock last night.

The wagon, which is owned by the Hub Ice company of Roslindale, was being driven by Riechenburg down Ashland street while the car was approaching in the same direction. In the collision Riechenburg was thrown violently from his seat. He was picked up in an unconscious condition and attended by a physician who ordered his immediate removal to the hospital and he was taken in the police automobile ambulance.

Charles Clinton of 491 Hyde Park avenue, Mr. Hope, a helper on the wagon, jumped and escaped with minor bruises. Alexander Vandell, another helper, who was in the rear of the wagon, was thrown out, but sustained no injuries other than a shaking up.

The two horses attached to the wagon were thrown from their feet by the collision but soon recovered their footing and were stopped by a by-stander. The wagon was badly damaged.

Passengers on the car were hurled from their seats.

The motorist of the car was Geo. Lehm and the conductor, John Rechter.

BADLY INJURED

CHILDREN WERE SCALDED BY BOILING WATER

BOSTON, July 11.—The two daughters of Thomas Burdette of 36 Valley street, Malden, Lena and Mary, aged 6 and 1 years respectively, were seriously scalded yesterday afternoon by pulling a pot of boiling water down on themselves from a gas stove.

The children had been left alone in the kitchen while their mother went through the house closing the windows in anticipation of the rain storm.

They were attended by Drs. Herbert S. Johnson and D. P. Randall. Their condition is serious.

WINE AN ISSUE

IN SUIT BROUGHT BY WIFE AGAINST HUSBAND

NEW YORK, July 11.—Whether Charles D. Harbeson bought 20 quarts of wine at one time to treat himself and friends as his wife says, or whether he bought only six quarts, as he says, will be the question presented at the trial of a separation suit filed yesterday in the supreme court.

Mrs. Katherine Harbeson charges she had to flee home with a few clothes and her jewels to escape her husband's cruelty. She says that as owner of a chain of five modiste establishments in New York, he profits \$10,000 a year.

Mrs. Harbeson sought \$500 a month alimony would be paid right but Justice Gavegan decided \$10 a month more appropriate. In her complaint she stated that on May 23 last, at No. 301 West Ninety-sixth street, her husband struck her in the face and then rushed from the house, announcing he would return to kill her. She made a quick exit and did not go back.

Hudson reports that on this occasion he asked his wife to explain a report he had heard concerning her and she laughed at him. He said his income is greatly exaggerated.

Mrs. Harbeson told the court her husband has spent as much as \$300 a day on the races and that he is very fond of wine.

THEATRE VOYONS

One of the features of the program at the Theatre Voyons today will be motion pictures of the Massachusetts delegation at Baltimore, headed by Mr. Humphrey O'Sullivan, and a very recognizable picture it is of several Lowell men. Then the Yale-Harvard boat race on the Thames, which was won by Harvard. Is shown, and in a couple of minutes. "Under Suspicion," the story of a poor boy, is a most touching one and well acted, and other portions of the bill are the best ever.

ESPERANTO LEAGUE

BOSTON, July 11.—The election of general officers and a meeting of the Students Esperanto league to which all young people were invited to attend, were features of today's session of the fifth North American congress of Esperanto.

Following a harbor trip and shore dinner the members planned toasts and rejoices in Esperanto at their annual dinner.

OLIER J. DAVID

HAS RETURNED FROM REUNION AT TROIS RIVIERES

Mr. Olier J. David of Ludlum street has returned from Trois Rivières, Que. where he attended the first convention of this class, which was held last week, 12 years after graduation. The boys, numbering 15, mostly all professional men and clergymen, assembled at the

FOR BABY'S SAKE USE

Then his skin will be free from itching, chafing, scalding, rashes, and all soreness. The original and best baby powder. For twenty years Comfort Powder has been considered the standard of perfection by thousands of New England physicians, nurses and mothers who use no other.

Comfort Powder
Then his skin will be free from itching, chafing, scalding, rashes, and all soreness. The original and best baby powder. For twenty years Comfort Powder has been considered the standard of perfection by thousands of New England physicians, nurses and mothers who use no other.

LAKEVIEW DANCE HALL

The best way to spend an evening when the temperature in the city is hovering around the century mark is to take a car ride to Lakeview park, which is the vernal of the street is "coming back strong" and there enjoy the advantages of the beautiful park. One of the principal features of this well equipped resort is the dance hall, which is located right over the water, where the breezes are so strong that you are obliged to hold your hat, and the floor is one of the best in New England. The music by Kittredge's orchestra is exquisite, the xylophone and bell solo by Tom Paul, Lowell's prominent drummer are sublime and the vocal solo by John V. Myers contribute to afford all who visit the place a most enjoyable time. At the fountain all the latest drinks are served, while in the bowling alleys, the sport is enjoyed as in the city in the winter time, owing to the installation of four large oscillating electric fans.

LAKEVIEW THEATRE

The attendance at this popular playhouse has increased every performance since the opening on Monday last of "The Minister's Sweetheart," as produced by the Mystic Players. It is a story of heart interest with here and there touches of comedy and pleases the most exacting audiences. Miss Elsie Gladys in the role of the minister's sweetheart is equal to its many requirements, has a pleasing personality and her performance shows the make of a finished actress. Kate Craig, in the comedy character of Mrs. Huddlestone is well suited to the part. His many humorous lines and situations please the audience immensely. Mr. Willis Steadman as the Rev. Mr. Duncheon has a part that many would over play, but Mr. Steadman cannot be accused of so doing and to his credit must be said that his portrayal of the minister is an artistic one. Mr. Arthur Claire as Norman Weir, the detective, who so ardently loves the minister's sweetheart, but when he discovers that she loves another the man within him comes to the surface, he sacrifices his own happiness that Irene may wed the man of her choice and live happy ever after. Mr. Claire's portrayal of this role

MRS. WILKES' BLESSING

Her Dearest Hopes Realized
—Health, Happiness
and Baby.

Plattsburg, Miss. — "Lydia E. Pinkham's Vegetable Compound has proved very beneficial to me, for now I am well and have a sweet, healthy baby, and our home is happy."

"I was an invalid from nervous prostration, indigestion and female troubles."

"I think I suffered every pain a woman could before I began taking Lydia E. Pinkham's Vegetable Compound, and I think it saved this baby's life, as I lost my first one."

"My health has been very good ever since, and I praise your medicine to all my friends." — Mrs. Verna Wilkes, R. F. D. No. 1, Plattsburg, Miss.

The darkest days of husband and wife are when they come to look forward to a childless and lonely old age.

Many a wife has found herself incapable of motherhood owing to some derangement of the feminine system, often curable by the proper remedies.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy.

We challenge anyone to name even one other medicine that has been so successful in relieving women's suffering as has Lydia E. Pinkham's Vegetable Compound.

THE KASINO

"Old Times" night was a happy thought, judging by the attendance Wednesday night and the expressions heard throughout the big Kasino dance hall. The Kasino orchestra, directed by James H. Buckley, played a score or more of the melodies that have been sung for the past 20 or 30 years, and the arrangement of these numbers for dancing was as nearly perfect as possible. Many couples were demanded and given, and the evening was passed most pleasantly by hundreds of people, young and old. By popular request, "Old Times" night will be repeated next Wednesday. Meanwhile, don't forget the dancing sessions afternoon and evening on Kasino hill, the coolest spot in town.

MERRIMACK SQUARE THEATRE

One of the best bills of summer vaudeville is to be seen at the Merrimack Square theatre this week. Edgar Foreman and company, presenting the laughable sketch, "The Highflyer," is especially amusing. The piece is a bright combination of comedy cleverly handled by Mr. Foreman and Miss Lilian Orr. The latter is a charming young actress, who possesses marked ability in her particular line. "The Highflyer" will no doubt make a decided hit with the patrons during the week. Next week this same company will present another delightful playlet. Others on this week's bill include Pierce and Knowles, high class comedians and character change artists, who give a decidedly novel 20 minutes of entertainment. La Gusta is a comedy slack wire performer, who has few superiors, and Miss Alice Dayley is as pleasing as ever in her illustrated songs. The photo-plays for the last three days of the week are in keeping with the high standard of the past. This theatre is always cool and comfortable.

PRETTY LAWN PARTY

A pretty lawn party was held last night at the home of Dr. and Mrs. Geo. E. Calise, 724 Merrimack street, the affair being given in honor of their nephew, Mr. Raymond Blais of Winooski, Vt., who is visiting in this city after completing his classical course at St. Hyacinthe seminary.

The lawn was beautifully decorated for the occasion with Japanese lanterns and potted plants, and the fête was largely attended. Out-door games were enjoyed and a varied entertainment was rendered in the open air, the piano having been removed to the lawn. Ice and a dainty luncheon were served.

MYSTERIOUS FIRE

IS BEING INVESTIGATED BY THE POLICE

BEVERLY, July 11.—The state police were called yesterday by Chief Robert H. Grant of the Beverly fire department to investigate a mysterious fire in the garage and stable of the Charles K. Cummings estate at Prides Crossing early yesterday, which burned two automobiles, a pair of valuable horses and caused \$20,000 damage.

A pony and a number of carriages were also destroyed. Two men were in the building at the time of the blaze and had a close call, as the flames spread rapidly. The Cummings estate is owned by Henry Stevens of Gloucester, who owned the horses and carriages.

The place is situated in the heart of the summer colony, near the residences of John T. Morse, Leonard Ahl, Francis Henderson and B. G. Swift.

STRUCK BY AUTO

BOY THOUGHT TO HAVE BEEN
FATALLY INJURED

BOSTON, July 11.—Walter Murray, a 15-year-old boy, of 1 Campbell place, Roxbury, was probably fatally injured at the corner of Campbell avenue and Pennington street, Roxbury yesterday afternoon by an auto owned and operated by Mr. J. Palmer of 5 Monument street, Charlestown.

The boy had been playing on the sidewalk and stepped off in front of the machine. Palmer picked him up and carried him to the City hospital, where he was found to have a fractured skull and possible internal injuries, from which recovery is doubtful.

seminary and spent a very pleasant week.

At the close of the meeting it was decided to meet again in five years at the alma mater, and the following officers were elected to serve during that time: Rev. Leon Arcand, D. D., Trois Rivières, honorary president; Rev. Emile Cloutier, Trois Rivières, honorary vice president; Dr. Charles Edmond St. Pierre, Montreal, president; Olier J. David, Lowell, vice president; Rev. Hector Marcotte, Trois Rivières, secretary; Dr. Onias Bellemare, Louisville, treasurer; Lawyer Arthur Trudel, Trois Rivières, assistant treasurer.

YOUNG WAGNER

WAS VERY LUCKY TO ESCAPE A KNOCKOUT

NEW YORK, July 11.—Patsy Kline came within a few seconds of knocking out Young Wagner in the main event at the St. Nicholas A. C. last night. Wagner was practically helpless when the bell ended the tenth round and his regulation mill.

Kline had the better of his opponent all the way, and but for the intervention of the final gong could scarcely have failed to put away his man. Twice in the closing period Patsy stretched Wagner prone on the canvas for the count. Three times the latter went down, the last time without being hit. The end found Wagner locked in a clinch, hanging on for dear life to stall off the finishing touch.

The last round redeemed what the fans considered a rather tame affair at fistfuffs. It wasn't a good fight because Wagner refused to make it further, however. He was considered the manly art. From start to finish, he sprinted madly about the ring. Kline chased him from the first bell until the last session, when he finally caught up to him. In the closing paragraph were inserted all the convincing arguments.

Early in this session Kline connected flush on the jaw with a left hook. Wagner crumpled, reeled and fell. It looked as if he were down for keeps, but he managed to stagger up and fall into a clinch. He held on until he pulled himself together a bit. Wagner could not have gone much further, however. He was considered the manly art. From start to finish, he sprinted madly about the ring. Kline chased him from the first bell until the last session, when he finally caught up to him. In the closing paragraph were inserted all the convincing arguments.

GOV. FOSS TO RUN AGAIN IF THERE IS NO CONTEST

David I. Walsh Will be His Running Mate on the Ticket

BOSTON, July 11.—Governor Foss is more than likely after all to lead the democratic state ticket this fall, and his running mate, as last year, will be David I. Walsh of Fitchburg.

This was learned yesterday after talks with several of the democratic leaders who are known to have been in conference with the governor over this matter.

It was learned also that these lead-

ers now feel certain that the governor should run again for the sake of the success of the party here in the coming presidential contest, and they have all told Governor Foss so.

It became known yesterday that the governor takes the attitude that if for the sake of the success of the party, both in the nation and state, it appears to the party leaders that he should run again, that he will forego his intention of retiring to business life this year, and will once more be a candidate for governor.

The governor, however, has made it known that he will only run in the interest of party harmony and success, and that if there is a contest for the democratic gubernatorial nomination he will not think of entering such a fight. In fact those close to his excellency state that to induce the governor to run there must be no contests for the nomination, and the leaders feel sure that neither Mr. Walsh nor District Attorney Pelletier will oppose him.

These same party leaders want Mr. Walsh to again run for lieutenant governor and it is announced that Mr. Walsh is ready if the governor is willing.

During his conference with leaders of the democratic party, Governor Foss has expressed the desire to see the party make a strong fight to obtain control of the governor's council.

Sherman L. Whipple favors for reelection Governor Foss, Governor Elia of Maine and Governor Baldwin of Connecticut as a way of giving assistance to the election of Wilson and Marshall.

Mr. Whipple, who for two years has been prominent as a democratic leader and candidate for United States senator, gave a decisive turn to the rumor that has been current for several days that Mr. Wilson wished the three New England governors to run for office again.

Mr. Whipple with David I. Walsh and others has been in conference with Governor Foss upon the democratic situation which began to look alarming when the promise of a contest between Mr. Walsh and District Attorney Joseph C. Pelletier for the democratic nomination.

Forty-six horses were hurriedly taken out of the stables at 42 and 44 Reading street, close to the burning building, but within 25 minutes the firemen had the flames, which at first seemed in danger of spreading, well under control.

The origin of the blaze is unknown, but owing to the highly inflammable nature of the material stored in the paint shop it had gained a good start before the first apparatus arrived.

FACTORY BURNED

FIRE IN ROXBURY CAUSED LOSS OF \$6000

BOSTON, July 11.—Three alarms were rung in for a fire which broke out early yesterday morning in the carriage and wagon painting factory of Green Bros. at 57 Southampton street, Roxbury, causing a total damage of about \$6000.

Forty-six horses were hurriedly taken out of the stables at 42 and 44 Reading street, close to the burning building, but within 25 minutes the firemen had the flames, which at first seemed in danger of spreading, well under control.

The origin of the blaze is unknown, but owing to the highly inflammable nature of the material stored in the paint shop it had gained a good start before the first apparatus arrived.

"KID GRIFFO" ARRESTED FOR SOLICITING ALMS

He Was Once the Lightweight Champion Pugilist of Australia

NEW YORK, July 11.—Albert Griffith, known in the pugilistic world as "Kid Griff," and for several years the lightweight champion of Australia, was arrested here early today, charged with soliciting alms. The former champion, shabbily dressed and hungry, was lined up at the station house before Sergeant Sheridan, who knew him well in his palmy days and recognized him despite the 200 pounds of flesh which concealed his once athletic frame.

"Fifteen years ago," said Sheridan, "I saw Griffith used to bet a thousand dollars that no one could knock a cigar from his mouth, while

he stood on a handkerchief. He didn't step off the cloth and he didn't strike a blow. He merely dodged, and always won his bet.

"His first fight in this country was for a purse of \$1000 at the Broadway Athletic club. He was and the cashier brought him a big roll of greenbacks—three one thousand dollar bills, eight hundred dollar bills and two hundred dollar bills in one dollar bills. He couldn't read or write, and he had never seen any of those bills of larger denominations. He was glad to get the one dollar bills, but didn't want the others. The crowd tried to persuade him to take them, but couldn't, so Griffith walked off with the two hundred one dollar bills and left the rest, \$3500."

FOREST FIRES

HELD UP TRAINS IN THE WHITE MOUNTAINS

INTERVALE, N. H., July 11.—Fire caused considerable damage at several points in the White Mountain region yesterday. Traffic on the Boston & Maine railroad was delayed by the burning of a wooden bridge over a small stream in the town of Madison.

The White Mountain express train from Boston was held up just below the stream and a special train was sent down from North Conway to take the passengers after they had been ferried over the river. The bridge will have to be rebuilt before any trains can pass over it.

A forest fire which has been raging since Sunday in the Pinkham Notch, just east of Mt. Washington, and on the slopes of Wildcat mountain, has burned over several hundred acres of heavily wooded land and yesterday appeared to be still beyond control. More than 200 men are fighting the flames and a dense cloud of smoke overhangs the whole eastern White Mountain region.

Another forest fire burned over a large territory at Twin Mountain.

COUPLE ELOPED

GROOM IS 16 AND THE BRIDE IS 19

HARTFORD, Conn., July 11.—"Harold hasn't any right to go and get married until he is at least 25 years of age, and Ruby, who is older, is as much to blame as he is" burst out Ticket Agent Charlie A. Warner of Warehouse Point last night when a reporter informed him that he had a new daughter-in-law, by reason of the elopement of his 16-year-old son, Harold Raymond Warner, with his playmate, Ruby Lee Palmer, the 19-year-old daughter of Mr. and Mrs. Henry Palmer, wealthy residents of Melrose, Conn.

The youthful elopers came to Hartford Tuesday afternoon and easily obtained a marriage license by swearing to 21 years of age. Then they repaired to the home of the Rev. J. F. Johnson, of the First Presbyterian church, who performed the ceremony.

After first threatening to disown his son, Mr. Warner seemed to think better of it and conceded that Ruby was "really a very nice girl and comes of a fine family." Yesterday morning the couple started on a honeymoon to Saratoga, Niagara and the Great Lakes.

KAPPA SIGMA FRATERNITIES

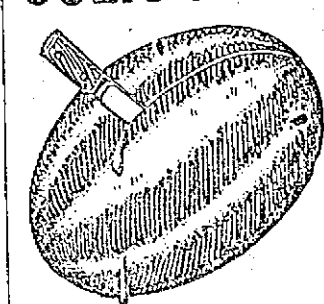

LOUISVILLE, Ky., July 11.—Each of the 79 chapters of the Kappa Sigma fraternity is well represented at the grand convocation which entered upon its second day's session this morning. Last night the fraternity men were guests of honor at a dance at which there were 200 Kentucky girls, each tagged with her name for convenience of the visitors.

GRAND CIRCUIT RACES

GRAND RAPIDS, Mich., July 11.—The Comstock \$5000 purchase for 2:11 class pacers was the chief attraction on today's grand circuit program. Nine fast performers made up the list of contenders for this prize.

Other events, with purses of \$1000 each, were the 2:39 pace, the 2:11 trot and the 2:09 trot.

MELON COLIC DAYS

Suggest
SANFORDS GINGER

A delicious combination of ginger, aromatic and fresh berries. Look for the Old Trade Mark on the wrapper. Best you get a cheap, worthless or dangerous substitute. Forty years the standard of purity, flavor and strength. Sold by all druggists and grocers.

After being quartered at Arlington Heights they are assigned to the Army of Virginia under Gen. Sigel. Later the band was assigned to the Army of the Potomac under Gen. Hooker. On the occasion of President Lincoln's visit eight bands played in competition and the 32d band led the list. Lincoln's son, who was with him, called the band "our band" thereafter.

The band was the last to leave Atlanta at the beginning of the march.

A Girl's Wild Midnight Ride

To warn people of a fearful forest fire in the Catskills a young girl rode horseback at midnight and saved many lives. Her deed was glorious but lives are often saved by Dr. King's New Discovery in curing lung trouble, coughs and colds, which might have ended in consumption or pneumonia. "It cured me of a dreadful cough and lung disease," writes W. R. Patterson, Wellington, Tex., "after four in our family had died with consumption, and I gained 87 pounds. Nothing so sure and safe for all throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by A. W. Dows & Co."

to the sea, and Mr. Smith was wont to say he felt as Nero did at the burning of Rome, playing as the flames lighted the city. After returning to this city he led a band and later taught dancing.

Mr. Smith presented to R. A. Pierce, past 150, G. A. R., several years ago an English snare drum that was used at the battle of Bunker Hill. It came to him by inheritance from Levi Smith, to whom it was given by a Rhode Island soldier, who picked it up in the entrenchments after the battle.

CHELMSFORD

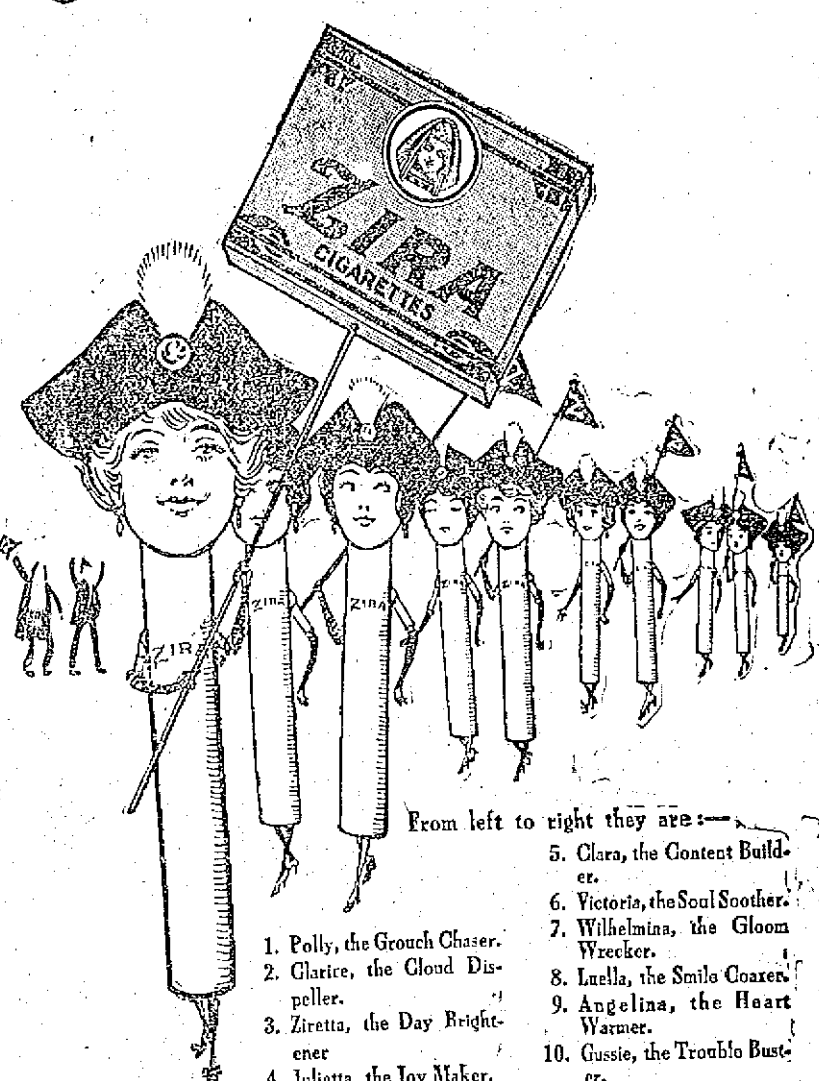

The members of the school board of the town of Chelmsford met in the town hall in Chelmsford Centre last evening and transacted considerably business. The teachers for the ensuing term were elected and other assignments were made. All of last year's teachers were re-elected. For next year Warden Arnold C. Perham announced that no more permits for starting fires in the open will be issued.

until the present severe growth is broken by heavy rain, and has so instructed his deputies. Two fires in the woods at East Chelmsford, one back of the Sullivan place, and one near the Thompson farm, have been burning since Thursday and Friday of last week.

CADUM for any skin irritation

This new remedy is very soothing and healing to an irritated or inflamed skin. It can be used with confidence in many skin troubles. It is antiseptic and destroys disease germs. Trial box 10c.

OH YOU ZIRAS!

HOT WEATHER RULES

It is remarkable what a number of fatalities result from a spell of intense heat. Many who endeavor to cool off by bathing in rivers or canals lose their lives by drowning because they take too many risks; while others are overcome at their daily avocations or perhaps while going about the streets. It should be remembered that the temperature usually runs highest along some of the streets exposed to the sun for the greater part of the day. The sidewalks, the pavements, the walls of buildings all get heated by the sun and thus the reflected added to the direct heat of the sun raises the temperature very considerably. This is one of the reasons why it is well to get out of the city if possible and into the shade of trees where there is at least a good circulation of air and protection from the sun.

The hot weather is particularly severe on infants and children not old enough to take care of themselves. The hot spell usually brings on stomach troubles for babies and in a great many cases results in cholera infantum that may prove fatal later on. When any symptoms of this disease appear, a doctor should be called at once because it is not to be trifled with. Even a day's delay may allow the disease to get such headway that it will be incurable.

Dr. Mahoney of the Boston board of health lays down the following very excellent hot weather rules which it would be well to follow during this hot spell:

"The day should be inaugurated with a cold sponge bath, for babies and children, as well as for grown-ups. A dip daily or frequently in the briny, of course, is excellent, but not indispensable. "Keep away from alcoholic drinks of all kinds. Reports show that in a great majority of cases those who are overcome by the heat are usually alcoholics; in fact, in many cases heat prostration is almost indicative of alcoholism.

"It is best to cut out meat, especially for children, during the heated term, for it is very heating. Adherence to a vegetable and milk diet is most advisable in the hot weather for all who would keep as cool as possible while the mercury is compelling with the thermometric tube for attitude honors. "Cold water is the best hot weather beverage and it should not be poured in too frequently, and naturally cold water is better than ice-water. The latter should be carefully handled and drunk not too frequently.

"As to children. Don't let them roam about in the hot sun. They should be lightly and comfortably clothed, their diet should be carefully studied, and they should be given a frequent sponge bath to keep them cool. They should not be given much if any meat.

"Disease conditions in general in this city this summer are much better than they have been for some time. Unlike last summer, there is an abundant supply of milk this year, while last year, at about this time, there was a considerable shortage."

DISORDER AT PUBLIC PLAYGROUNDS

Considerable complaint is made because of the unruly conduct of boys at the public playgrounds in Boston. Matters have become so serious that the mayor has appealed to the churches to plead with the boys for better conduct on the public playgrounds.

We are rather surprised at this roundabout way of stopping the disorder. In all probability the boys who make the trouble do not attend church. The boys are simply showing the result of improper training at school. If they had been subject to strict discipline at school they would not be unruly on the public playgrounds. The unruly boy is allowed altogether too much latitude. If he were curbed in when he begins to show a disrespect for authority, he would not make any trouble on the public playground. Some boys are permitted to act as rowdies in and around school yards. They are never satisfied unless when they are damaging property or abusing boys younger than themselves. It is quite noticeable that street signs, lamps and other public property in the vicinity of schools are usually hammered with stones, damaged and defaced. If these boys were held responsible for their conduct on the way to school and returning, their department might be very much better. If Mayor Fitzgerald wants to have order preserved on the public playgrounds let him appoint a good strong janitor to be ready at call when one of these offenders requires attention. Once they learn that there is somebody ready to attend to the mischief-maker they will take care to observe the rules. These boys act the rowdy only when they know they can do so with impunity.

Those in charge of the public playgrounds in this city last year, reported that the conduct of the boys was entirely satisfactory. Indeed there was reason to compliment the instructors in charge upon their perfect control of all the children who came to join in the different games and sports organized for their benefit. We believe that proper discipline is all that is needed in Boston and that it will have as good an effect there as in this city. It is all a matter of the capacity to govern possessed by the officers in charge. If they do not know how to govern a lot of boys they will have nothing but a bad time, but if they can control such an assemblage then can have things just as orderly as the average school room.

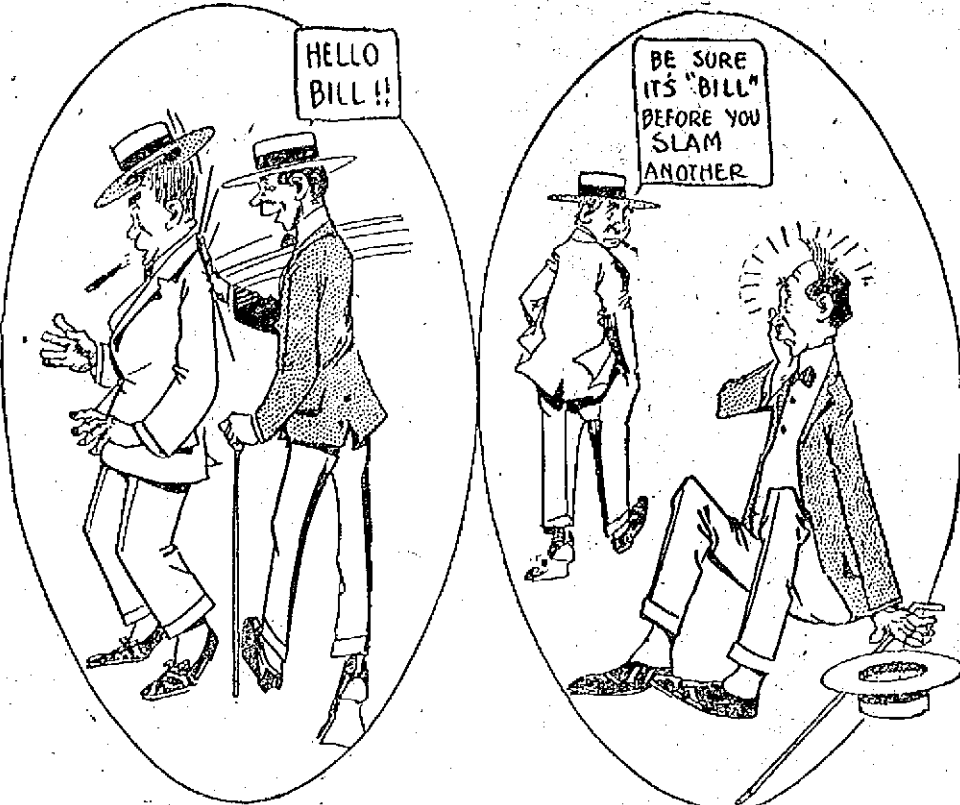

THE MYSTERY STILL UNSOLVED

After all the hearings held in regard to the city finances, it seems that as yet no one can tell just when the Huntington hall fund was expended or by whose authority. If the city council ordered the money turned into the general treasury there should be some record of such action and the city treasurer should know something about it.

If City Treasurer Stiles be simply displaced by another man, we do not believe he would have any reason to complain. We do believe, however, that if he did his full duty, he should be able to assist the municipal council to a greater extent in straightening out the financial muddle. He should be able to tell what happened to the Huntington hall fund and the Nesmith fund. Is it not a part of his duty to clear up the apparent mystery surrounding the disappearance of these two funds? Nobody suspects the treasurer of dishonesty, but everybody wonders why he cannot explain just when and how these funds disappeared.

As an accomplished and tactful presiding officer Mayor O'Donnell has won many compliments during the recent hearings at which he presided. His prompt decision of knotty questions in a manner that was readily conceded to be strictly fair to all concerned won the admiration of those present. A wrong decision either from ignorance or a desire to be unfair would condemn a presiding officer irrevocably, but Mayor O'Donnell did not at any point leave himself liable to such censure.

The candidates will probably cut more figure than the platforms this year. The Democratic party is strong on both and cares not on which the campaign may be betted.

EXPECTATION REALIZATION
LIFE'S DISAPPOINTMENTS

SEEN AND HEARD

The Toronto Globe (Toronto, Canada) takes a Torontonians to task for using a little small cuss word. This fellow was talking about a cyclone he had seen and he said it was "just like hell hot loose." The Toronto Globe had this to say about it: "It is a pity the Canadians are copying the absurd American habit of extravagant profanity."

Another Canadian paper, and a good one, the Hamilton Herald, criticises the Toronto Globe's criticism thusly:

What the Globe mistakenly assumes to be a bit of American slang is an expression in the stateliest of English poetical diction, and is more than 250 years old. In the fourth book of Paradise Lost, where Satan is discovered in Eden, the angel Gabriel, addressing the archangel, says:

"Wherefore with thee Came not all hell broke loose?"

Now, take that, Mr. Globe man.

One western paper says that the owner of a chain of yellow journals killed Champ Clark. "Nuff sed."

Is that a joke about a bull moose being seen in the woods near Beverly?

"There's one mean policeman at the police station," said a fellow who had been given his freedom on Monday morning after spending the Sabbath in the bastille. "He was passing my cell Sunday forenoon," he continued, "and I asked him what time it was. 'What do you care about the time,' he said, 'you are not going anywhere.'"

"I can truthfully say I am a success," said the literary man who had hitherto kept silent.

The others looked at his modest attire and tried to think of something he had written.

"Yes," he went on, "it is easy enough for a business man to stay married when he is home only one day in the week, but I have been doing all my work at home for nearly 30 years and I still have the same wife I started with."

Save your kashmir shawl. It may soon become as valuable as a fine old rug. The use of imported European wool in India threatens the extinction of what remains of the shawl industry in that country and it is impossible for it to regain its lost position. In fact, it is only a matter of time, when a fine kashmir shawl will be a curiosity. Also the Indians, with the advance

HEALTH AND BEAUTY HINTS

BY MRS. MAE MARTYN

Mrs. J. L.: Frequent shampoos with cambric during the summer months insure a fine growth of brilliant, fluffy hair, rich in its natural color and so responsive to the fingers' touch that doing it up is a genuine pleasure. A teaspoonful cambric dissolved in a cup of hot water is enough mixture, and when this is rubbed into the hair, the abundance of white, thick lather that quickly dissolves all dust, dandruff and excess oil. Rinsing leaves hair and scalp immaculately clean, and the hair will dry quickly and evenly. The regular use of cambric gives to the hair that exquisite fluff and massy softness and will insure a lovely growth.

E. A. F.: A delicate paste will remove the hairy growth. Mix enough powdered cambric with water to cover the hairy surface, apply and after 2 or 3 minutes remove, wash the skin and the hairs are gone. This treatment is harmless and does not discolor the skin.

Anxious: Cutting the lashes is dangerous. Apply a little prolox each night to the roots of the eyelashes, and forefinger and they will come in long and silky. Thin eyebrows will grow thick and heavy if prolox is rubbed on with finger and thumb. It is not to get any where hair is not wanted.

Mrs. O. H.: Turkish baths are a severe tax on the system. Try the Laxative treatment for fat-reduction and I am sure your weight will soon be just where you want it. To prepare, dissolve 4 ounces paraffin in 12 pints hot water, then take a tablespoonful before each meal. This gradually and surely dissolves the fat and restores the figure's symmetry without possible injury or inconvenience and when your weight is where you want it, you can stop without fear of its returning.

Lydla: Large pores and skin roughness can be overcome with the aid of an almond cream-jelly. This is made by stirring 2 teaspoonfuls glycerine into 1/2 pint cold water, to which is then added 1 ounce cream. Apply generously to the skin each day, and it will clear it of all local impurities.

This cream-jelly is fine for beautifying the arms, neck and face, as well as for banishing sallowness and that greasy condition, and it can also be used with good effect, for rounding

out hollows and dispelling fine lines between the eyes, as for discoloring aging hairy growths.

Mrs. Harry: Impure blood is the cause of much sickness and it would advise you to begin at once a hard treatment. This is an old-fashioned, but it is made by putting 1 ounce redness into 1/2 pint alcohol, then adding 1/2 cupful sugar and hot water to make a quart. Take 1 tablespoonful before each meal and it will gently cleanse the blood and tone up the entire system. This will give you renewed strength and energy and make you feel good and healthy, and frequently prevents serious sickness.

Mrs. Tim: Unhealthy scalps cause profuse dandruff, excess oiliness and other unctions, and these in turn cause the hair to grow lifeless, brittle and fall out. Try the quinine tonic I frequently mention and you can correct all this. Just add 1 ounce quinine to 1/2 pint alcohol, then pour in 1/2 pint water and your tonic is ready. Frequent applications of this hair-tonic will banish all scalp afflictions, keep it healthy and induce an abundance of soft, brilliant hair, rich in its natural color.

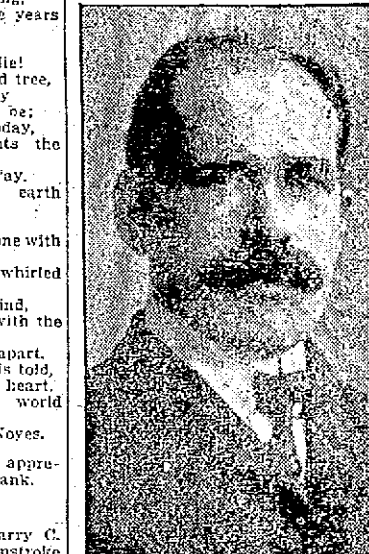

Alma M.: You need have no fear of eye or freckles if you apply daily a plain spumax lotion, made by stirring 1 ounce spumax into 1/2 pint water (or hot water) to which has been added 1 teaspoonfuls glycerine. This lotion is superior to powder, because it does not clog the pores, and it imparts an exquisite fluff and velvety smoothness to rough, oily, blotchy or "muddy" skins. The regular use of the spumax lotion insures a youthful complexion not possible by any other means. The spumax lotion also is invaluable when on and is not affected by wind or perspiration.

Mena: Your dull, expressionless eyes, when treated with a simple crystal tonic, will soon regain their former brilliancy and expressiveness. To make the tonic, dissolve 1 ounce crystal in a pint cold water, then put 2 or 3 drops in each eye daily. Nothing equals the crystal eye-tonic for restoring clearness, reducing inflammation and for granulated lids. Its use often does away with glasses.

DENNIS J. HEALEY
CHOSEN PRESIDENT

Of Amalgamated Leather Workers Union

Dennis J. Healey of this city was elected general president of the Amalgamated Leather Workers' union of America at the 12th annual convention of that body which opened July 1st at Beethoven hall, New York city, and continued for four days. Several other Lowell men were also elected to high offices and the local delegates took a very active part in the convention.

DENNIS J. HEALEY.

Several matters of importance were discussed, and resolutions adopted which affect the labor movement in this country.

One of the resolutions adopted was that disapproving the action taken by the supreme court justice of the District of Columbia in the case of President Samuel Gompers, Secretary Frank Morrison and Vice President John Mitchell of the A. F. of L.

The delegates from the different states reported legislative measures of interest to unionism and labor bodies.

The following officers were elected: General President, Dennis J. Healey of Lowell; general vice president, Chas. Shanley, Lowell; general second vice president, Thomas E. Flier, Newark, N. J.; general organizer, Fred Latendresse, Lowell; general secretary treasurer, James Brennan, Lowell.

A sight-seeing invitation was extended to the officers and delegates by the New York local, but the majority of them found it impossible to participate in it owing to the long distance of home travel.

The delegates from Lowell were: James Coleman, Charles Shanley, Fred Buckley, William Linton.

SAVED A CHILD
EXPRESSMAN BLOCKED RUNAWAY WITH TWO-HORSE TEAM

HOLYOKE, July 11.—James T. Reed of South Hadley Falls, an expressman, saved 2-year-old John Kay of Hampshire street from death or serious injury at 11 o'clock yesterday forenoon by turning his two-horse team in front of a runaway horse attached to a laundry wagon, the outfit being owned by N. J. Blanchard.

Mr. Reed saw the horse running toward an alley, and also saw the little child standing in its path. He quickly wheeled his pair of horses across the alley and in the path of the runaway, which struck them with a crash. Mr. Reed was thrown to the ground, but held on to the lines. His horses ran and dragged him on Hampshire street, where he was run over by his own wagon and rendered unconscious. Shortly afterward the pair brought up against a telephone pole and one of them was so badly injured that he had to be shot. The laundry horse also continued, but finally stopped after wrecking the wagon. Mr. Reed was taken home and examined by a doctor. His speedy recovery is expected. The child was unharmed.

THE NEW NICKEL
BLACK HAND NOTE

WILL HAVE BUFFALO INSTEAD OF GODDESS
WASHINGTON, July 11.—The executive order which will completely change the design of the United States 5-cent piece probably will be issued by Pres. Taft within a few weeks.

J. W. Frazer, the New York artist who is working out the design, conferred with Secretary MacVeagh and George E. Roberts, director of the mint, yesterday, regarding the details of the new coin.

The figure of a buffalo has been selected for the nickel's face to displace the Goddess of Liberty because, it is explained, the buffalo is peculiarly an American animal. The Goddess of Liberty is on several other United States coins.

The thought of the buffalo suggests the Indian and for that reason an artistic head of a red man will adorn the reverse of the new piece of money.

FREE! FREE! FREE!
To All Who Are Troubled With RHEUMATISM

Sciatica, Neuralgia, Lumbago, Sprained Joints, Chest or Lung Diseases, Humors, Weak or Painful Back, Kidney and Liver Complaints, Pleurisy or Gout.
We invite all who are troubled with any of the above diseases to try SPALDING'S WONDERFUL PLASTERS—ABSOLUTELY FREE.
Not good after Tuesday, July 16. Hours: 9 a. m. to 1 and 2 to 6 p. m.

Spalding's Specialist will be with us all this week to explain the use of these plasters, and will show hundreds of testimonials from people who have been cured. Don't fail to take advantage of this free offer.

Spalding's Plasters are made in different shapes TO FIT all parts of the body.

Cut out this Ad. and present same to Spalding's representative at our Patent Medicine department between the hours of 9 to 1 and 2 to 6, and get a trial of these Wonderful Plasters FREE

A black rosette of epeira larva on the door of Truett No. 3 at the Central station in Palmer street, out of respect to the late Robert W. Sloman, a member of the company, who passed away at St. John's hospital yesterday afternoon as a result of heat prostration.

Beginning today, the local clerks in the dry goods establishments and butcher shops will be given a half holiday a week, as the stores will close Thursday afternoons. In some stores this will last till October, while in others the Thursday afternoon work will be resumed in September.

A girl supposed to be a resident of this city is being held by the Nashua

police. She is mentally deranged, and the only information that the police of the up-river city can secure from her is that her name is Belanger and her father, Louis Belanger, resides in Lowell. The only person of that name in the city directory when interviewed denied that the girl is any relative of his.

WET DOWN THE STREETS

Fire Dept. Made Some Places Comfortable

The firemen turned out last night and wet down the congested districts in various parts of the city much to the pleasure of the residents. In some districts where there are large tenement blocks and very little breathing space the buildings became so hot from the sun's rays pouring on them all day that it is practically out of the question to sleep and when those who have to work arise in the morning they are more fatigued than before they retired for the night.

Last night members of Engine companies 5 and 6 wet down Broadway avenue and Gage street, and the members of Hose 11 used several lines of hose on Davis, Winter and William streets.

It is expected that different companies will visit Davidson and Howe streets and Little Canada tonight.

BOY WAS DROWNED

WHILE WADING IN THE CHARLES RIVER

BOSTON, July 11.—Thomas Burke, the 8-year-old son of Bartholomew Burke of 22 Vinland street, Brighton, was drowned in the Charles river at Faneuil about 5 o'clock yesterday afternoon.

The body was recovered an hour later by officers of the North Brighton station of the Metropolitan police.

The scene of the accident is a few hundred feet west of the Faneuil railroad depot, known as the Point. It is a favorite bathing spot for older boys, though known to be dangerous on account of the many holes. The Burke boy sank in about 30 feet of water 30 feet out from the Faneuil shore.

A number of boys had been bathing off the Point. They all came out and began to dress except the Burke boy and another about his own age, named McLean. Neither could swim very well. They began to wade out, hand in hand.

The McLean boy got about up to his neck when suddenly young Burke's head broke and he sank. The McLean boy in fright started back for the shore.

Some of the boys on the shore swam out, hoping to help the Burke boy, but he had again come to the surface, but he did not appear.

Small accounts solicited and appreciated. Old Lowell National Bank.

KILLED BY TRAIN

MALDEN, Mass., July 11.—Edward McLaughlin of Wrentham was killed today by a morning passenger train as he was crossing the tracks. He was a laborer, aged about forty.
